Seeing Catalonia:

Catalonia's Human Towers Mariann Vaczi, 2023-07-18 The building of human towers castells is a centuries old traditional sport where hundreds of men women and children gather in Catalan squares to create breathtaking edifices through a feat of collective athleticism The result is a great spectacle of effort and overcoming tension and release Catalonia s Human Towers is an ethnographic look at the thriving castells practice a symbol of Catalan cultural heritage and identity amid debates around national autonomy and secession from Spain While the main function of building castells is to grow community through a low cost intergenerational and inclusive leisure activity Mariann Vaczi reveals how this unique sport also provides a social base image and vocabulary for the independence movement Highlighting the intersection of folklore performance and sport Catalonia s Human Towers captures the subtle processes by which the body becomes politicized and ideology becomes embodied with all the desires risks and precarities of collective constructions

The Politics of Contemporary Spain Sebastian Balfour, 2005-07-08. While Spain is now a well established democracy closely integrated into the European Union, it has suffered from a number of severe internal problems such as corruption, discord between state and regional nationalism and separatist terrorism. **The Politics of Contemporary Spain** charts the trajectory of Spanish politics from the transition to democracy through to the present day, including the aftermath of the Madrid bombings of March 2004 and the elections that followed three days later. It offers new insights on the main political parties and the political system, on the monarchy, corruption, terrorism, regional and conservative nationalism and on Spain's policies in the Mediterranean and the EU. It challenges many existing assumptions about politics in Spain, reaching beyond systems and practices to look at identities, political cultures and mentalities. It brings to bear on the analysis the latest empirical data and theoretical perspectives.

A Citizen's Democracy in Authoritarian Times Thomas S. Harrington, 2019-01-08. Agents of sedition who are heedlessly destroying Spain's consolidated democracy. Xenophobes simply interested in protecting their own wealth who are behind the rhetoric, not that different from the tribal authoritarians coming to the fore in Hungary and northern Italy. These are but two of the many narrative tropes the Spanish government and the establishment press in Europe and the US are rolling out to counter the rise of separatist sentiment in Catalonia. In this book, Thomas S. Harrington, an American with a deep familiarity with Catalan culture and history, argues that far from being a threat to democracy in Europe, the scrupulously peaceful and people driven movement for independence in Catalonia is perhaps the best hope we have for spurring its much hoped for renewal.

Catalan Independence and the Crisis of Sovereignty Óscar García Agustín, 2020-12-14. This book explores the conflict between the Catalan project to become independent and the Spanish state's opposition to any attempt of secessionism. The volume addresses some of the key political and academic issues of contemporary European societies: nationalism, separatism and sovereignty. The banned referendum in Catalonia in October 2017 unveiled the existence of multiple crises from territorial to economic and political. Indeed, the Catalan issue is about the crisis of sovereignty who holds

legitimacy to make decisions and who is in power legally and politically The book is structured according to three themes sovereignty and its people where the realignment to independence populism and the definition of the demos are discussed collective identities and actions to account for the shaping of us the importance of collective memory and the cross alliances forged during the referendum and internationalization focusing on Europeanisation international media and comparative constitutional perspectives

Marginal Voices, Marginal Forms, 2023-11-27 Diaristic writing has often been relegated to the fringes of literary studies as a marginal cultural activity This volume seeks to challenge that marginality by exploring some of the wide ranging forms of literary practice encompassed by diaristic writing in Europe from the Renaissance to the present day The volume deals with questions of the value and status of the diary of the functioning of the diary in society and history and of the reception and interpretation of the multifarious forms of first person daily writing The volume investigates diaries across national borders and linguistic boundaries so as to make the hitherto marginal place of the private journal a site of fruitful interdisciplinary encounters Australian British Catalan French German and Italian critics examine diaries dating from the sixteenth to the twentieth century within the context of the literature history and literary history of Catalonia England France Germany and Italy A prime concern of the essays in this collection is to highlight the cultural generic and historical diversity of the diary while emphasising the points of convergence between different texts and differing critical approaches to the texts The volume will be of interest to students and teachers of European and comparative literature
