Sefer Lekah Tov:

Sefer Lekah Tov Yom Tov ben Moses Zahalon, 1977 *Sefer Lekah Tov* Yom Tov Ca. Zahalon, 1977 *Sefer Lekah Tov : Commentary on the Book of Esther : Safed 1577* Yom Tov ben Moses Zahalon, 1977 The Early Modern Yiddish Bible Morris M. Faierstein, 2023-12-31

The translation of the Bible into the vernacular is a venerable Jewish tradition more than two thousand years old. Ashkenazi Jewish culture was a latecomer to the vernacular Bible and it was only in the sixteenth century that the Yiddish Bible made its appearance in print. Almost one hundred years ago Wilhelm Staerk and Albert Leitzmann's survey of Early Modern Yiddish Bible translations was the first attempt to define this genre of Early Modern Yiddish literature. In the intervening century there has been relatively little scholarly interest in these texts. The purpose of the present study is to survey the present state of research in this field and place these works in the context of the popular religious culture of Ashkenazi Jewry which is defined by its use of Yiddish as a means of both oral communication and literary production. The subject of this study is every Yiddish work from the sixteenth and seventeenth centuries that is directly or indirectly related to the Bible. The survey begins with the *Mirkevet ha Mishneh*, the first published Yiddish book which is a biblical concordance published in Cracow 1534-36 and concludes with the two competing translations of the entire Bible into Yiddish by Yekutiel Blitz and Joseph Witzgenhausen published in Amsterdam 1676-86. These were translations without any accompanying commentaries and were modeled on Protestant Bibles like the English King James or the German Luther Bible. The study includes not only translations of biblical books but also adaptations, reworkings, and paraphrases of biblical texts appearing in diverse literary styles by a wide variety of authors. King David for example is presented in the *Shmuel Bukh* as a combination of medieval chivalric hero and rabbinic scholar who is careful to observe the strictures of Halakhah. The story of Jonah is retold through a midrashic lens and concludes with a kabbalistic parable that analogizes Jonah's journey to that of the soul from conception through life, death, and return to its heavenly source. Some authors take great liberties with the biblical text. The author of the paraphrase of Isaiah only includes what he considers to be prophetic utterances and disregards the rest of the book. Another author decides that the second half of the Torah is too legalistic and not worth retelling so he ends his commentary after the giving of the Torah on Mount Sinai. As for the Five Scrolls, Lamentations is too depressing so he ignores it. There are also surprising inclusions in these volumes such as the books of Judith and Susanna from the Apocrypha and the very colorful medieval version of the Book of Ben Sira which is considered by modern scholars to be a parody.

Sefer lekah tov Eliezer Lipman Ben Menahem Mi-Shamoshts, **The Faith of the Mithnagdim** Allan Nadler, 1999-07-20

The Faith of the Mithnagdim is the first study of the theological roots of the Mithnagdic objection to Hasidism. Allan Nadler's pioneering effort fills the void in scholarship on Mithnagdic thought and corrects the impression that there were no compelling theological alternatives to Hasidism during the period of its rapid spread across Eastern Europe at the turn of the nineteenth century. In Nadler's account Mithnagdim emerges as a highly developed religious outlook that is

essentially conservative deeply dualistic and profoundly pessimistic about humanity's spiritual potential all in stark contrast to Hasidism's optimism and aggressive encouragement of mysticism and religious rapture among its followers

Rethinking the Age of Emancipation Martin Baumeister, Philipp Lenhard, Ruth Nattermann, 2020-03-20 Since the end of the nineteenth century traditional historiography has emphasized the similarities between Italy and Germany as late nations including the parallel roles of great men such as Bismarck and Cavour *Rethinking the Age of Emancipation* aims at a critical reassessment of the development of these two late nations from a new and transnational perspective Essays by an international and interdisciplinary group of scholars examine the discursive relationships among nationalism war and emancipation as well as the ambiguous roles of historical protagonists with competing national political and religious loyalties

