Looking At Los Angeles:

Looking for Los Angeles Charles G. Salas, Michael S. Roth, 2001 In Looking for Los Angeles 12 contributors present their responses to the world's newest major city A variety of perspectives and approaches are covered The text balances the importance of place with the importance of culture

Looking at Los Angeles David L. Ulin, 2005 Editors have gathered pictorial representations of Los Angeles from the last three quarters of a century resulting in this selection of more than 200 stunning depictions of the city from different eras and different points of view

Los Angeles Magazine, 1996-05 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian

Why Cities Look the Way They Do Richard J. Williams, 2019-08-08 We tend to think cities look the way they do because of the conscious work of architects planners and builders But what if the look of cities had less to do with design and more to do with social cultural financial and political processes and the way ordinary citizens interact with them What if the city is a process as much as a design Richard J Williams takes the moment construction is finished as a beginning tracing the myriad processes that produce the look of the contemporary global city This book is the story of dramatic but unforeseen urban sights how financial capital spawns empty towering skyscrapers and hollowed out ghettos how the zoning of once illicit sexual practices in marginal areas of the city results in the reinvention of culturally vibrant gay villages how abandoned factories have been repurposed as creative hubs in a precarious postindustrial economy It is also the story of how popular urban clichés and the fictional portrayal of cities powerfully shape the way we read and see the bricks concrete and glass that surround us Thought provoking and original Why Cities Look the Way They Do will appeal to anyone who wants to understand the contemporary city shedding new light on humanity's greatest collective invention

The Magic of Reality Richard Dawkins, 2011-10-04 Magic takes many forms Supernatural magic is what our ancestors used in order to explain the world

before they developed the scientific method The ancient Egyptians explained the night by suggesting the goddess Nut swallowed the sun The Vikings believed a rainbow was the gods bridge to earth The Japanese used to explain earthquakes by conjuring a gigantic catfish that carried the world on its back earthquakes occurred each time it flipped its tail These are magical extraordinary tales But there is another kind of magic and it lies in the exhilaration of discovering the real answers to these questions It is the magic of reality science Packed with clever thought experiments dazzling illustrations and jaw dropping facts The Magic of Reality explains a stunningly wide range of natural phenomena What is stuff made of How old is the universe Why do the continents look like disconnected pieces of a puzzle What causes tsunamis Why are there so many kinds of plants and animals Who was the first man or woman This is a page turning graphic detective story that not only mines all the sciences for its clues but primes the reader to think like a scientist as well Richard Dawkins the world s most famous evolutionary biologist and one of science education s most passionate advocates has spent his career elucidating the wonders of science for adult readers But now in a dramatic departure he has teamed up with acclaimed artist Dave McKean and used his unrivaled explanatory powers to share the magic of science with readers of all ages This is a treasure trove for anyone who has ever wondered how the world works Dawkins and McKean have created an illustrated guide to the secrets of our world and the universe beyond that will entertain and inform for years to come Western Construction News ,1927

The Stuff of Spectatorship Caetlin Benson-Allott,2021-04-06 Film and television create worlds but they are also of a world a world that is made up of stuff to which humans attach meaning Think of the last time you watched a movie the chair you sat in the snacks you ate the people around you maybe the beer or joint you consumed to help you unwind all this stuff shaped

your experience of media and its influence on you The material culture around film and television changes how we make sense of their content not to mention the very concepts of the mediums Focusing on material cultures of film and television reception The Stuff of Spectatorship argues that the things we share space with and consume as we consume television and film influence the meaning we gather from them This book examines the roles that six different material cultures have played in film and television culture since the 1970s including video marketing branded merchandise drugs and alcohol and even gun violence and shows how objects considered peripheral to film and television culture are in fact central to its past and future
