Monsters, Gender and Sexuality in Medieval English Literature Dana Oswald, 2010 Case studies of Wonders of the East Beowulf Mandeville's Travels the Alliterative Morte Arthure and Sir Gowther reveal a shift in attitudes toward the gendered and sexed body and thus toward identity between the two periods while Old English authors and artists respond to the threat of the gendered monstrous form by erasing it Middle English writers allow transgressive and monstrous bodies to transform and therefore integrate into society This metamorphosis enables redemption for some monsters while other monstrous bodies become dangerously flexible and invisible threatening the communities they infiltrate These changing cultural reactions to monstrous bodies demonstrate the precarious relationship between body and identity in medieval literature

Humour in Anglo-Saxon Literature Jonathan Wilcox, 2000 Essays lay the groundwork for a theory of humour in Old English literature Humour is rarely seen to raise its indecorous head in the surviving corpus of Old English literature yet the value of reading that literature with an eye to humour proves considerable when the right questions are asked Humour in Anglo Saxon Literature provides the first book length treatment of the subject In all new essays eight scholars employ different approaches to explore humor in such works as Beowulf and The Battle of Maldon the riddles of the Exeter Book and Old English saints lives An introductory essay provides a survey of the field while individual essays push towards a distinctive theory of Anglo Saxon humour Through its unusual focus this collection will provide an appealing introduction to both famous and lesser known works for those new to Old English literature while those familiar with the usual contours of Old English literary criticism will find here the value of a fresh approach Contributors JOHN D NILES T A SHIPPEY RAYMOND P TRIPP JR E L RISDEN D K SMITH NINA RULON MILLER SHARI HORNER HUGH MAGENNIS JONATHAN WILCOX is Associate Professor of English at the University of Iowa and editor of the Old English Newsletter Although the question of humour in the surviving corpus of Old English literature has rarely been discussed the potential for analyzing this literature in terms of

Between Medieval Men David Clark, 2009-02-26 Between Medieval Men argues for the importance of synoptically examining the whole range of same sex relations in the Anglo Saxon period revisiting well known texts and issues as well as material often considered marginal from a radically different perspective The introductory chapters first lay out the premises underlying the book and its critical context then emphasise the need to avoid modern cultural assumptions about both male female and male male relationships and underline the paramount place of homosocial bonds in Old English literature Part II then investigates the construction of and attitudes to same sex acts and identities in ethnographic penitential and theological texts ranging widely throughout the Old English corpus and drawing on Classical Medieval Latin and Old Norse material Part III expands the focus to homosocial bonds in Old English literature in order to explore the range of associations for same sex intimacy and their representation in literary texts such as Genesis A Beowulf The Battle of Maldon The Dream of the Rood The Phoenix and Ifric's Lives of Saints During the course of the book's argument David Clark uncovers several under researched issues and suggests fruitful approaches for their investigation He concludes that in omitting to ask certain questions of Anglo Saxon material in being too willing to accept the status quo indicated by the extant corpus in uncritically importing invisible because normative heterosexist assumptions in our reading we risk misrepresenting the diversity and complexity that a more nuanced approach to issues of gender and sexuality suggests may be more genuinely characteristic of the period