Between the Bridge and the Barricade Iris Idelson-Shein, 2024-03-12 *Between the Bridge and the Barricade* explores how translations of non Jewish texts into Jewish languages impacted Jewish culture literature and history from the sixteenth century into modern times Offering a comprehensive view of early modern Jewish translation Iris Idelson Shein charts major paths of textual migration from non Jewish to Jewish literatures analyzes translators motives and identifies the translational norms distinctive to Jewish translation Through an analysis of translations hosted in the Jewish Translation and Cultural Transfer JEWTRACT database Idelson Shein reveals for the first time the liberal translational norms that allowed for early modern Jewish translators to make intensely creative and radical departures from the source texts from Judaizing names places motifs and language to mistranslating and omitting material both deliberately and accidentally Through this process of translation Jewish translators created a new library of works that closely corresponded with the surrounding majority cultures yet was uniquely Jewish in character As a site of intense negotiation between different cultures communities religions readers genres and languages these translations become an ideal entry point into the complex relationships between early modern Christians and Jews At the same time they also pose a significant challenge for modern day scholars But for the careful reader who can navigate the labyrinth of unacknowledged translations of non Jewish sources into Jewish languages there awaits a terrain of surprising intercultural encounters between Jews and Christians *Between the Bridge and the Barricade* uncovers the hitherto hidden non Jewish corpus that Idelson Shein contends played a decisive role in shaping early modern Jewish culture

Studies in the Making of the Early Hebrew Book Marvin J. Rites and Passages Jay R. Berkovitz, 2010-08-03 In September 1791 two years after the Revolution French Jews were granted full rights of citizenship Scholarship has traditionally focused on this turning point of emancipation while often overlooking much of what came before In *Rites and Passages* Jay R Berkovitz argues that no serious treatment of Jewish emancipation can ignore the cultural history of the Jews during the ancien r gime It was during the late seventeenth and eighteenth centuries that several lasting paradigms emerged within the Jewish community including the distinction between rural and urban communities the formation of a strong lay leadership heightened divisions between popular and elite religion and the strain between local and regional identities Each of these developments reflected the growing tension between tradition and modernity before the tumultuous events of the French Revolution *Rites and Passages* emphasizes the resilience of religious tradition during periods of social and political turbulence Viewing French Jewish history through the lens of ritual Berkovitz describes the struggles of the French Jewish minority to maintain its cultural distinctiveness while also participating in the larger social and economic matrix In the ancien r gime ritual systems were a formative element in the traditional worldview and served as a crucial repository of memories and values After the Revolution ritual signaled changes in the way Jews related to the state French society and French culture In the cities especially ritual assumed a performative function that dramatized the epoch making changes of the day The terms and concepts of the Jewish religious tradition thus remained central to the discourse of modernization and played a powerful role in helping French Jews interpret the diverse meanings and implications of emancipation Introducing new and previously unused primary sources *Rites and Passages* offers a fresh perspective on the dynamic relationship between tradition and modernity

Practicing Piety in Medieval Ashkenaz Elisheva Baumgarten, 2014-11-07 In the urban communities of medieval Germany and northern France the beliefs observances and practices of Jews allowed them to create and define their communities on their own terms as well as in relation to the surrounding Christian society Although medieval Jewish texts were written by a learned elite the laity also observed many religious rituals as part of their everyday life In *Practicing Piety in Medieval Ashkenaz* Elisheva Baumgarten asks how Jews especially those who were not learned expressed their belonging to a minority community and how their convictions and deeds were made apparent to both their Jewish peers and the Christian majority *Practicing Piety in Medieval Ashkenaz* provides a social history of religious practice in context particularly with regard to the ways Jews and Christians separately and jointly treated their male and female members Medieval Jews often shared practices and beliefs

with their Christian neighbors and numerous notions and norms were appropriated by one community from the other. By depicting a dynamic interfaith landscape and a diverse representation of believers, Baumgarten offers a fresh assessment of Jewish practice and the shared elements that composed the piety of Jews in relation to their Christian neighbors.

Jewish Books and their Readers Scott Mandelbrote, Joanna Weinberg, 2016-05-23. *Jewish Books and their Readers* discusses the transformative effect of the circulation and readership of sacred and secular texts written by Jews on Christian as well as Jewish readers in early modern Europe. Its twelve essays challenge traditional paradigms of Christian Hebraism and undermine simplistic visions of the unchanging nature of Jewish cultural life. They ask what constituted a Jewish book, how it was presented, disseminated, and understood within both Jewish and Christian environments, and how its meanings were contested, and what effect such understanding had on contemporary views of Jews and their intellectual heritage. They demonstrate how the involvement of Christians in the production and dissemination of Jewish books played a role in the shaping of the intellectual life of Jews and Christians. Contributors are Michela Andreatta, Andrew Berns, Theodor Dunkelgrün, Federica Francesconi, Anthony Grafton, Alessandro Guedes, William Horbury, Yosef Kaplan, Scott Mandelbrote, Piet van Boxel, Joanna Weinberg, Benjamin Williams.

