## Look At Leninism:

*A Look at Leninism* Ron Taber, 1988      Lenin and Leninism: Lenin as the Organizer and Leader of the Russian Communist Party Joseph Stalin, 2024-05-09 A new translation from the original Russian manuscript with a new afterword by the translator and a timeline of Stalin's life and works Written by Stalin for the 50th anniversary of Lenin's birthday this article defends Lenin and the Soviet regime from the western Liberal assertion that the Soviet Union did not practice real communism Stalin not only defends Lenin's legacy but begins the process of elevating him to an almost mythic status paving the way for a cult of personality around both Lenin and eventually himself      Lenin Robert Service, 2011-02-21 Lenin is a colossal figure whose influence on twentieth century history cannot be underestimated Robert Service has written a calmly authoritative biography on this seemingly unknowable figure Making use of recently opened archives he has been able to piece together the private as well as the public life giving the first complete picture of Lenin This biography simultaneously provides an account of one of the greatest turning points in modern history Through the prism of Lenin's career Service examines events such as the October Revolution and the ideas of Marxism Leninism the one party state economic modernisation dictatorship and the politics of inter war Europe In discovering the origins of the USSR he casts light on the nature of the state and society which Lenin left behind and which have not entirely disappeared after the collapse of the Soviet regime in 1991 Immensely scholarly but also vivid and readable This is a splendid book much the best that I have ever read about Lenin I was overwhelmed by the power and vividness of this portrait Dominic Lieven Sunday Telegraph He has managed skilfully to depict the surreal life of an obsessive brilliant and stubborn individual Guardian Lenin's life was politics but Service has succeeded in keeping Lenin the man in focus throughout This book deserves a place among the best studies of one of the most fascinating figures in modern history Harold Shukman The Times      **Lenin, Hegel, and Western Marxism** Kevin Anderson, 1995 This first full length treatment of Lenin's studies of Hegel presents Lenin as a major figure in Hegelian Marxism providing a more nuanced portrait of his work than that of either official Marxist Leninism or most Western accounts With impressive argumentation and wide ranging scholarship Anderson presents us with a Lenin that no one seriously interested in current debates over the relevance of Marxist theory to socialist practice can afford to miss Bertell Ollman author of *Dialectical Investigations* An important contribution to grasping the conceptual roots of Marxist theory and practice Tom Rockmore author of *Hegel's Circular Epistemology* Today Lenin looks like he did little more than prepare the way for Stalin You will find the opposite view in this novel study I recommend the book to anyone seriously interested in Russia and revolution George Uri Fischer author of *The Soviet System and Modern Society*      *Lenin* Beryl Williams, 2014-06-17 Drawing on the flood of new material to emerge from Russian and Western sources in recent years Beryl Williams focuses on Lenin's years in power and provides first rate introduction to the life ideology and impact of one of the formative figures of the 20th century Within an overall chronological framework Williams examines topics such as cultural

revolution foreign policy and expansion As well as being an examination of Lenin s life and work this is an up to date evaluation of recent historiographical debates and literature in the context of the period      **Unfinished Leninism** Paul Le Blanc,2014-06-17 A stimulating collection of essays on the revolutionary socialist Vladimir Lenin that survey fierce controversies over his life and ideas      The Communist Party In Power Karel Kaplan,Fred H Eidlin,2019-06-21 The aim of this book is simple It seeks to describe the main features of the internal life and functioning of a communist party It reflects both the results of a historian s research and the long years of experience of a communist official and party apparatchik

**Lenin's Electoral Strategy from 1907 to the October Revolution of 1917** August H. Nimtz,2014-03-13 This book is the first full length study of Lenin s party building project and writings on elections looking in detail at his leadership of the Bolshevik wing of the Russian Social Democratic Labor Party in the four state Dumas from 1906 to the beginning of the First World War      **Essential Texts of Marxism-Leninism** Marx-Engels-Lenin Institute,2015-01-31 This volume includes The

Communist Manifesto by Marx Engels Socialism Utopian and Scientific by Engels State and Revolution by Lenin On Practice and On Contradiction by Mao Foundations of Leninism by Stalin      *Thermidorian Societies and Their Enemies* Leslie Herzberger,2007-01-25 The author was born in Budapest Hungary in 1946 He served in the U S Army then attended Columbia University School of International Affairs and the Ph D Program in History at New York University This book is part of the follow up of the PH D Thesis Proposal that the author presented to New York University on December 24 1980 and worked out as a private scholar the next 20 years The work that went into the book spanned a period of around thirty years overall      **Lenin and Philosophy and Other Essays** Louis Althusser,2001 Louis Althusser has tackled a wide variety of

subjects including philosophy economics psychology aesthetics and political science This book contains a selection of his writings      *Factory of Strategy* Antonio Negri,2014-02-04 Factory of Strategy is the last of Antonio Negri s major political works to be translated into English Rigorous and accessible it is both a systematic inquiry into the development of Lenin s thought and an encapsulation of a critical shift in Negri s theoretical trajectory Lenin is the only prominent politician of the modern era to seriously question the withering away and extinction of the state and like Marx he recognized the link between capitalism and modern sovereignty and the need to destroy capitalism and reconfigure the state Negri refrains from portraying Lenin as a ferocious dictator enforcing the proletariat s reappropriation of wealth nor does he depict him as a mere military tool of a vanguard opposed to the Ancien R gime Negri instead champions Leninism s ability to adapt to different working class configurations in Russia China Latin America and elsewhere He argues that Lenin developed a new political figuration in and beyond modernity and an effective organization capable of absorbing different historical conditions He ultimately urges readers to recognize the universal application of Leninism today and its potential to institutionally not anarchically dismantle centralized power      **The Future of Lenin** Alla Ivanchikova,Robert R. Maclean,2022-07-01 Situated in a particular historical moment marked by the violent crises of capitalism the rise of the alt right the COVID 19 pandemic

