Photography and American Coloniality Raoul J. Granqvist, 2017-04-01 This book is the first to question both why and how the colonialist mythologies represented by the work of photographer Eliot Elisofon persist It documents and discusses a heterogeneous practice of American coloniality of power as it explores Elisofon's career as war photographer correspondent and staff photographer for LIFE filmmaker author artist and collector of primitive art and sculpture It focuses on three areas Elisofon's narcissism voyeurism and sexism his involvement in the homogenizing of Western social orders and colonial legacies and his enthused mission of sending home a mass of still life photographs annexed African artifacts and assumed vintage knowledge The book does not challenge his artistic merit or his fascinating personality what it does question is his production and imagining of difference As the text travels from World War II to colonialism postcolonialism and the Cold War from Casablanca to Leopoldville Kinshasa it proves to be a necessarily strenuous and provocative trip

Majority State Ownership of Oil and Mining Sectors in Africa John James Quinn, 2024-09-30 Majority State Ownership of Oil and Mining Sectors in Africa The Resource Curse Undermined shows that countries in sub Saharan Africa with majority state ownership of their major oil or mineral export sectors suffered from more severe versions of the natural resource curse than other similar countries Examining natural resource exporting nations in sub Saharan Africa between 1966 to 2000 Quinn shows that on average states with majority state ownership of these sectors featured lower growth lower incomes declining alternative export sectors more debt lower levels of investment lower levels of political and civil rights and more domestic conflict than other similar countries These results remained fairly consistent across both cross country data as well as in paired case studies One surprise finding is that these countries either had depreciating currencies or did not feature high levels of currency appreciation on average which is inconsistent with resource curse literature predictions Rather most countries with majority state ownership had high levels of currency overvaluation which operated in a similar manner as currency appreciation This work should appeal to students and faculty interested in the political economy of

development the natural resource curse and African development as well as politicians policy makers and NGO workers working in these areas The strong recommendation of the book is that governments should control 50% or less of these sectors **Views of Africa** Encyclopaedia Britannica, Inc.,2012-04-01 Updated for 2012 and part of the Britannica Learning Library Series in Views of Africa you will learn about the people traditions landscapes and history that make up many of the countries and cities of Africa **A Closer Look at Organizational Culture in Action** Süleyman Davut Göker,2021-01-07 Values attitudes and behaviors constitute an organization s culture and employees both share and use them on a daily basis in their work This book aims to briefly portray a new interpretation of organizational culture varying from the profusion of literature in the following ways it attempts to include how cultures are created organically or through consistent planning and action in different organizations such as education business and health focusing more on change innovation and learning opportunities It also aims to provide leaders with experiences and reflections on how to initiate an organizational culture change Finally this book is expected to extend new perspectives and practices for both potential and actual managers of organizations contributing to the current debate on how to transform organizations into innovative and learning cultures

On the move Aitor Ibarrola-Armendariz, Jon Ortiz de Urbina Arruabarrena, 2016-07-29 This volume brings together a selection of the papers and round tables delivered at the 39th AEDEAN Conference held at the University of Deusto in November 2015 The essays in *On the Move Glancing Backwards to Build a Future* in English Studies often begin with typically academic gestures such as retrieving a classic text and finding new ways of studying its genre or characterization or remarking how certain ungrammatical constructions have gone frequently unnoticed even in well known texts for various reasons or entangling oneself in contentions about the adequacy of dissecting a literary text or linguistic problem by using innovative analytical tools In all cases though there is the intention of putting forth certain views and notions that will help future scholars to deal in a better light with the dilemmas regularly encountered in literary linguistic and cultural studies The book opens with three essays by professors Bartholomae Pullum and R o who demonstrate not only their mastery in their respective subjects but also their ability to tailor their contents to multifarious audiences The next two sections represent the main body of the e book with nearly forty contributions on both literature and cultural studies Part II and language and linguistics Part III These short academic pieces are a representative showcase of the research being done lately in the different areas of expertise The last section of the volume gathers together the results of four research projects dealing with such engaging topics as postcolonial crime fiction or forgotten texts by Anglo writers about the Spanish Civil War It is hard to think of any potential reader schooled in English Studies who will not find something suitable to their interests and tastes in this volume

