Evolution, Creationism, and the Battle to Control America's Classrooms

Michael Berkman, Eric Plutzer, 2010-09-20 Who should decide what children are taught in school This question lies at the heart of the evolution creation wars that have become a regular feature of the US political landscape Ever since the 1925 Scopes monkey trial many have argued that the people should decide by majority rule and through political institutions others variously point to the federal courts educational experts or scientists as the ideal arbiter Berkman and Plutzer illuminate who really controls the nation s classrooms Based on their innovative survey of 926 high school biology teachers they show that the real power lies with individual educators who make critical decisions in their own classrooms Broad teacher discretion sometimes leads to excellent instruction in evolution But the authors also find evidence of strong creationist tendencies in America s public high schools More generally they find evidence of a systematic undermining of science and the scientific method in many classrooms

The Last Pillars of Darwinian Evolution Falsified

Jerry Bergman Ph.D., 2022-05-12 Documents the fact that the peer reviewed scientific evidence has falsified Darwinian evolution Challenges the common beliefs about the evidence for evolution by logic and research The first book titled The Three Major Pillars of Darwinism Demolished has falsified abiogenesis the origin of life itself from non life mutations as the ultimate source of all genetic variety and natural selection which culls that variety to produce all life on Earth This volume evaluated other major evidences for Darwinian evolution which have also been refuted by empirical science These minor pillars are convergent evolution homology endosymbiosis and the antibiotic resistance claim for evolution It also shows the attempts to refute the irreducible complexity problem have failed and likewise co option cannot explain the evolution of complex features seen in the natural world In short an objective review of the published peer reviewed evidence in secular scientific journals has falsified Darwinian evolution
