*And Man Created God* Shlomo Giora Shoham, 2011-08-08 And Man Created God presents a new theory of mytho empiricism based on the mythological concepts of Claude Lévi Strauss and the structuralism of Jeanne Piaget The whole nature of mythogenes as the creative force linking history and transcendence is then elucidated The corpus of myths in the books of Genesis and Exodus are presented in a new light and then compared with the Egyptian Mesopotamian and Greek mythologies to highlight the Judaic myths with the pagan contrast

**God as the Shadow of Man** S. Giora Shoham,2000 *God as the Shadow of Man* is based on the pioneering work of Claude Levi Strauss who postulated that myths are links between nature and culture Shoham enlarges this concept and claims that myth in the form of a mythogene the structural longings and experiences of the individual as projected onto mythology links history and transcendence the individual and society and consciousness and energy matter The mythogenes are related to Shoham's personality theory which in essence postulates that personality types can be paxonomized along a continuum with one pole having the Tantallic type which aims to melt into the object and the other pole having the Sisyphean type which aims to overpower and control the object      *A Primer in the Sociology of Crime* S. Giora Shoham,John P.

Hoffmann,1991 An English language adaptation of a Hebrew textbook introduces theories of crime and delinquency drawn from sociology Chapter topics include criminology and social deviance theoretical and methodological issues in criminology ecological theories strain theories differential association and learning theories control theories social reactions to crime conflict and radical perspectives on crime and recent developments      **The Enlightenment and Its Legacy** Sara

Friedrichsmeyer,Barbara Becker-Cantarino,1991      *Women in Western European History: From antiquity to the French Revolution* Linda Frey,Marsha Frey,Joanne Schneider,1982

*The Promethean Bridge* S. Giora Shoham,2004 This is not a work on physics nor is it a tract on personality but rather an effort to link them together in order to examine the cognitive relationship of humans with their surroundings We explore the interaction between the human mind and energy matter the adoption of quantum mechanics allows us to bridge the distinction between physics and psychology We invoke here the principles of quantum mechanics symbols and great myths from Tantalus Sisyphus and Prometheus through the Kabbalah and the Gnostic religions to great historical figures in art and literature Our personality theory first expounded in *The Myth of Tantalus* 1979 is expanded here into truly interdisciplinary research examining the relationship of humans with God and the universe We claim that myths reflect the human mind more profoundly than any other means available they serve as a bridge to unknown parts of the human psyche and history and form the basis for human behavior for centuries We therefore use a method we call myth empiricism It is indeed amazing to see the connection between the structure of the human mind

and that of energy matter as it is reflected in the mytho empirical context      **Forførereren** Knut Stene-Johansen, 2011-09-16
