*Series* , 1985 Vols for 1980 issued in three parts Series Authors and Titles      **Post-Communist Transformations in Baltic Countries** Zenonas Norkus, 2023-11-21 This Open access book provides a survey of the economic health and somatic progress of Baltic countries during the period 1918 2018 framed by the outline of the historical sociological theory of modern social restorations as originally conceived by the Austrian American comparative historian Robert A Kann The author

reworks Kann's theory to analyse post communist transformations in the Baltic region. The book argues that the purpose of modern social restorations is to make restoration societies safe against a recurrence of revolution. There were two waves of modern social restorations: post Napoleonic and post communist. Most post Napoleonic restorations were brief because they failed to economically and socially outperform the pre revolutionary and post revolutionary systems. It considers Baltic restorations as laboratory cases of second wave modern social restorations because they encompass a triple restoration of the nation state, capitalism and democracy. The book assesses the performance success of Baltic restorations by comparing economic and social progress of Baltic countries during the periods of original independence (1918-1940), foreign imposed state socialism (1940-1990) and restored independence since 1990. It then elaborates the criteria to assess the ultimate performance success of these restorations by 2040 when restored Baltic states may endure longer than their ancestors in 1918-1940 and the complete foreign occupations era (1940-1990). The author, an expert in historical sociology, uses extensive historical statistical data in cross time comparisons to develop his analysis and create future projections. This book is of wide interest to sociologists, social demographers, political scientists and economists studying the Baltic region. This is an open access book.
