Ady,1955 *The New Cambridge Medieval History: Volume 7, C.1415-c.1500* Rosamond McKitterick,1995 This volume covers the last century interpreted broadly of the traditional western Middle Ages Often seen as a time of doubt decline and division the period is shown here as a period of considerable innovation and development much of which resulted from a conscious attempt by contemporaries to meet the growing demands of society and to find practical solutions to the social religious and political problems which beset it The volume consists of four sections Part I focuses on both the ideas and other considerations which guided men as they

sought good government and on the practical development of representation Part II deals with aspects of social and economic development at a time of change and expansion Part III discusses the importance of the life of the spirit religion education and the arts Moving from the general to the particular Part IV concerns itself with the history of the countries of Europe emphasis being placed on the growth of the nation states of the early modern world *A Short History of Florence and the Florentine Republic* Brian Jeffrey Maxson,2023-02-23 The innovative city culture of Florence was the crucible within which Renaissance ideas first caught fire With its soaring cathedral dome and its classically inspired palaces and piazzas it is perhaps the finest single expression of a society that is still at its heart an urban one For as Brian Jeffrey Maxson reveals it is above all the city state the walled commune which became the chief driver of European commerce culture banking and art that is medieval Italy s enduring legacy to the present Charting the transition of Florence from an obscure Guelph republic to a regional superpower in which the glittering court of Lorenzo the Magnificent became the pride and envy of the continent the author authoritatively discusses a city that looked to the past for ideas even as it articulated a novel creativity Uncovering passionate dispute and intrigue Maxson sheds fresh light too on seminal events like the fiery end of oratorical firebrand Savonarola and Giuliano de Medici s brutal murder by the rival Pazzi family This book shows why Florence harbinger and heartland of the Renaissance is and has always been unique **Three Golden Ages** Alf J. Mapp,1998-11-13 In this intriguing book best selling author Alf Mapp Jr explores three periods in Western history that exploded with creativity Elizabethan England Renaissance Florence and America s founding What enabled these societies to make staggering jumps in scientific knowledge develop new political structures or create timeless works of art Lorenzo De' Medici, the Magnificent Alfred von Reumont,1876 **Lorenzo de' Medici** Lee Hancock,2004-12-15 Presents the life and accomplishments of the fifteenth century ruler of Florence who was renowned for his passion for the arts and who sponsored Michelangelo *The Power of Art* Caroline Campbell,2024-01-02 An epic work of art history that will transform our understanding of the world by unlocking the human stories behind millennia of art Taking readers from ancient Babylon to contemporary Pyongyang the eminent curator Caroline Campbell explains art s power to illuminate our lives and inspires us to benefit from its transformative and regenerative power Unlike the majority of contemporary art history this book is about much more than the cult of artists personalities Instead each chapter is structured around a city at a particularly vibrant moment in its history describing what propelled its creativity and innovation The emotions and societies she evokes are highly recognizable revealing how great art resonates powerfully by transcending the boundaries of time *The History and Philosophy of Art Education* Stuart Macdonald,2004 Investigating the study of art and design education in Italy France Britain Germany and the United States this text traces the philosophies of teachers from the age of the guilds and the academies setting them in the context of the general education theories of their times **A Bibliography of Modern History** , **Death in Florence** Paul Strathern,2015-08-15 By the end of the fifteenth century Florence was well

established as the home of the Renaissance As generous patrons to the likes of Botticelli and Michelangelo the ruling Medici embodied the progressive humanist spirit of the age and in Lorenzo de Medici they possessed a diplomat capable of guarding the militarily weak city in a climate of constantly shifting allegiances In Savonarola an unprepossessing provincial monk Lorenzo found his nemesis Filled with Old Testament fury Savonarola's sermons reverberated among a disenfranchised population who preferred medieval Biblical certainties to the philosophical interrogations and intoxicating surface glitter of the Renaissance The battle between these two men would be a fight to the death a series of sensational events invasions trials by fire the Bonfire of the Vanities terrible executions and mysterious deaths featuring a cast of the most important and charismatic Renaissance figures In an exhilaratingly rich and deeply researched story Paul Strathern reveals the paradoxes self doubts and political compromises that made the battle for the soul of the Renaissance city one of the most complex and important moments in Western history
