**Bright Not Broken** Diane M. Kennedy,Rebecca S. Banks,2011-08-02 The future of our society depends on our gifted children the population in which we ll find our next Isaac Newton Albert Einstein or Virginia Woolf Yet the gifts and talents of some of our most brilliant kids may never be recognized because these children fall into a group known as twice exceptional or 2e Twice exceptional kids are both gifted and diagnosed with a disability often ADHD or an Autism Spectrum Disorder leading teachers and parents to overlook the child s talents and focus solely on his weaknesses Too often these children get lost in an endless cycle of chasing

diagnostic labels and are never given the tools to fully realize their own potential Bright Not Broken sheds new light on this vibrant population by identifying who twice exceptional children are and taking an unflinching look at why they're stuck. The first work to boldly examine the widespread misdiagnosis and controversies that arise from our current diagnostic system, it serves as a wake-up call for parents and professionals to question why our mental health and education systems are failing our brightest children. Most importantly, the authors show what we can do to help 2e children, providing a whole child model for parents and educators to strengthen and develop a child's innate gifts while also intervening to support the deficits. Drawing on painstaking research and personal experience, Bright Not Broken offers groundbreaking insight and practical strategies to those seeking to help 2e kids achieve their full potential.

**Rebecca S. Banks M.A.**, co-author of *The ADHD Autism Connection*, is a veteran educator, national speaker, trainer, and mother of two twice exceptional children.

**Temple Grandin Ph.D.** is a professor, prolific author, and one of the most accomplished and renowned adults with autism in the world.

*Beyond Evidence-Based Psychotherapy* George W. Rosenfeld, 2008-10-13

*Beyond Evidence-Based Psychotherapy* teaches students through a common factors point of view, combining research, case studies, multiple treatment orientations, and a perspective that describes the personal growth of a clinician's career. It differs from previous texts in that it presents the recent research on psychotherapy in a format that is understandable, memorable, and relevant to student concerns while integrating research and clinical experience to pragmatically guide clinical decisions. This book provides students of child and adolescent psychotherapy that are pursuing degrees in psychiatry, clinical psychology, social work, and marriage and family counseling with an insight into the practice of a child psychologist with 40,000 hours of experience working with thousands of clients and families. In the first part of the book, Rosenfeld presents 8 common factors of change in working with children and adolescents. The second part brings the reader through a day in the life of the author as he visits with a series of clients in various stages of treatment, bringing the material discussed in part one to life.
