A Gentleman of France Stanley Weyman, 2018-01-19 The death of the Prince of Conde which occurred in the spring of 1588 by depriving me of my only patron reduced me to such straits that the winter of that year which saw the King of Navarre come to spend his Christmas at St Jean d Angely saw also the nadir of my fortunes I did not know at this time I may confess it to day without shame wither to turn for a gold crown or a new scabbard and neither had nor discerned any hope of employment The peace lately patched up at Blois between the King of France and the League persuaded many of the Huguenots that their final ruin was at hand but it could not fill their exhausted treasury or enable them to put fresh troops into the field

Death in France David Hough, 2015-08-25 Henry Bodine is on vacation in Europe trying to get his head straight after a family tragedy While in France he gets caught up in the gruesome murder of a mysterious English girl Things get worse

when the victim's body disappears and the French police don't believe his story so Henry sets out to track down the killer. Along the way he comes up against a range of suspicious characters. What is he to make of Brigitte L'Orly, a sultry French teenager who seduces him time and again? She is clearly hiding something important. And what about the odious youth and his girlfriend who seem to be obstructing Henry? Or the older guy who is obviously tailing him? All the clues eventually lead Henry to a mysterious old man living in a grand chateau. And along the way he finds someone to help him overcome his grief.

Medieval Architecture Nicola Coldstream, 2002. Medieval architecture comprises much more than the traditional image of Gothic cathedrals and the castles of chivalry. A great variety of buildings, synagogues, halls, and barns testify to the diverse communities and interests in western Europe in the centuries between 1150 and 1550. This book looks at their architecture from an entirely fresh perspective, shifting the emphasis away from such areas as France towards the creativity of other regions, including central Europe and Spain. Treating the subject thematically, Coldstream seeks out what all buildings, both religious and secular, have in common and how they reflect the material and spiritual concerns of the people who built and used them. Furthermore, the author considers how and why, after four centuries of shaping the landscapes and urban patterns of Europe, medieval styles were superseded by classicism.
