Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES V) Miguel Ángel Esparza Torres, Hans-Josef Niederehe, 2015-10-15 Since the publication of the still very valuable *Biblioteca histórica de la filología* by Cipriano Muñoz y Manzano conde de la Viña Madrid 1893 our knowledge of the history of the study of the Spanish language has grown considerably and most manuscript and secondary sources had never been tapped before Hans Josef Niederehe of the University of Trier courageously undertook the task to bring together any available bibliographical information together with much more recent research findings scattered in libraries journals and other places The resulting *Bibliografía cronológica de la lingüística la gramática y la lexicografía del español* Desde los principios hasta el año 1600 BICRES began appearing in 1994 BICRES I covered the period from the early beginnings to 1600 followed by BICRES II 1601-1700 BICRES III 1701-1800 and together with Miguel Ángel Esparza Torres of Madrid there followed BICRES IV 1801 to 1860 Now the fifth volume has become available covering the years from 1861 to 1899 Access to the bibliographical information of altogether 5 272 titles is facilitated by several detailed indexes such as a short title index a listing of printers publishers and places of production and an author index More than twenty years of research in the major libraries of Spain and other European countries have gone into this unique work relative sources of the Americas have also been covered making it an exhaustive source for any serious scholar of any possible aspect of the Spanish language [Enciclopedia universal ilustrada europeo-americana](#), 1925

Selected Poems Federico García Lorca, 2007 Federico García Lorca is perhaps the most celebrated of all twentieth century Spanish writers known not only for his plays but also for several collections of poems published both in his short

lifetime and after Lorca's poetry is steeped in the land climate and folklore of his native Andalusia though he writes memorably of New York and Cuba too Writing often in modernist idiom and full of startling imagery he evokes a world of intense feelings silent suffering and dangerous love This unique parallel text edition balances poems from Lorca's early collections with his better known later work providing a clear vision of his poetic development and drawing attention to the brilliance and originality of some of the earlier work Key poems from all Lorca's collections appear here including the recently discovered Sonnets of Dark Love Martin Sorrell's translations are thoughtful and accomplished and D Gareth Walters's shrewd Introduction with its distinctive focus on the achievements of the poet gives a clear and balanced appraisal of the poetry while steering away from the tendency to mythologize Lorca's life and death This edition also includes helpful notes a bibliography a chronology and an index of titles **Velasquez and Murillo** Charles Boyd Curtis, 1883
