Setting Municipal Priorities 1988:

Power Failure Charles Brecher, Raymond D. Horton, 1993-04-08 New York City's municipal government is the largest and most complex in the nation perhaps in the world Its annual operating budget is now a staggering 29 billion a year plus it has a capital budget of 4 billion more The city and its various agencies employ approximately 360 000 full time workers The Office of the Mayor alone employs some 1 600 people and spends some 135 million And the Police Department boasts a small army of over 25 000 officers with a budget of 1 5 billion Anyone wanting to make sense of an organization this vast needs an excellent guide In *Power Failure* Charles Brecher and Raymond Horton provide a complete guidebook to the political workings of New York City Ranging from 1960 to the present the authors explore in depth the political machinery behind City Hall from electoral politics to budgetary policy to the delivery of city services They examine the operation of the Office of the Mayor and the City Council covering everything from the number of members and their annual salaries Council Members receive 55 000 per year the Council President 105 000 to the mayoral races of John V Lindsay Abraham Beame and Edward I Koch Much of this encyclopedic work focuses on New York's ever present financial woes including the financial crisis of the mid 1970s when the City had an unaudited deficit of over a billion dollars and the public credit markets closed their doors They examine the repeated failure of collective bargaining to set wage policy before the annual operating budget is set which undermines the integrity of the budgetary process and they look at the main source of revenue the property tax homeowners pay 84 cents per hundred dollars of market value commercial property owners pay 4 31 a politically motivated imbalance which the authors find economically harmful and grossly unfair to renters and businesses Finally they examine service delivery and discover not surprisingly that the highest local taxes in the nation are not spent efficiently The authors offer detailed looks at the uniformed services police fire sanitation corrections the Department of Parks and Recreation and the Health and Hospitals Corporation which operates the country's largest municipal hospital system revealing which departments are run well and which are not For New York City residents this is an essential volume for understanding City Hall Indeed anyone baffled by big city government whether you live in New York or in any major metropolis will find in this volume a wealth of information on how to run a city well and how to run it into the ground **Dual City** John H.

Mollenkopf, Manuel Castells, 1991-04-04 Have the last two decades produced a New York composed of two separate and unequal cities As the contributors to *Dual City* reveal the complexity of inequality in New York defies simple distinctions between black and white the Yuppies and the homeless The city's changing economic structure has intersected with an increasingly diversified population providing upward mobility for some groups while isolating others As race gender ethnicity and class become ever more critical components of the postindustrial city the New York experience illuminates not just one great city or indeed all large cities but the forces affecting most of the globe The authors constitute an impressive assemblage of seasoned scholars representing a wide array of pertinent disciplines Their product is a pioneering volume in

the social sciences and urban studies the 20 page bibliography is a major research tool on its own Choice [A Phoenix in the Ashes](#) John Hull Mollenkopf, 2021-04-13 In the years following its near bankruptcy in 1976 until the end of the 1980s New York City came to epitomize the debt driven deal oriented economic boom of the Reagan era Exploring the interplay between social structural change and political power during this period John Mollenkopf asks why a city with a large minority population and a long tradition of liberalism elected a conservative mayor who promoted real estate development and belittled minority activists Through a careful analysis of voting patterns political strategies of various interest groups and policy trends he explains how Mayor Edward Koch created a powerful political coalition and why it ultimately failed **City Schools** Diane Ravitch, Joseph P. Viteritti, 2003-05-01 How the story of NYC's schools contain lessons for other cities City Schools brings together a distinguished group of researchers and educators for an in depth look at the nation's largest school system Topics covered include the changing demographics of city schools the impending teacher shortage reading instruction special education bilingual education school governance charter schools choice school finance reform and the role of teacher unions City Schools also provides fresh and fascinating perspectives on Catholic schools Jewish day schools and historically black independent schools Diane Ravitch Joseph P Viteritti and their coauthors explore pedagogical institutional and policy issues in an urban school system whose challenges are those of American urban education writ large The authors conclude that we know a lot more about how to provide effective educational services for a diverse population of urban school children than performance data would suggest Contributors Dale Ballou University of Massachusetts Amherst Stephan F Brumberg Brooklyn College Mary Beth Celio University of Washington Gail Foster Toussaint Institute Michael Heise Case Western University Clara Hemphill Public Education Association Paul T Hill University of Washington William G Howell Harvard University Pearl Rock Kane Columbia University Frank J Macchiarola Saint Francis College Melissa Marschall University of South Carolina Thomas Nechyba Duke University Paul E Peterson Harvard University Christine Roch Georgia State University Christine H Rossell Boston University Marvin Schick Avi Chai Foundation Mark Schneider SUNY Stony Brook Lee Stuart South Bronx Churches Paul Teske SUNY Stony Brook Emanuel Tobier New York University Joanna P Williams Columbia University [All the Nations Under Heaven](#) Frederick M. Binder, David M. Reimers, 1995 In All the Nations Under Heaven Frederick Binder and David Reimers trace the shifting tides of New York's ethnic past from its beginnings as a Dutch trading outpost to the present age where Third World immigration has given the population a truly global character All the Nations Under Heaven explores the processes of cultural adaptation to life in New York giving a lively account of immigrants new and old and of the streets and neighborhoods they claimed and transformed All the Nations Under Heaven provides a comprehensive look at the unique cultural identities that have wrought changes on the city over nearly four centuries since Europeans first landed on the Atlantic shore While detailing the various efforts to retain a cultural heritage the book also looks at how ethnic and racial groups have interacted and clashed over the years From the influx of

Irish and Germans in the nineteenth century to the recent arrival of Caribbean and Asian ethnic groups in large numbers All the Nations Under Heaven explores the social cultural political and economic lives of immigrants as they sought to form their own communities and struggled to define their identities within the growing heterogeneity of New York

Economic Growth and Fiscal Planning in New York William Duncombe,2017-09-08 In an era of federal deficits and struggling municipalities states have emerged as the most significant governmental actors But state governments face the major challenge of fiscal planning in the midst of economic change Roy Bahl and William Duncombe tackle this challenge head on Using New York as a case study they identify looming dangers for state revenue and expenditure planning Bahl and Duncombe begin with the premise that one cannot separate an evaluation of fiscal performance from an evaluation of economic performance Accordingly they describe and analyze the patterns of population employment and personal income growth Following this is a study of state and local government finances in New York since 1970 and a recounting of the fiscal adjustments that were taken in the face of slower and then faster growth in the economy The authors conclude that based on current conditions the state and its local governments are in for fiscal belt tightening They note that the state should take a comprehensive view in planning the development and retrenchment of its government sector The book is thought provoking exhaustively researched and sensibly written Its lessons are applicable everywhere and should be read by all those seeking a route through the tangled thicket of government policy for economic growth
