**Secrets, Sex, and Spectacle** Mark D. West, 2008-09-15 A leader of a global superpower is betrayed by his mistress who makes public the sordid details of their secret affair His wife stands by as he denies the charges Debates over definitions of moral leadership ensue Sound familiar If you guessed Clinton and Lewinsky try again This incident involved former Japanese prime minister Sosuke Uno and a geisha In *Secrets Sex and Spectacle* Mark D West organizes the seemingly random worlds of Japanese and American scandal from corporate fraud to baseball cheaters political corruption to celebrity sexcapades to explore well ingrained similarities and contrasts in law and society In Japan and the United States legal and organizational

rules tell us what kind of behavior is considered scandalous When Japanese and American scandal stories differ those rules define what's public and what's private rules that protect injuries to dignity and honor and rules about sex to name a few often help explain the differences In the cases of Clinton and Uno the rules help explain why the media didn't cover Uno's affair why Uno's wife apologized on her husband's behalf and why Uno and not Clinton resigned *Secrets Sex and Spectacle* offers a novel approach to viewing the phenomenon of scandal one that will be applauded by anyone who has obsessed over or ridiculed these public episodes

**Metaphorical Practices in Architecture** Sarah Borree, Stephanie Knuth, Moritz Röger, 2023-06-23 Metaphors are diversely and intricately embedded in architectural practice and discourse Precisely for this reason this volume argues and sets out to explore how they can be engaged to critically

interrogate architecture's social cultural and political dimensions past and present and to productively challenge and intervene with established perspectives debates and practices Mapping out not just potentials but also addressing the challenges limitations and dangers inherent in using metaphors in architectural research and practice the volume prominently illustrates the ambiguity and contradictoriness inherent in both metaphors and the process of engaging and exploiting them Covering a broad range of historical and geographical cases and concerns the contributions illustrate effectively that metaphors can expand or narrow our engagement with architecture and consolidate or legitimise but also destabilise and challenge established social cultural disciplinary and political structures concepts and categories With its aim to explore metaphors as both subject and method to critically challenge and expand established practices perspectives and standards in architectural research and practice the volume will be of interest for scholars working across the architectural humanities including architectural history theory culture design and urbanism as well as for researchers concerned with architecture and the city from fields such as cultural visual and area studies as well as art history      **Cataclysmic**

**Variables and Related Objects** A. Evans, Janet H. Wood, 2012-12-06 In 1993 we began to consider the possibility of holding a conference on Cataclysmic Variables CVs at Keele University There have been several meetings in the area of CVs recently e.g. Eilat Abano Padova Capetown However as preparations for the Keele meeting progressed we realized that while there had been a number of IAU meetings devoted to related and to peripheral topics such as IAU Colloquium 122 on Classical Novae in 1989 IAU Colloquium 129 on Accretion Disks in 1990 there had been no IAU sponsored conferences in the area of cataclysmic variables CVs for a number of years We felt therefore that the time was ripe to have an IAU meeting devoted to an overview of CVs and related objects and the SOC organized the conference such that there was an emphasis on invited reviews of the most recent advances in the field The conference covered both CVs and LMXBs and the inter relations between them The meeting was held at a time when powerful satellite observatories and rapid improvements in ground based instrumentation had led to many advances in both CV and LMXB research The conference provided a forum to review observations from ASCA EUVE ROSAT Ginga and the recently refurbished HST Photometric spectroscopic and polarimetric observations of CVs and LMXBs have thrown new light on the distribution of matter and the nature of the stellar components in these systems      **The Latter-Day Saints' Millennial Star** ,1875      **Sex and Dreams** Wilhelm Stekel,1922
