Seeing Things Light:

Seeing Things Kartik Nair, 2024-02-13 In 1980s India the Ramsay Brothers and other filmmakers produced a wave of horror movies about soul sucking witches knife wielding psychopaths and dark caped vampires *Seeing Things* is about the sudden cuts botched prosthetic effects continuity errors and celluloid damage in these movies Such moments may very well be failures of various kinds but in this book Kartik Nair reads them as clues to the conditions in which the films were once made censored and seen offering a view from below of the world's largest film culture Combining extensive archival research and original interviews with close readings of landmark films including *Purana Mandir* *Veerana* and *Jaani Dushman* this book tracks the material coordinates of horror cinema's spectral images In the process *Seeing Things* discovers a spectral materiality one that informs Bombay horror's haunted houses grotesque bodies and graphic violence and gives visceral force to our experience of the genre's globally familiar conventions

The Future of Seeing Daniel K. Sodickson, 2025-10-29

Over the centuries we have learned to peer into what was once invisible Imaging devices like cameras telescopes microscopes and MRI machines map the world around beyond and within us in ways the naked eye could never see In so doing these technologies have transformed our understanding of our place in the universe and our conception of our own bodies and we may be on the cusp of an even greater revolution Daniel K Sodickson a physicist and biomedical imaging innovator explores the rich history and surprising future of vision from the evolution of eyes to emerging high tech devices Beginning in the early oceans when organisms first developed sight *The Future of Seeing* tells the stories of the many remarkable tools people have invented to extend our natural vision Ranging from the tales of brilliant inventors to profiles of everyday people this book shows how imaging has transformed the practice of medicine reshaped the global economy and complicated the notion of privacy In the era of artificial intelligence Sodickson argues it will be reinvented even further emulating not only our senses but also our brains Inviting and eye opening *The Future of Seeing* is a revelatory look at what imaging teaches us about the way we see the world each other and ourselves
