Longman Anthology Of World Literature Vol Ii The 17th Century To Present Day:

The Longman Anthology of World Literature David Damrosch, 2004 The Longman Anthology of World Literature Volume D offers a fresh and highly teachable presentation of the varieties of world literature from the 17th and 18th centuries

Books In Print 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004 The Longman Anthology of World Literature: The medieval era, 2009 The Longman Anthology is designed to open up the horizons of world literature placing major works within their cultural contexts and fostering connections and conversations between eras as well as regions The Routledge Companion to World Literature Theo D'haen, David Damrosch, Djelal Kadir, 2011-09-14 In the age of globalization the category of World Literature is increasingly important to academic teaching and research The Routledge Companion to World Literature offers a comprehensive pathway into this burgeoning and popular field Separated into four key sections the volume covers the history of World Literature through significant writers and theorists from Goethe to Said Casanova and Moretti the disciplinary relationship of World Literature to areas such as philology translation globalization and diaspora studies theoretical issues in World Literature including gender politics and ethics a global perspective on the politics of World Literature The forty eight outstanding contributors to this companion offer an ideal introduction to those approaching the field for the first time or looking to further their knowledge of this extensive field Periodization and Sovereignty Kathleen Davis, 2012-03-12 Despite all recent challenges to stage oriented histories the idea of a division between a medieval and a modern period has survived even flourished in academia Periodization and Sovereignty demonstrates that this survival is no innocent affair By examining periodization together with the two controversial categories of feudalism and secularization Kathleen Davis exposes the relationship between the constitution of the Middle Ages and the history of sovereignty slavery and colonialism This book's groundbreaking investigation of feudal historiography finds that the historical formation of feudalism mediated the theorization of sovereignty and a social contract even as it provided a rationale for colonialism and facilitated the disavowal of slavery Sovereignty is also at the heart of today's often violent struggles over secular and religious politics and Davis traces the relationship between these struggles and the narrative of secularization which grounds itself in a period divide between a modern historical consciousness and a theologically entrapped Middle Ages incapable of history This alignment of sovereignty the secular and the conceptualization of historical time which relies essentially upon a medieval modern divide both underlies and regulates today's volatile debates over world politics The problem of defining the limits of our most fundamental political concepts cannot be extricated Davis argues from the periodizing operations that constituted them and that continue today to obscure the process by which feudalism and secularization govern the politics of time Feeling the Past in Seventeenth-Century China Xiaoqiao Ling, 2021-02-01 During the Manchu conquest of China 1640s 1680s the Qing government mandated that male subjects shave their hair following the Manchu style It was a directive that brought the physical body front and center as the locus of authority and

control Feeling the Past in Seventeenth Century China highlights the central role played by the body in writers memories of lived experiences during the Ming Qing cataclysm For traditional Chinese men of letters the body was an anchor of sensory perceptions and emotions Sight sound taste and touch configured ordinary experiences next to traumatic events unveiling how writers participated in an actual and imagined community of like minded literary men In literature from this period the body symbolizes the process by which individual memories transform into historical knowledge that can be transmitted across generations The ailing body interprets the Manchu presence as an epidemic to which Chinese civilization is not immune The bleeding body cast as an aesthetic figure helps succeeding generations internalize knowledge inherited from survivors of dynastic conquest as a way of locating themselves in collective remembrance This embodied experience of the past reveals literature s mission of remembrance as first and foremost a moral endeavor in which literary men serve as architects of cultural continuity
