Blake,2014-04-30 While Dostoevsky s relation to religion is well trod ground there exists no comprehensive study of Dostoevsky and Catholicism Elizabeth Blake s ambitious and learned Dostoevsky and the Catholic Underground fills this glaring omission in the scholarship Previous commentators have traced a wide ranging hostility in Dostoevsky s understanding of Catholicism to his Slavophilism Blake depicts a far more nuanced picture Her close reading demonstrates that he is repelled and fascinated by Catholicism in all its medieval Reformation and modern manifestations Dostoevsky saw in Catholicism not just an inspirational source for the Grand Inquisitor but a political force an ideological wellspring a unique mode of intellectual inquiry and a source of cultural production Blake s insightful textual analysis is accompanied by an equally penetrating analysis of nineteenth century European revolutionary history from Paris to Siberia that undoubtedly influenced the evolution of Dostoevsky s thought      **Before They Were Titans** Elizabeth Cheres Allen,2019-08-28

Dostoevsky and Tolstoy are the titans of Russian literature. As mature artists they led very different lives and wrote vastly different works, but their early lives and writings display provocative kinships while also indicating the divergent paths the two authors would take en route to literary greatness. The ten new critical essays here, written by leading specialists in nineteenth-century Russian literature, give fresh sophisticated readings to works from the first decade of the literary life of each Russian author: for Dostoevsky the 1840s, for Tolstoy the 1850s. Collectively these essays yield composite portraits of these two artists as young men finding their literary way. At the same time they show how the early works merit appreciation for themselves before their authors were Titans.

**Narrative, Space and Gender in Russian Fiction: 1846-1903** Joe Andrew, 2007-01-01. The present volume has as its primary aim readings from a feminist perspective of a number of works from Russian literature published over the period in which the woman question rose to the fore and reached its peak. All the works considered here were produced in or hark back to a fairly narrowly defined period of not quite 20 years: 1846-1864, in which issues of gender of male and female roles were discussed much more keenly than in perhaps any other period in Russian literature. The overall project is summed up by the three key words of this book's title: narrative, space, and gender, and especially the interconnections between them. That is what do the way these stories were told tell us about gender identities in mid-nineteenth-century Russia? Which spaces were central to these fictional worlds? Which spaces suggested which gender identities? The discussions therefore focus on issues of narrative and space and how they acted as technologies of gender. This volume will be of interest to all interested in nineteenth-century Russian literature as well as students of gender and of the semiotics of narrative space.

*Dostoevsky's Polyphonic Talent*

Barnhart, 2005 This book illuminates the connectedness of Dostoevsky's literary art with his philosophical and psychological brilliance Two Fyodor Dostoevsky conferences originating at the University of North Texas set the stage for this volume Scholars contributed original papers focusing on how Dostoevsky's literary art and philosophical insights enrich one another Fyodor Dostoevsky wrote and thought polyphonically His polyphonic method is both his special literary technique and his distinctive way of probing theological social and philosophical depths As Bakhtin and Terras suggest all Dostoevsky's major literary inventions from the underground man to the vitriolic Grushenka are products of his ability to listen profoundly to his own characters Like the genius author redactor of 1 and 2 Samuel he reports the heights and depths of human emotion and behavior whether exploring the anatomy of dysfunctional families making the heart soar with Zosima's vision of forgiveness or giving Ivan Karamazov full rein to challenge theism Dostoevsky's characters transform themselves into irregular verbs whose fierce independence emerges only because of their desperate and inescapable interdependence His major characters are text subtext and context for each other They play inside each other's head and answer in one way or another
