La fiesta de la colonia Jorge Pérez Grovas, esta es una historia a múltiples voces donde se narran las desventuras de un grupo de cineastas que buscan hacer una película sobre la época colonial. Al mismo tiempo se crea una intriga de espionaje frente a la duda de dónde sale el dinero de la realización de la cinta y se reflexiona sobre la importancia de este momento clave en la formación de nuestra identidad nacional.

La Paz's Colonial Specters Luis Sierra, 2021-01-14. This original study examines a vital but neglected aspect of the 1952 National Revolution in Bolivia: the activism of urban inhabitants. Many of these activists were Aymara speaking people of indigenous origin who transformed the urban environment, politics and place of indigenous and neighbors within the city of La Paz. Luis Sierra traces how these urban residents faced racial discrimination and marginalization despite their political support for the Movimiento Nacionalista Revolucionario (MNR). *La Paz's Colonial Specters* reassesses the contingent relational nature of Bolivia's racial categories and the artificial division between urban and rural activists. Building on rich established historiography on the indigenous people of Bolivia, Luis Sierra breaks new ground in showing the role of the neighborhoods in the process of urbanization and builds upon analysis of the ways in which race, gender and class discourse shaped migrants' interactions with other urban residents. Questioning how and why this multiclass and multiethnic group continued to be labelled by elites and the state as 'unmodern indigenous', the author uses La Paz to demonstrate the ways in which race, class and gender intertwine in urbanization and in conceptions of the city and nation. Of interest to scholars.

Evangelization and Cultural Conflict in Colonial Mexico Robert H. Jackson, 2014-05-02 In a study published in the mid twentieth century French historian Robert Ricard postulated that the evangelization and conversion of the native populations of Mexico had been rapid and relatively easy However different forms of evidence show that the so called spiritual conquest was anything but easy or rapid and in fact natives continued to practice their traditional beliefs alongside Catholicism Within several decades of initiating the so called spiritual conquest the campaign to evangelize and convert the native populations the missionaries faced growing evidence of idolatry or the persistence of traditional religious practices and apostasy straying from Church teachings The evidence includes written documents such as inquisition investigations that resulted for example in the execution of don Carlos the native ruler of Tezcoco on December 1 1539 or that uncovered evidence of systematic

organized resistance to Dominican missionaries in the Sierra Mixteca of Oaxaca Other forms of evidence include pre Hispanic religious iconography incorporated into what ostensibly were Christian murals and pre Hispanic stones embedded in the churches and convents the missionaries had built One example of this was the stone with the face of Tl loc at the rear of the Franciscan church Santiago Tlatelolco in Distrito Federal During the course of some three centuries missionaries from different Catholic religious orders attempted to convert the native populations of colonial Mexico with mixed results Native groups throughout colonial Mexico resisted the imposition of the new religion in overt and covert forms and incorporated Catholicism into their worldview on their own terms Native cultural and religious traditions were more flexible than the Iberian Catholic norms introduced by the missionaries The so called spiritual conquest a term coined by Ricard evolved as a cultural war set against the backdrop of the imposition of a foreign colonial regime The 11 essays in this volume examine the efforts to evangelize the native populations of Mexico the approaches taken by the missionaries and native responses The contributions investigate the interplay between natives and missionaries in central Mexico and on the southern and northern frontiers of New Spain and among sedentary and non sedentary natives In the end many natives found little in the new faith to attract them and resisted the imposition of new religious norms and way of life

The Colonial Andes Elena Phipps, Johanna Hecht, Cristina Esteras Martín, Metropolitan Museum of Art (New York, N.Y.), 2004 The arrival of the Spanish in South America in 1532 permanently transformed the Andean cultural landscape Within a generation societies that had developed over thousands of years including the great Inca Empire had been irrevocably altered The arts from the Spanish colonial period those that drew on native traditions such as textiles silver woodwork and stonework as well as painting sculpture and other genres introduced by the Spanish preserve an unspoken dialogue that developed between Andean and European modes of expression This beautiful book presents silver objects textiles and other masterpieces of colonial Andean culture Essays discuss the artistry of this culture and explain how it has been recently reevaluated and celebrated for its vibrant energy reflecting the convergence of two essentially distinct cultural traditions This book accompanies an exhibition at The Metropolitan Museum of Art September 29 to December 12 2004 Elena Phipps is conservator Textile Conservation and Johanna Hecht is associate curator European Sculpture and Decorative Arts at The Metropolitan Museum of Art
