Seventeenth Eighteenth Century French:

Seventeenth and Eighteenth Century French Porcelain George Savage, 1961 *Eighteenth-century French Drawings in New York Collections* Perrin Stein, Mary Tavenor Holmes, Metropolitan Museum of Art (New York, N.Y.), 1999 **Salons, History, and the Creation of Seventeenth-century France** Faith Evelyn Beasley, 2006 The first half of the book is a detailed study of how the salons influenced the development of literature Beasley argues that many women were not only writers they also served as critics for the literary sphere as a whole In the second half of the book Beasley examines how historians and literary critics subsequently portrayed the seventeenth century literary realm which became identified with the great reign of Louis XIV and designated the official canon of French literature Beasley argues that in a rewriting of this past the salons were reconfigured in order to advance an alternative view of this premier moment of French culture and of the literary masterpieces that developed out of it Through her analysis of how the seventeenth century salon has been defined and transmitted to posterity Beasley illuminates facets of France's collective memory and the powers that constituted it in the past and that are still working to define it today **Delicious Decadence ?The Rediscovery of French Eighteenth-Century Painting in the Nineteenth Century** Monica Preti, 2017-07-05 The history of collecting is a topic of central importance to many academic disciplines and shows no sign of abating in popularity As such scholars will welcome this collection of essays by internationally recognised experts that gathers together for the first time varied and stimulating perspectives on the nineteenth century collector and art market for French eighteenth century art and ultimately the formation of collections that form part of such august institutions as the Louvre and the National Gallery in London The book is the culmination of a successful conference organised jointly between the Wallace Collection and the Louvre on the occasion of the acclaimed exhibition Masterpieces from the Louvre The Collection of Louis La Caze Exploring themes relating to collectors critics markets and museums from France England and Germany the volume will appeal to academics and students alike and become essential reading on any course that deals with the history of collecting the history of taste and the nineteenth century craze for the perceived *douceur de vivre* of eighteenth century France It also provides valuable insight into the history of the art markets and the formation of museums **Priest and Parish in Eighteenth-Century France** Timothy Tackett, 2014-07-14 This book provides a comprehensive collective biography of the parish priests in one diocese their origins education and careers their relationship with their parishioners and the process by which they were politicized prior to 1789 The author's analysis uses both quantitative and more traditional historical techniques Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published

by Princeton University Press since its founding in 1905 *The Nineteenth-Century French Short Story* Allan Pasco, 2019-07-03 The 19th Century French Short Story by eminent scholar Allan H Pasco seeks to offer a more comprehensive view of the definition capabilities and aims of short stories The book examines general instances of the genre specifically in 19th century France by recognizing their cultural context demonstrating how close analysis of texts effectively communicates their artistry and arguing for a distinction between middling and great short stories Where previous studies have examined the writers of short stories individually The 19th Century French Short Story takes a broader lens to the subject and looks at short story writers as they grapple with the artistic ethical and social concerns of their day Making use of French short story masterpieces with reinforcing comparisons to works from other traditions this book offers the possibility of a more adequate appreciation of the under valued short story genre Fifteenth- to Eighteenth-century European Drawings Egbert Haverkamp Begemann (Kunsthistoriker), Metropolitan Museum of Art (New York, N.Y.), 1999 Early European art was a consuming interest of both Robert Lehman and his father Philip Lehman an interest reflected in the remarkable number and quality of drawings they owned from the fifteenth and early sixteenth centuries In addition to an important group of early German drawings the collection includes a Saint Paul from a series associated with Jan van Eyck and the famous Scupstoel from the circle of Rogier van der Weyden the only design for a decorative sculpture to survive from the fifteenth century The great artists of the seventeenth century Peter Paul Rubens Jacob Jordaens Claude Lorrain and Rembrandt among them are also represented Rembrandt by seven drawings including the large study of Leonardo's Last Supper that would stay in his mind all through his career Drawings by Antoine Watteau Jean Honor Fragonard Gabriel de Saint Aubin Thomas Gainsborough Paul Sandby and George Romney are among the many from eighteenth century France and England The volume discusses all 153 drawings at length placing each in its art historical setting and complementing the discussion with comparative illustrations of related works This e book on the MetPublications website is also accompanied by links to related works and under the Additional resourcestab are links to Met works of art and Heilbrunn Timeline of Art History essays and timelines viewed May 1 2014 *The Cambridge History of Science: Volume 4, Eighteenth-Century Science* David C. Lindberg, Roy Porter, Ronald L. Numbers, 2003-03-17 The fullest and most complete survey of the development of science in the eighteenth century The Other Rise of the Novel in Eighteenth-Century French Fiction Olivier Delers, 2015-09-01 The rise of the novel paradigm and the underlying homology between the rise of a bourgeois middle class and the coming of age of a new literary genre continues to influence the way we analyze economic discourse in the eighteenth century French novel Characters are often seen as portraying bourgeois values even when historiographical evidence points to the virtual absence of a self conscious and coherent bourgeoisie in France in the early modern period Likewise the fact that the nobility was a dynamic and diverse group whose members had learned to think in individualistic and meritocratic terms as a result of courtly politics is often ignored The Other Rise of the Novel calls for a radical revision of

how realism the language of self interest and commercial exchanges and idealized noble values interact in the early modern novel It focuses on two novels from the seventeenth century Fureti re s Roman bourgeois and Lafayette s Princesse de Cl ves and four novels from the eighteenth century Pr vost s Manon Lescaut Graffigny s Lettres d une P ruvienn e Rousseau s La Nouvelle H lo se and Sade s Les infortunes de la vertu It argues that eighteenth century French fiction does not reflect material culture mimetically and that character action is best analyzed by focusing on the social and discursive exchanges staged by the text rather than by trying to create parallels between specific behavior and actual historical changes The novel produces its own reality by transforming characters and their stories into alternative social models different articulations of how individuals should define their economic relations to others The representation of interpersonal relations often highlights personal conceptions of private interest that cannot be easily reconciled with the traditional narrative of a transition towards economic modernity Realism then is not only about verisimilar storytelling and psychological depth it is an epistemological questioning about the type of access to reality that a particular genre can give its readers

Convents and Nuns in Eighteenth-Century French Politics and Culture Mita Choudhury, 2018-07-05 Representations of convents and nuns assumed power and urgency within the volatile political culture of eighteenth century France Drawing from a range of literary cultural and legal material Mita Choudhury analyzes how between 1730 and 1789 lawyers religious pamphleteers and men of letters repeatedly asked Who should control the female convent and women religious These sources chronicled the conflicts between nuns and the male clergy among nuns themselves and between nuns and their families conflicts that were presented to the public in the context of potent issues such as despotism citizenship female education and sexuality The cloister operated as a symbol of despotism the equivalent of the Sultan s seraglio or the King s Bastille Before 1770 lawyers and magistrates praised nuns as the personification of virtuous Christian women often victims vulnerable to those who would use them to further their own political ends After 1770 men of letters evaluated nuns according to more secular norms and concluded that the convent had no purpose in society except as a reminder of the problems inherent in the Old Regime Choudhury elaborates on how nuns were not always passive entities mere objects to be shaped by the political needs of others But because they relied on men in order to make their voices heard the place of women religious in the public sphere was a complex one based on negotiations between female action and male subjectivity During the French Revolution whatever support they had enjoyed was lost as republicans and moderates began to see nuns as potentially disruptive to the social order family life and revolutionary values