International Law and Civil Wars Eliav Liebllich, 2013-03-05 This book examines the international law of forcible intervention in civil wars in particular the role of party consent in affecting the legality of such intervention In modern international law it is a near consensus that no state can use force against another the main exceptions being self defence and actions mandated by a UN Security Council resolution However one more potential exception exists forcible intervention undertaken upon the invitation or consent of a government seeking assistance in confronting armed opposition groups within its territory Although the latter exception is of increasing importance the numerous questions it raises have received scant attention in the current body of literature This volume fills this gap by analyzing the consent exception in a wide context and attempting to delineate its limits including cases in which government consent power is not only negated but might be transferred to opposition groups The book also discusses the concept of consensual intervention in contemporary international law in juxtaposition to traditional legal doctrines It traces the development of law in this context by drawing from historical examples such as the Spanish Civil War as well as recent cases such those of the Democratic Republic of the Congo Somalia Libya and Syria This book will be of much interest to students of international law civil wars the Responsibility to Protect war and conflict studies and IR in general

Human Rights in Nigeria's External Relations

Philip Aka, 2016-12-20 This book is a broad ranging argument for thorough reforms at home and abroad in Nigeria as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Because of its enormous material and human endowments Nigeria is dubbed the Giant of Africa It is a moniker many of its leaders take

seriously Yet Nigeria is a state rife with instability some of it periodically erupting into violence Given still ongoing national security challenges in the land that notoriously includes a bloody religion oriented terrorism the Fourth Republic since 1999 the longest period of continuous democratic rule since independence key to the timeline of this book has not been insulated from the spell of instability The main argument of this work is that internationally agreed upon ethical standards embedded in human rights can save Nigeria This book is a methodologically and theoretically grounded seminal discourse on Nigerian foreign relations that spells out the human rights or lack thereof in those relations including underlying and impinging domestic forces This work is set around six issues of application embedded in a temple of Nigeria s human rights foreign policy comprising two steps and four pillars reconstructed national interest increased human rights at home redesigned peacekeeping reshaped foreign policy machinery increased bilateralism in foreign relations and the use of ECOWAS as human rights tool Although focused on the period since independence for proper understanding of events from the past that shape the current patterns of politics in the land this book also embodies a historical background chapter that overviews the pre colonial and colonial eras

Christian Churches and Nigeria's Political Economy of Oil and Conflict Nkem Emerald Osuigwe, 2014-09-18

The received account on African evangelical Christianity regarding social witness in a section of Western scholarship is that it is anti development and a political Such an account heavily draws from an instrumentalist and functionalist assessment of such Christianity without recourse to its emic perspective Using the case study method this book presents an ethnographic examination of this functionalist reading by investigating describing and analysing evangelical Christian theological and socio political consciousness within the context of oil and conflict in Nigeria s Niger Delta region Adopting approaches from practical theology congregational studies and anthropology of religion the author challenges such a reading using data gathered from three congregations in the region His discourse revolves around answers to the following four critical questions What are the underlying theological issues and beliefs of Nigerian evangelical Christians within the context of oil and conflict What is their prevalent praxis within the context of Nigeria s political economy of oil and conflict How accurate is the received account that African evangelical and fundamentalist Christianity lacks social responsibility and is a political and anti development What would a contextual political theology for Nigeria s political economy of oil look like The theological issues are varied and the prevalent praxis nuanced which then serves as a veritable critique of the claim that African evangelical Christianity lacks social responsibility due to its preoccupation with soul winning Whereas such Christianity places much emphasis on the winning of souls as an expression of its spirituality it is neither oblivious nor indifferent to its socio political milieu Rather it sees such spirituality as a form of political praxis Some of the trajectories of the spirituality include a theology of conversion a theology of prayer and an ethics of crude oil with Total Freedom as the nomenclature for the specific theological perspective offered for Nigeria s political economy of oil While locating this theological perspective within the taxonomy of Liberation Theology the affinity and dissonance between the two are identified
