

Alternative Politics, Political Alternatives, and Innovative Social Change in Nigeria

Being Text of a Keynote Address Delivered by HE Dr Kayode Fayemi, CON, at the Conference on Redesigning Democracy Held at the University of Oxford on Thursday 20 October, 2022.

Protocols

Let me first and foremost thank the organisers of this conference for the kind invitation extended to me to be part of the proceedings. In effect, this will be my first substantive engagement in the few days since I handed over the baton of leadership in Ekiti State and the Nigeria Governors' Forum. Although much more time is needed for me to process the totality of my experience for the purpose of informing our collective understanding of power and politics in contemporary Nigeria, and despite my urgent personal need for a quality holiday, I welcomed your invitation as an early opportunity to contribute to ongoing reflections about the need to rethink democracy generally and, more specifically, our framing of alternatives in the administration of public affairs in Nigeria and, indeed, around the world.

My point of departure is to suggest that while there is no doubt that alternatives are a necessary, and even an inevitable component, of any living political system, it is important that as scholars and practitioners, we strive also at all times to demystify them from the excessive air of drama and circumstance in which they tend to be wrapped in scholarly discourses. This is for the simple reason that alternatives exist and are mobilised everyday and at all levels as part of our experiences of governance. In other words, alternatives, understood generally as encompassing forward-looking vision and practice that depart from a dominant but problematic and/or contested norm, are an integral part of everyday politics - and, indeed, all spheres of human endeavour.

Although they are fired by an admixture of vision, passion, and necessity, and, in highly repressive political contexts, would require to be pursued with courage and sacrifice, alternatives are also played out simultaneously at multiple levels - micro, meso, and macro. Additionally, they are carried by different actors - big and small, formal and informal, and domestic and external. Alternatives also manifest and are

Seeing Beyond Personal Social And Political Alternatives:

Seeing Beyond--personal, Social, and Political Alternatives, 1971 **Catalog of Copyright Entries. Third Series**
Library of Congress. Copyright Office, 1973 *Socialism the Active Utopia (Routledge Revivals)* Zygmunt
Bauman, 2009-11-18 Rather than contributing to the long standing discussion about the characteristics of the society that
socialism proposes to establish this Routledge Revival initially published in 1976 aims to explore the impact of the living
utopia of socialism on the development of modern society It begins with an analysis of the role of utopia in general and of the
socialist utopia in particular Bauman considers the opposition between utopian and scientific social thought He presents
socialism as the counter culture of capitalist society The book finally examines the reasons for the failure of socialism in its
application to the peasant revolution in Russia It then explores some possible forms that the socialist utopia might take in the
industrial societies of the late twentieth century Professor Bauman writes for those who want to understand the logic of the
historical fate of socialism in the present century who are concerned about the validity and vitality of socialist ideas on the
development of modern society and who are interested and perhaps confused by the cultural and ideological conflicts of the
last few decades *Societal Directions and Alternatives* Michael Marien, 1976 *Planning Alternative World Futures* Louis
René Beres, Harry R. Targ, 1975 Addresses the concept and design of alternative futures for such urgent world problems as
international and national security systems populations diminishing natural resources environmental deterioration and the
widening gap between rich and poor Cover 4 **Encyclopedia of Criminological Theory** Francis T. Cullen, Pamela
Wilcox, 2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for
students studying criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference
Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a
sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary
background to appreciate and integrate the reference However university reference librarians can tell you this is often far
from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist
with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these
students to a quick one stop source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological
Theory available in both print and electronic formats This serves as a reference source for anyone interested in the roots of
contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all
the key theories and the theorists behind them presenting them in the context needed to understand their strengths and
weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one
might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas
schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime

policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory **Ark II; Social Response to Environmental Imperatives** Dennis Pirages, Paul R. Ehrlich, 1974 **Political Science and the Study of the Future** Albert Somit, 1974 Contemporary Critiques of Political Economy Ananta Kumar Giri, 2024-01-23 This book analyzes contemporary critiques of political economy and highlights the challenges to rethinking contemporary discourses and practices It carries out a multipronged critical and transformative dialogue involving political economy moral economy moral sociology moral anthropology and spiritual ecology The authors discuss diverse themes such as the relationship between consciousness and society the dialogue between Karl Marx and Carl Gustav Jung a critical sociology of morality and property relations moral and political economy of the Indigenous peoples and a critique of modern civilization economic evaluation as well as alternative traditions of thinking in Marx Thoreau Gandhi J C Kumarappa Rammanohar Lohia B R Ambedkar and Jayaprakash Narain A unique transdisciplinary text the book brings together authors and approaches from both the Global North and South It will be indispensable to students research scholars and teachers of humanities and social sciences in such fields as economics sociology philosophy cultural studies and development studies **The Winter of Discontent** Tara Martin López, 2014 A reassessment of the myth of the British Winter of Discontent 1978-79 from the perspective of those involved in particular grassroots activists and the growing number of female activists Comparative Political Culture in the Age of Globalization Hwa Yol Jung, 2002-01-01 With its specific focus on Asia this anthology constitutes an excursion into the realm of transversality or the state of postethnicity which the book argues has come to characterize the global culture of our times Hwa Yol Jung brings together prominent contemporary thinkers including Thich Nhat Hanh Edward Said and Judith Butler to address this fundamental and important aspect of comparative political theory The book is divided into three parts Part One demythologizes Eurocentrism deconstructing the privilege of modern Europe as the world's cultural scientific religious and moral capital Part Two traces the rise of Asian thought and the process of East-West cultural hybridization while Part Three introduces the concept of the global citizen Jung's anthology reveals a postmodern multiculturalism whose new philosophical matrix transgresses the existing cultural and intellectual typology to offer new understanding of today's pluralistic world **The Routledge Companion to Alternative and Community Media** Chris Atton, 2015-05-15 The Routledge Companion to Alternative and Community Media provides an authoritative and comprehensive examination of the diverse forms practices and philosophies of alternative and community media across the world The volume offers a multiplicity of perspectives to examine the reasons why alternative and community media arise how they develop in particular ways and in particular places and how they can enrich our understanding of the broader media landscape and its place in society The 50 chapters present a range of theoretical and methodological positions and arguments to demonstrate the dynamic challenging and innovative thinking around the subject locating media theory and practice within the broader concerns of democracy citizenship social exclusion

The Political Power of Economic Ideas Peter A. Hall, 2020-11-10 John Maynard Keynes once observed that the ideas of economists and political philosophers both when they are right and when they are wrong are more powerful than is commonly understood The contributors to this volume take that assertion seriously In a full scale study of the impact of Keynesian doctrines across nations their essays trace the reception accorded Keynesian ideas initially during the 1930s and

then in the years after World War II in a wide range of nations including Britain the United States France Germany Italy Japan and Scandinavia The contributors review the latest historical evidence to explain why some nations embraced Keynesian policies while others did not At a time of growing interest in comparative public policy making they examine the central issue of how and why particular ideas acquire influence over policy and politics Based on three years of collaborative research for the Social Science Research Council the volume takes up central themes in contemporary economics political science and history The contributors are Christopher S Allen Marcello de Cecco Peter Alexis Gourevitch Eleanor M Hadley Peter A Hall Albert O Hirschman Harold James Bradford A Lee Jukka Pekkarinen Pierre Rosanvallon Walter S Salant Margaret Weir and Donald Winch
