Looser Ends:

Loose Ends Russell Reising, 1996 In this study of American cultural production from the colonial era to the present Russell Reising takes up the loose ends of popular American narratives to craft a new theory of narrative closure In the range of works examined here from Phillis Wheatley s poetry to Herman Melville s Israel Potter from Henry James s The Jolly Corner to the Disney Studio s Dumbo Reising finds endings that violate all existing theories of closure and narratives that expose the often unarticulated issues that inspired these texts Reising suggests that these non endings entirely refocus the narrative structures they appear to conclude accentuate the narrative stresses and ideological fissures that the texts seem to suppress and reveal shadow narratives that trail alongside the dominant story line He argues that unless the reader notices the ruptures in the closing moments of these works the social and historical moments in which the narrative and the reader are embedded will be missed This reading not only offers new interpretive possibilities but also uncovers startling affinities between the poetry of Phillis Wheatley and the fiction of Henry James between Charles Brockden Brown s Wieland and Melville s least studied novel and between Emily Dickinson s poem I Started Early Took My Dog and Disney s animated classic Pursuing the implications of these failed moments of closure Reising elaborates on topics ranging from the roots of domestic violence and mass murder in early American religious texts to the pornographic imperative of mid century nature writing and from James s descent into naturalist and feminist fiction to Dumbo s explosive projection of commercial racial and political agendas for postwar U S culture

G. Loader,2021-11-10 Bill Loader has been one of the leading New Testament scholars not just in Australia but globally for half a century What is immediately apparent is that the clarity of communication and the exceptional precision in analyzing the details of ancient texts which are the hallmarks of his scholarship were present even in the earliest essays Without exception every essay in this volume is a contribution of exceptional insight for all who seek to learn from an exemplary scholar The Loose Ends List Carrie Firestone,2016-06-07 A refreshing funny and moving debut novel about first loves last wishes and letting go Seventeen year old Maddie O Neill Levine lives a charmed life and is primed to spend the perfect pre college summer with her best friends and young at heart socialite grandmother also Maddie s closest confidante tying up high school loose ends Maddie s plans change the instant Gram announces that she is terminally ill and has booked the family on a secret death with dignity cruise ship so that she can leave the world in her own unconventional way and give the O Neill clan an unforgettable summer of dreams come true in the process Soon Maddie is on the trip of a lifetime with her over the top family As they travel the globe Maddie bonds with other passengers and falls for Enzo who is processing his own grief But despite the laughter headiness of first love and excitement of glamorous destinations Maddie knows she is on the brink of losing Gram She struggles to find the strength to say good bye in a whirlwind summer shaped by love loss and the power of forgiveness The Discipline of Subjectivity Ermanno Bencivenga,2014-07-14 Through an interpretation of Montaigne s philosophical vision as expressed in his Essays Ermanno Bencivenga contributes to the current debate about the death of the subject by developing a view of the self as a project of continuous construction rather than the source and foundation of knowledge This latter Cartesian conception of self consciousness as a logical and epistemological starting point is Bencivenga contends delusive the certainty it provides is more akin to faith than to a cognitive state How then do we acquire knowledge of the self Montaigne makes for a productive case study in this regard he declares that he himself is the matter of

his book and that nothing but the constitution of his own self is his business A study of Montaigne reveals that the fundamental category missing in the Cartesian conception of the self is that of practical effort The self is not a ready made entity available for inspection and analysis but something whose generation requires exercise training and discipline It is the result of an operation that must be performed not just once but as in all training over and over again until it becomes second nature Bencivenga characterizes the particular training required by the project of constituting a subject as a revolutionary transgressive critical one which shares with philosophical activity a profoundly playful irrelevance to the ready to hand Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
