The Motives of Self-Sacrifice in Korean American Culture, Family, and Marriage Chul Woo Son, 2014-01-24 The concept of self sacrifice is highly important to Korean Americans With hierarchy of age social status and gender defined roles taking primacy over equality and justice self sacrifice becomes instrumental in maintaining family and social relationships Unfortunately in family relationships sacrifice has more to do with submission and endurance than it does with sacrificial service that is redemptive and mutually beneficial When self sacrifice carries hidden motives coercive responsibility obligation shame guilt or one's reputation that self sacrifice is not self giving neither serving nor being of mutual benefit In this context it is important to explore the attitudes and motives of self sacrifice in Korean American families In unlocking and exploring the dynamics of the theology and practice of self sacrifice for Korean Americans this book explores cultural virtues marital relationships gender inequality domestic violence and their theological implications The author introduces a new approach and model with a proposal for a healthier and a more judicious understanding of self sacrifice for Korean American family relationships The element of equal regard as pertaining to self sacrifice offers Korean Americans a refreshing hope in the perspective of familial relationships and a liberating casting off of culturally and religiously imposed burdens The Korean American family ought to be grounded on a love ethic of equal regard and place its value on mutuality self sacrifice and individual fulfillment When this is done sacrificial love can be understood as justly appropriated for both husbands and wives males and females and parents and children Thus Christian teaching and theology may deliver a more transparent message of true agape and its liberating effects for the marginalized especially women and children Transnational Contexts of Culture, Gender, Class, and Colonialism in Play Alexis Pulos, S. Austin Lee, 2016-12-24 This book examines the local regional

and transnational contexts of video games through a focused analysis on gaming communities the ways game design regulates gender and class relations and the impacts of colonization on game design The critical interest in games as a cultural artifact is covered by a wide range of interdisciplinary work To highlight the social impacts of games the first section of the book covers the systems built around high score game competitions the development of independent game design communities and the formation of fan communities and cosplay The second section of the book offers a deeper analysis of game structures gender and masculinity and the economic constraints of empire that are built into game design The final section offers a macro perspective on transnational and colonial discourses built into the cultural structures of East Asian game play