Karaite Judaism and Historical Understanding Fred Astren, 2004. Examines the changing relationship of this Jewish sect to rabbinic Judaism and the influence of Muslim and Christian environments. Notions of history and the past contained in literature of the Karaite Jewish sect offer insight into the relationship of Karaism to mainstream rabbinic Judaism and to Islam and Christianity. *Karaite Judaism and Historical Understanding* describes how a minority sectarian religious community constructs and uses historical ideology. It investigates the proportioning of historical ideology to law and doctrine and the influence of historical setting on religious writings about the past. In the present volume, Fred Astren discusses modes of representing the past, especially in Jewish culture, and then poses questions about the past in sectarian, particularly Judaic sectarian contexts. He contrasts early Karaite scripturalism with the literature of rabbinic Judaism, which, embodying historical views that carry a moralistic burden, draws upon the chain of tradition to suppose a generation-to-generation transmission of divine knowledge and authority. Karaites in the medieval Islamic world eschewed historical thinking in concert with their rejection of the rabbinic concept of tradition. One important medieval Karaite, al-Qirqisani, however, constructed a sophisticated historical argument as part of his philosophical exposition of Karaism, demonstrating theological and philosophical strategies common in Islam and Christianity. The center of Karaism shifted to the Byzantine Turkish world during the twelfth through sixteenth centuries, when a new historical outlook, unoblivious of the past, accommodated legal developments influenced by rabbinic thought. Reconstructing Karaite historical expression from both published works and previously unexamined manuscripts, Astren shows that Karaites relied on rabbinic literature to extract and compile historical data for their own readings of Jewish history, which they recorded in an encyclopedic literature similar to contemporary Byzantine Christian Orthodox writing. Astren documents how, as the Karaites moved toward a concept of

tradition and echoed rabbinic historical formulations they developed a version of the chain of tradition to link archaic biblical history to their own community During the seventeenth and eighteenth centuries Karaite scholars in Poland and Lithuania collated and harmonized historical materials inherited from their Middle Eastern predecessors Astren portrays the way that Karaites with some influence from Jewish Renaissance historiography and impelled by features of Protestant Catholic discourse prepared complete literary historical works that maintained their Jewishness while offering a Karaite reading of Jewish history

Studies of the Narratives in the Book of Genesis Martin Sicker, 2018-11-01 The stories in the book of Genesis have been studied intensely for more than two millennia providing a virtual mountain of commentary on every aspect of the narratives contained therein Viewed from a traditional perspective the stories related in Genesis are essentially graphic philosophical and theological narratives designed to convey profound ideas and insights that would otherwise be found only in tomes designed for students of philosophy and theology A close substantive examination of these narratives as presented in the Masoretic text but often lost in translation where the subtleties of the Hebrew wording are glossed over will reveal a treasure trove of insights into the fundamental issues of religious belief the divine human relationship freewill and determinism the complex nature of humankind and theodicy to name a few of the issues dealt with in the narratives The present work contains four deep dive studies of key interrelated narratives in the first twenty two chapters of Genesis that address the questions of the nature of man and his relationship to God and most critically the distinction between divine justice and human justice It is the hope and expectation of the author of these studies that the reader will come away from them with even more questions about the biblical texts than they had before As will be seen there has always been little consensus over the centuries about the meanings of these essentially right brained texts primarily because they are constructed and written in a manner that tends to challenge left brained analysis Nonetheless they remain intellectually important because the topics they deal with are of great pertinence to contemporary society

The First Book of Samuel Martin Sicker, 2011-08-22 The subject of this study is the story of Samuel and Saul and the anything but smooth transition of Israel from a tribal confederacy to a centralized state as presented in the Masoretic text of the First Book of Samuel The term story rather than history of the transition is employed to describe the subject because the biblical book is a history only in the very special sense of prophetic history the purpose of which is to inform Israel of the consequences of failure to observe the terms of the divine covenant entered into between God and the children of Israel at Mount Sinai following the exodus from Egypt Although based on events that were believed to

have taken place the primary focus of prophetic history is on the moral implications of the decisions taken by men rather than the factual accuracy of the details of the events described The approach taken in this study is concerned primarily with what the biblical narrative purports to tell us in its own special way and only peripherally with the issues of primary concern to the modern academic studies of biblical texts such as when the text was finalized and by whom literary analysis of the language employed comparative analysis of the text and other ancient literature and other such topics all of which are of valid intellectual interest but with some notable exceptions contribute little to understanding what the authors and editors of the Hebrew text as we have it are trying to teach us
