have shaped this trend including important Ming and Qing dynasty works of drama Buddhist texts and other religious philosophical works in all their subtlety and evocative power The power of qing or strong emotion is a major theme in late imperial Chinese literature some writers asserting that it can transcend even life itself Qiancheng Li surveys a number of seventeenth century philosophical religious and literary texts to elucidate the metaphysical aspects of emotional attachment and of sexual desire in particular Through his broad and penetrating reading Li demonstrates incontrovertibly how to seventeenth century writers qing and religion were inextricably linked To those writers qing could bring enlightenment and certainly Li s study enlightens its readers to new levels of complexity in major literary works of that period Transmutations of Desire sets a major new milestone in the study of traditional Chinese culture Robert E Hegel Washington University in St Louis
