Gilbert,2014-07-14 In the twentieth century no form of experience has been more frequently taken up by poets eager to capture both the openness and fluidity of life and the aesthetic closure of an artwork than that of a walk Examining the walk poem Roger Gilbert contends that at its heart is the desire to keep what we have lived What is the appeal of the walk poem for modern American poets According to Gilbert it provides a ready made frame within which to explore the full range of individual consciousness as it responds to and reflects on the world immediately at hand The unstructured plotless character of the walk allows poets to move freely from place to place image to image thought to thought Suggesting that the walk poem strikes a compromise between the American obsession with process or movement and more traditionally mimetic concerns Gilbert shows how it enables the poet to apprehend the world as horizon rather than landscape Through perceptive and extended analyses of walk poems by Frost Stevens Williams Roethke Bishop O Hara Snyder Ammons and Ashbery he uncovers a spectrum of representational strategies for transforming passing experiences into the more lasting substance of poetry Walks in the World addresses anyone who takes poetry seriously Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Is There Truth in Art? Herman Rapaport, 2018-09-05 The question posed by Herman Rapaport in the title of this book is intended both seriously and ironically It is not Rapaport's purpose to debate whether or not truth resides in art The title points rather to his belief that truth needs to be reconceptualized in the light of continuing efforts to deconstruct and to discredit the notion of truthfulness in art The question of art's truthfulness persists because truth in art is neither an entity or content that has been injected into the work nor a transcendental concept or ground that exists outside it Moreover when used in relation to art Rapaport says truth means something quite different from conventional definitions of the term Indeed a central question that informs the book is the return of truth at the far side of its deconstruction *Is There Truth in Art* includes chapters on atonal music environmental art modern German and French poetry contemporary French fiction experimental French film and a photograph taken by the National Socialists during the

destruction of the Warsaw ghetto Determining how truth can be said to occur in these examples Rapaport maintains requires analysis in each instance He draws chiefly upon the thinkers who have radically reformulated questions about truth
