Look At Early Grand Rapids:

A Look at Early Grand Rapids Z. Z. Lydens, 1976 The Early Text of the New Testament Charles E. Hill, Michael J. Kruger, 2012-06-14 This book is about the transmission of the New Testament text in the second and third centuries of early Christianity It explores the world of manuscripts scribes and early Christian textual culture *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1978 **Looking for Life** John G. Lewis, 2005-04-30 Through exegetical studies of 1 Corinthians and Galatians John Lewis shows how Paul synthesises theology and ethics which interpreters frequently separate as integrated aspects of Christian thinking and living This fusion becomes evident in Paul's complex process of theological moral reasoning that lies beneath the surface of his letters for which we have coined the phrase theoeethical reasoning The book also examines how Paul encourages his churches to apply this theoeethical reasoning in the community practice of spiritual discernment a dialogical comparative process of reasoned reflection on behaviour and experience Through this practice of looking for life community members are led by the Spirit as they reason together attempting to associate the manifestations of new life with conduct that faithfully portrays Christ's self-giving pattern This correlation of conduct with experience grounds Paul's own proclamation of Jesus Christ in word and deed It also becomes the foundation for believers' faith and hope as they come to know Christ and experience the power of God Thus the book concludes that the practice of spiritual discernment by means of theoeethical reasoning lies at the centre of Paul's religion

The Earliest History of the Christian Gathering Valeriy A. Alikin, 2010 Recent research has made a strong case for the view that Early Christian communities sociologically considered functioned as voluntary religious associations This is similar to the practice of many other cultic associations in the Greco-Roman world of the first century CE Building upon this new approach along with a critical interpretation of all available sources this book discusses the social and religious historical background of the weekly gatherings of Christians and presents a fresh reconstruction of how the weekly gatherings originated and developed in both form and content The topics studied here include the origins of the observance of Sunday as the weekly Christian feast day the shape and meaning of the weekly gatherings of the Christian communities and the rise of customs such as preaching praying singing and the reading of texts in these meetings Hearing on AmeriCorps United States. Congress. House. Committee on Economic and Educational Opportunities. Subcommittee on Oversight and Investigations, 1996 *Scribal Harmonization in the Synoptic Gospels* Cambry Pardee, 2019-01-14 In *Scribal Harmonization* Cambry G Pardee examines the earliest Greek manuscripts of the Synoptic Gospels for evidence that scribes altered the text of the Gospels either deliberately or inadvertently in ways that eliminated discrepancies between them The phenomenon of harmonization demonstrates that a scribe's memories of previous experiences with gospel traditions could have a powerful effect on the manuscripts that they produced This book assembles for the first time a catalogue of harmonizing variants from every manuscript of Matthew Mark and Luke from the fourth century and earlier Far from reducing the unique voices of the

individual evangelists to a single melody the earliest scribes contributed new tones innovative strains and fascinating harmonies to the four fold gospel tradition

A Looking-glass for Ladies Lisa Joy Pruitt,2005 Lisa Joy Pruitt offers a new look at women s involvement in the mission movement with a welcome focus on the often overlooked antebellum era Most scholars have argued that the emergence of women as a dominant force in American Protestant missions in the late nineteenth century was an outgrowth of nascent feminist activism in the various denominations This new contribution suggests that the feminization of the later mission movement actually stemmed in large part from images of the degraded Oriental woman that popular evangelical literature had been circulating since the 1790s and that the increasing focus on and involvement of women was supported by male denominational leaders as an important strategy for reaching the world with the Christian gospel In the late eighteenth through the early nineteenth centuries popular evangelical literature began circulating descriptions of women of the Orient designed to illustrate the need of those women for the Christian gospel Such powerful and widely disseminated images demonstrated to young American women their relatively privileged position in society and throughout the nineteenth century led many to support the cause of missions with their money and sometimes their lives A belief in the desperate need of Oriental women for salvation and social uplift was largely responsible for feminizing the American Protestant foreign mission movement

A Looking Glass for Ladies American Protestant Women and the Orient in the Nineteenth Century traces the creation and dissemination of images of women who lived in that part of the world known to nineteenth century Westerners as the Orient It examines the emotional power of those images to create sympathy in American women for their sisters in Asia That sympathy catalyzed many evangelical women and men to argue for vocational roles for women both married and single in the mission movement The book demonstrates the ways in which assumptions about the condition and needs of Oriental women shaped American evangelical women s self perceptions as well as the evangelizing strategies of the missionaries and their sending agencies

of our surroundings in acts of placemaking This placemaking often considers environmental sustainability as it helps to sustain communities in the face of xenophobia and racism through cultural expression ranging from festivals to zines to sanctuary movements It emerges not only in specific locations but as movement within and between sites not only as part of a built environment but also as an aesthetic practice and not only because of efforts by cultural political and institutional leaders but through mass media and countless human interactions A rare and crucial perspective on Latina o x people in the Midwest Building Sustainable Worlds reveals how expressive culture contributes to and sustains a sense of place in an uncertain era Looking Back F.