and the Black Lives Matter movement *The Future of Lenin* collects essays by an international cohort of scholars to assert Lenin's relevance for twenty-first century politics and thought Taking different and sometimes opposing vantage points on Lenin's value for the future the contributions to this volume reveal an unexpected Lenin one who escapes the stale Cold War era discourse of demonization and hagiography Instead the future-oriented Lenin in these pages comes to life as our contemporary an interlocutor who is surprisingly relevant for Black and anticolonial struggles in the US and beyond for building the new Left and for assessing Bernie Sanders' movement as well as alt-right anti-statism In short Lenin's concrete development of Marxism for his historical conditions may yet offer lessons for revolutionaries to come

*The Palgrave Handbook of Russian Thought* Marina F. Bykova, Michael N. Forster, Lina Steiner, 2021-05-22 This volume is a comprehensive Handbook of Russian thought that provides an in-depth survey of major figures, currents, and developments in Russian intellectual history spanning the period from the late eighteenth century to the late twentieth century Written by a group of distinguished scholars as well as some younger ones from Russia, Europe, the United States, and Canada, this Handbook reconstructs a vibrant picture of the intellectual and cultural life in Russia and the Soviet Union during the most buoyant period in the country's history Contrary to the widespread view of Russian modernity as a product of intellectual borrowing and imitation, the essays collected in this volume reveal the creative spirit of Russian thought which produced a range of original philosophical and social ideas as well as great literature, art, and criticism While rejecting reductive interpretations, the Handbook employs a unifying approach to its subject matter, presenting Russian thought in the context of the country's changing historical landscape This Handbook will open up a new intellectual world to many readers and provide a secure base for its further exploration

*Marxism and Leninism* John H. Kautsky, 2020-03-25 One of the pre-eminent scholars in the history and theory of European socialism, John Kautsky in this volume develops the argument that Marxism and Leninism are two quite different ideologies He counterposes this view with the commonly accepted one of Leninism as simply one form that Marxism took in the course of its evolution The easy identification of Marxism and Leninism with each other has been responsible for great confusion in the realm of both scholarly and political discourse Kautsky develops his position within the tradition of the sociology of knowledge by the close examination of the different meanings of the Marxist vocabulary as it was used by Marxists and Leninists His frame of reference turns on the position of labor in turn-of-the-century industrial Europe and the role of modernizing intellectuals in underdeveloped countries While the vocabulary used was often common to Marx and Lenin, Marxism was explicitly concerned with appeals to workers in industrial nations such as Germany and Austria, whereas Leninism appeals to revolutionaries in underdeveloped nations such as Russia and China Whatever be the current assessment of the future of socialism and communism, Kautsky holds that it is important to study the core structure of both Marxism and Leninism since they were major phenomena that powerfully affected the world in the twentieth century Beyond that, in dealing with how different ideologies can be ensconced within the same rhetoric, the book offers an outstanding

entrance into the sociology of knowledge as a tool for political analysis This is a unique work in the function of language no less than the nature of ideology The work is divided into five parts Two environments two ideologies one terminology The evolution of Marxism its appeals in the German Empire The evolution of Leninism its appeals to strata involved in making modernizing revolutions The differential outcomes of Marxism in the East and Leninism in the West And finally an examination of why Marxism and Leninism have been seen as a single ideology In a new essay prepared for this new edition Kautsky provides important autobiographical as well as historical reflections on how this book fits into the overall pattern of the author's work     V.I. Lenin is Missing Thomas H. Tolmasoff, 1992 This satire introduces four intrepid Russian entrepreneurs who are planning to bridge the gap between socialism and a free market economy by buying and selling contraband Western goods They are clever they are resourceful and they think they are above suspicion because they are the caretakers of the Glorious Remains of the Father of Soviet Communism Then a KGB colonel wants in on the action and someone steals Lenin's body just before it is to be displayed for May Day Sash Natash Olya and Viktor are in deep trouble unless someone poses as Lenin in the casket     **Looking for the Proletariat** Stephen Hastings-King, 2014-05-08 Looking for the Proletariat is a contribution to understanding the implosion of the Marxist Imaginary The implosion is staged in terms of the first English language history of the French revolutionary group Socialisme ou Barbarie from 1949 to 1957 It explains why Socialisme ou Barbarie was the only Marxist organization interested by worker experience and how the group's anti Leninist position on organization led it to privilege first person worker narratives in order to understand worker experience and its revolutionary possibilities Using the only first person accounts of working class experience in French industry of the 1950s the book explores the disintegration of collective investment in the Marxist Imaginary that unfolded at Renault's Billancourt factory in the aftermath of the Hungarian Revolution and the contexts that shaped it     **Congressional Record** United States. Congress, 1978 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873     **Lenin Lives?** Christopher Read, 2024 A lively accessible and wide ranging account of one of the most influential figures of the twentieth century Through a brief but stimulating and penetrating account of his life and chief ideas the study examines how Leninism emerged and became a global force     *Daily Report, Foreign Radio Broadcasts* United States. Central Intelligence Agency, 1966
