Sex Appeal Of The Inorganic:

The Sex Appeal of the Inorganic Mario Perniola, 2017-02-23 In *The Sex Appeal of the Inorganic* Mario Perniola puts forth the radical argument that we are shifting away from organic sexuality based on desire and pleasure and moving towards a more neutral inorganic and artificial sexuality a sexuality always available but indifferent to beauty age or form Perniola takes the reader on a tour of Western philosophy from Descartes Kant and Hegel to Heidegger Wittgenstein and Sartre to reframe our understanding of personal experience and the aesthetic world around us In order to realize the sex appeal of the inorganic Perniola argues that we must become things that feel we must think ourselves closer to the inorganic creating an alliance between senses and things Examples from contemporary culture that for Perniola are emblems of the sex appeal of the inorganic include progressive rock music fashion deconstructive architecture and the novels of Georges Perec

The Sex Appeal of the Inorganic Mario Perniola, 2004 We live in a world where the one time opposition between things and humans has been transformed where the centre of contemporary sensibility is the encounter between philosophy and sexuality where sex extends well beyond both the act and the body We live in a world where to be sexy is to ignore the distinctions between animate and inanimate objects of desire where the aesthetics of sex are being revolutionised An organic sexuality based on sex difference and driven by desire and pleasure is being replaced by a neutral inorganic and artificial sexuality a sexuality always available but indifferent to beauty age or form a sexuality freed by thought from nature *The Sex Appeal of the Inorganic* takes the reader on a radical new tour of Western philosophy from Descartes Kant and Hegel to Heidegger Wittgenstein and Sartre to reframe our understanding of personal experience and the aesthetic to examine how if we are to remember how to feel we must become a thing who feels we must think ourselves closer to the inorganic world and move further from our bodies

The Arcades Project Walter Benjamin, 1999 Focusing on the arcades of 19th century Paris glass roofed rows of shops that were early centers of consumerism Benjamin presents a montage of quotations from and reflections on hundreds of published sources 46 illustrations

What Color Is the Sacred? Michael Taussig, 2024-05-31 Over the past thirty years visionary anthropologist Michael Taussig has crafted a highly distinctive body of work Playful enthralling and whip smart his writing makes ingenious connections between ideas thinkers and things An extended meditation on the mysteries of color and the fascination they provoke *What Color Is the Sacred* is the next step on Taussig's remarkable intellectual path Following his interest in magic and surrealism his earlier work on mimesis and his recent discussion of heat gold and cocaine in *My Cocaine Museum* this book uses color to explore further dimensions of what Taussig calls the bodily unconscious in an age of global warming Drawing on classic ethnography as well as the work of Benjamin Burroughs and Proust he takes up the notion that color invites the viewer into images and into the world Yet as Taussig makes clear color has a history a manifestly colonial history rooted in the West's discomfort with color especially bright color and its associations with the so called primitive He begins by noting Goethe's belief that Europeans are physically averse to vivid

color while the uncivilized revel in it which prompts Taussig to reconsider colonialism as a tension between chromophobes and chromophiliacs And he ends with the strange story of coal which he argues displaced colonial color by giving birth to synthetic colors organic chemistry and IG Farben the giant chemical corporation behind the Third Reich Nietzsche once wrote So far all that has given colour to existence still lacks a history With What Color Is the Sacred Taussig has taken up that challenge with all the radiant intelligence and inspiration we've come to expect from him Walter Benjamin and the Arcades Project Beatrice Hanssen, 2006-07-27 One of the most significant cultural documents of the Weimar Republic and Nazi era Walter Benjamin's unfinished Arcades Project has had a remarkable impact on present day cultural theory urban studies cultural studies and literary interpretation Originally designed as a panoramic study chronicling the rise and decline of the Parisian shopping arcades Benjamin's work combines imaginative peregrinations through the changing cityscape of nineteenth century Paris with passages that read like a blueprint for a new cultural theory of modernity Walter Benjamin and the Arcades Project provides the first comprehensive introduction to this extraordinary work accessible to English language readers The diverse range of issues explored include the nature of collecting the anatomy of melancholy the flâneur the physiognomy of ruins the dialectical image Benjamin's relation to Baudelaire the practice of history writing and modernity and architecture Contributors include Susan Buck-Morss Stanley Cavell Jonathan Culler Brigid Doherty Barbara Johnson Esther Leslie Gerhard Richter Andrew Benjamin Howard Caygill Beatrice Hanssen Detlef Mertins Elissa Marder Tyrus Miller and Irving Wohlfarth *Suspensions of Perception* Jonathan Crary, 2001-08-24 *Suspensions of Perception* decisively relocates the problem of aesthetic contemplation within a broader collective encounter with the unstable nature of perception in psychology philosophy neurology early cinema and photography *Suspensions of Perception* is a major historical study of human attention and its volatile role in modern Western culture It argues that the ways in which we intently look at or listen to anything result from crucial changes in the nature of perception that can be traced back to the second half of the nineteenth century Focusing on the period from about 1880 to 1905 Jonathan Crary examines the connections between the modernization of subjectivity and the dramatic expansion and industrialization of visual auditory culture At the core of his project is the paradoxical nature of modern attention which was both a fundamental condition of individual freedom creativity and experience and a central element in the efficient functioning of economic and disciplinary institutions as well as the emerging spaces of mass consumption and spectacle Crary approaches these issues through multiple analyses of single works by three key modernist painters Manet Seurat and Cézanne who each engaged in a singular confrontation with the disruptions vacancies and rifts within a perceptual field Each in his own way discovered that sustained attentiveness rather than fixing or securing the world led to perceptual disintegration and loss of presence and each used this discovery as the basis for a reinvention of representational practices *Suspensions of Perception* decisively relocates the problem of aesthetic contemplation within a broader collective encounter with the unstable nature of perception in psychology

