Hopcke,2013-02-05 The writings of C G Jung himself are the best place to read about all his main ideas but where to start when Jung s Collected Works run to more than eighteen volumes Robert H Hopcke s guide to Jung s voluminous writings shows exactly the best place to begin for getting a handle on each of Jung s key concepts and ideas from archetypal symbols to analytical psychology to UFOs Each chapter explains one of Jung s principal concerns then directs the reader where to read about it in depth in the Collected Works Each chapter includes a list of secondary sources to approach for further study which the author has updated for this edition to include books published in the ten years since the Guided Tour s first appearance *The Mythic Imagination* Stephen Larsen,1996-03-01 Mythology is the universal tongue of

human imagination As a tool for self discovery mythology is also a way of gaining access to the secrets of the psyche The Mythic Imagination is a quest for the ancient source of vision and meaning in the world of dream myth and archetype In the footsteps of Joseph Campbell Stephen Larsen guides the reader on a journey through the mythic landscape of the psyche His insight is that all of us at one time or another are engaged in creating personal mythologies that reflect the larger myths of the culture and our own deepest desires and aspirations This book is a guide for bringing the deeper mythic structures of experience into awareness for learning to recognize the archetypal content embedded in our dreams and daydreams feelings beliefs relationships conscious creations and behavior Student and authorized biographer of Joseph Campbell Larsen teaches us how to bring myth into our lives Reissue of the Bantam bestseller **An International Psychology of Men** Chris Blazina,David S. affect men and masculinity across a wide range of cultural and national settings It demonstrates that gender can no longer be viewed as an isolated characteristic in an era of increased globalization mental health professionals need to take ethnic and cultural issues into account to provide adequate care for male patients Numerous international perspectives are offered by the contributing authors authorities from countries such as Australia Argentina Denmark Canada India Ireland and South Africa on theoretical and clinical innovations for working with men Their chapters also offer insight into the socio cultural contexts for counseling men in and from their respective countries by exploring the ways in which being a man is socially defined what unique challenges men face and how these challenges can be negotiated within their specific cultural settings Topics addressed will include boyhood notions of manhood relationship concerns and power fatherhood and men s body image across the life span This text will ultimately enable mental health practitioners to have a better understanding of how to work more effectively with male clients

Tales for the Dying E. H. Rick Jarow, 2012-02-01 *Tales for the Dying* explores the centrality of death and dying in the narrative of the Bh gavata Pur na India s great text of devotional theism canonized as an integral part of the Vaisnava bhakti tradition The text grapples with death through an imaginative meditation one that works through the presence and power of narrative The story of the Bh gavata Pur na is spoken to a king who is about to die and it enables him to come to terms with his own passing The work does not isolate dying as an issue it treats it on many levels This book discusses how images of dying in the Bh gavata Pur na relate to issues of language and love in the religious imagination of India Drawing on insights from studies in myth literary semiotics and depth psychology as well as from Indian commentarial and aesthetic traditions the author examines the power of myth and narrative storytelling or hari katha and shows how a detailed awareness of the Puranic imagination may lead to a revisioning of some long held presuppositions around Indian religious attitudes toward dying By casting Vaisnava bhakti traditions and Puranic narrative in a fresh light the mythic imagination of the Pur nas takes its place on the stage of contemporary discourse on comparative mythology and literature

The Horned God (RLE Feminist Theory) John Rowan, 2012-11-27 This original and pioneering study of how men relate to feminism will appeal to all men who are concerned about their response to the women s movement and to the women in their lives It will also be helpful for women seeking a constructive response from men John Rowan drawing on his personal journey through feminism and on his considerable experience as a therapist tackles the issues in a much deeper way than has been attempted before For men to discover feminism is wounding for them It can even make them despair about being men at all But unless they accept that wound nothing much will change John Rowan shows that men have to heal that wound at a conscious social political level changing laws practice and daily behaviour They have to heal it at an unconscious level through therapy exploring their profound feelings about their mothers their fathers and their own internal female nature They also have to heal the wound at a spiritual transpersonal level exploring the world of the Goddess and the Horned God Only then says John Rowan can they start to have any real dialogue with women and only then can the world begin to
