Bose, 2018-05-15 The year is 1813 From the turbulence of Europe ravaged by Napoleon's rampaging armies to the seething cauldron of India comes a lad Joseph McLeod twenty years of age newly recruited in the East India Company's Bengal Army While still in London he comes across an exotically beautiful girl Isabella Hamilton the scion of a well known aristocratic family and is attracted to her Later two attempts are made on her life in one of which her parents are fatally wounded On his deathbed her father reveals a shocking secret from Isabella's past concerning her parentage and a valuable estate in India Later while rummaging through the attic of her house among her childhood bric a brac she comes across an ivory piece with a silver chain which she takes to be an amulet But is it really an amulet Or is it some device that is beyond the conception of western science a thing so devastatingly powerful that it boggles the mind Who are the people after her life And why do they want her dead The answers to these questions could only be found in India And on those answers and their subsequent follow

up depends her future fortune and her life