philosophy neurology early cinema and photography In doing so it provides a historical framework for understanding the current social crisis of attention amid the accelerating metamorphoses of our contemporary technological culture **The Philosophy of Mario Perniola** Enea Bianchi, 2022-07-14 Enea Bianchi provides the first in depth introduction to the pioneering thought of 20th century Italian philosopher Mario Perniola Examining Perniola's entire oeuvre this book also pushes his philosophy into new directions by investigating the connection between his aesthetics and the philosophical underpinnings of dandyism Rich in influences from ancient Stoicism to Roman ritualism Baroque literature and avant garde revolutionary movements Perniola's philosophy is wide ranging This book highlights and explores numerous notions pivotal to understanding Perniola's thought including the sex appeal of the inorganic the enigma strategic beauty and the artistic shadow Combining these concepts with three exemplar dandies George Brummell Charles Baudelaire and Oscar Wilde Bianchi demonstrates not only the close relationship between their principles and Perniola's aesthetics but their shared and timely opposition to the status quo A dandy philosophy emerges which challenges the individual not only to refute the ongoing commodification of tastes emotions and lifestyles but also to develop a welcoming and loving disposition with respect to the enigma of our prismatic world *After the "Speculative Turn": Realism, Philosophy, and Feminism* Katerina Kolozova, Eileen A. Joy, 2016 Recent forms of realism in continental philosophy that are habitually subsumed under the category of speculative realism a denomination referring to rather heterogeneous strands of philosophy bringing together object oriented ontology OOO non standard philosophy or non philosophy the speculative realist ideas of Quentin Meillassoux and Marxism have provided grounds for the much needed critique of culturalism in gender theory and the authority with which post structuralism has dominated feminist theory for decades This publication aims to bring forth some of the feminist debates prompted by the so called speculative turn while demonstrating that there has never been a niche of speculative realist feminism Whereas most of the contributions featured in this collection provide a theoretical approach invoking the necessity of foregrounding new forms of realism for a feminism beyond gender as culture some of the essays tackle OOO only to invite a feminist critical challenge to its paradigm while others refer to some extent to non philosophy or the new materialisms but are not reducible to either of the two We have invited essays from intellectual milieus outside the Anglo Saxon academic center bringing together authors from Serbia Slovenia France Ireland the UK and Canada aiming to promote feminist internationalism rather than a generous act of cultural inclusion **CONTENTS** Katerina Kolozova Preface *After the Speculative Turn* Nina Power *Philosophy Sexism Emotion Rationalism* Katherine Behar *The Other Woman* Anne Francoise Schmid *Librerie pistologiquement le féminisme* Patricia Ticineto Clough *Notes for And They Were Dancing* Joan Copjec *No Foucault* Jelisa Veta Blagojevic *Thinking Without* Marina Grzinic *Rearticulating the Speculative Turn* Frenchy Lunning *The Crush* The Firey *Allure of the Jolted Puppet* Nandita Biswas Mellamphy *Women out of Time* Metis Medea Mahakali Michael O'Rourke *Girls Welcome* *Speculative Realism Object Oriented Ontology and Queer Theory* Katerina Kolozova PhD is the

Century Marina Levina, Diem-My T. Bui, 2013-05-23 In the past decade our rapidly changing world faced terrorism global epidemics economic and social strife new communication technologies immigration and climate change to name a few These fears and tensions reflect an evermore interconnected global environment where increased mobility of people technologies and disease have produced great social political and economical uncertainty The essays in this collection examine how monstrosity has been used to manage these rising fears and tensions Analyzing popular films and televisions shows such as *True Blood* *Twilight* *Paranormal Activity* *District 9* *Battlestar Galactica* and *Avatar* it argues that monstrous narratives of the past decade have become omnipresent specifically because they represent collective social anxieties over resisting and embracing change in the 21st century The first comprehensive text that uses monstrosity not just as a metaphor for change but rather a necessary condition through which change is lived and experienced in the 21st century this approach introduces a different perspective toward the study of monstrosity in culture *Oscar Wilde and the Simulacrum* Giles

Whiteley, 2017-07-05 Oscar Wilde is more than a name more than an author From precocious Oxford undergraduate to cause celebre of the West End of the 1890s to infamous criminal the proper name Wilde has become an event in the history of literature and culture Taking Wilde seriously as a philosopher in his own right Whiteley's groundbreaking book places his texts into their philosophical context in order to show how Wilde broke from his peers and in particular from idealism and challenges recent neo historicist readings of Wilde which seem content to limit his irruptive power Using the paradoxical concept of the simulacrum to resituate Wilde's work in relation to both his precursors and his contemporaries Whiteley's study reads Wilde through Deleuze and postmodern philosophical commentary on the simulacrum In a series of striking juxtapositions Whiteley challenges us to rethink both Oscar Wilde's aesthetics and his philosophy to take seriously both the man and the mask His philosophy of masks is revealed to figure a truth of a different kind the simulacra through which Wilde

begins to develop and formulate a mature philosophy that constitutes an ethics of joy
