made by faith communities and organizations as well as by expressions of faith by individual legislators the authors argue that religion continues to be central to both enabling and restricting the development of sexual orientation equality Whilst some claim that faith has been marginalized in the legislative processes of contemporary western societies Johnson and Vanderbeck show the significant impact of religion in a number of substantive legal areas relating to sexual orientation including same sex sexual relations family life civil partnership and same sex marriage equality in employment and the provision of goods and services hate speech regulation and education Law Religion and Homosexuality demonstrates the dynamic interplay between law and religion in respect of homosexuality and will be of considerable interest to a wide audience of academics policy makers and stakeholders
