**A New Deal for Native Art** Jennifer McLerran, 2022-08-16 As the Great Depression touched every corner of America the New Deal promoted indigenous arts and crafts as a means of bootstrapping Native American peoples But New Deal administrators romanticization of indigenous artists predisposed them to favor pre industrial forms rather than art that responded to contemporary markets In A New Deal for Native Art Jennifer McLerran reveals how positioning the native artist as a pre modern Other served the goals of New Deal programs and how this sometimes worked at cross purposes with promoting native self sufficiency She describes federal policies of the 1930s and early 1940s that sought to generate an upscale market for Native American arts and crafts And by unraveling the complex ways in which commodification was negotiated and the roles that producers consumers and New Deal administrators played in that process she sheds new light on native art s commodity status and the artist s position as colonial subject In this first book to address the ways in which New Deal Indian policy specifically advanced commodification and colonization McLerran reviews its multi pronged effort to improve the market for Indian art through the Indian Arts and Crafts Board arts and crafts cooperatives murals museum exhibits and Civilian Conservation Corps projects Presenting nationwide case studies that demonstrate transcultural dynamics of production and reception she argues for viewing Indian art as a commodity as part of the national economy and as part of national political trends and reform efforts McLerran marks the contributions of key individuals from John Collier and Rene d Harnoncourt to Navajo artist Gerald Naylor whose mural in the Navajo Nation Council House conveyed distinctly different messages to outsiders and tribal members Featuring dozens of illustrations A New Deal for Native Art offers a new look at the complexities of folk art revivals as it opens a new window on the Indian New Deal

**Drawing Back Culture** Tweedie, 2015-08-17 The Makah Indians of Washington State briefly in the national spotlight when they resumed their ancient whaling traditions in 1999 have begun a process that will eventually lead to the repatriation of objects held by museums and federal agencies nationwide *Drawing Back Culture* describes the early stages of the tribe s implementation of what some consider to be the most important piece of cultural policy legislation in the history of the United States the Native American Graves Protection and Repatriation Act NAGPRA NAGPRA was passed by Congress in 1990 to give Native people a mechanism through which they could reclaim specific objects of importance to the tribe Because NAGPRA definitions were intended for widespread applicability each tribe must negotiate a fit between these definitions and their own material culture The broad range of viewpoints within any given tribal community creates internal negotiations over NAGPRA surrounding the identification and eventual return of such objects Negotiations also arise concerning the nature of ownership At the heart of this ongoing struggle are themes relevant to indigenous studies worldwide the central role of material culture in cultural revitalization movements concerns with intellectual property rights and self representation and the trend towards professional cultural resource management among indigenous peoples The

conception of ownership lies at the heart of the Makahs struggle to implement NAGPRA Tweedie explores their historical patterns of ownership and demonstrates the challenges of implementing legislation which presumes a concept of communal ownership foreign to the Makahs highly developed and historically documented patterns of personal ownership of both material culture and intellectual property Drawing Back Culture explores how NAGPRA implementation has been working at the tribal level from the perspective of a tribe struggling to fit the provisions of the law with its own sense of history ownership and the drive for cultural renewal

**Cosmopolitanism and Tourism** Robert Shepherd, 2017-12-12 Within tourism studies the cosmopolitan potentials of tourism have often been situated within a broader conversation about globalization an approach that implies that cosmopolitanism is a predictable by-product of globalization and becoming more cosmopolitan should be the goal of travel And yet a fundamental value of a cosmopolitan outlook namely to not only to be at home in the world but also to experience the world in an authentic sense depends on the culturally embedded parochial and particular world views which it rejects In Cosmopolitanism and Tourism Rethinking Theory and Practice contributors take this as a

starting point What does a worldly consciousness mean to people situated in different cultural landscapes and to what extent might these intersect with cosmopolitan values How is cosmopolitanism marketed in tourism and tourist related industries such as service learning and study abroad And finally what roles do social and economic class educational background gender and other factors have in cosmopolitan claims The contributors to this edited collection address these questions in a series of case studies that range from Guatemala Bolivia and Ireland to China India and Dubai For more information check out A Conversation with Robert Shepherd author of *Cosmopolitanism and Tourism Rethinking Theory and Practice*

such stories in the General Motors Futurama exhibit at the 1939 World's Fair debates in Munsey's magazine films such as *Double Indemnity* and even in footage of the O J Simpson chase along Los Angeles freeways Juxtaposed with contemporaneous critiques by Lewis Mumford Theodor Adorno and Max Horkheimer Fotsch argues that these narratives celebrated new technologies that fostered stability for business and the white middle class At the same time transportation became another system of excluding women and the poor especially African Americans by isolating them in homes and urban ghettos A timely interdisciplinary analysis *Watching the Traffic Go By* exposes the ugly side of transportation politics through the seldom used lens of popular culture
