Losing Iraq Inside The Postwar Reconstruction Fiasco:

Losing Iraq David L. Phillips, 2006-05-30 Things didn't go wrong in postwar Iraq because the United States lacked a plan. Things went wrong because the United States was blinded by ideology and ignored planning that was already underway. *Losing Iraq* tells the story of the tragedy of Iraq from the first discreet meetings to plan the political transition through the debacle the United States finally created. *Losing Iraq* is a stunning and revealing look at our recent past with a candid take on how we can prevent this sort of tragedy from happening again. **Losing Iraq**, 2006 *Reconstructing Iraq* Gordon W. Rudd, 2011-05-30 When President George W. Bush stood on the decks of the U.S.S. Lincoln in May 2003 and announced the victorious end to major combat operations in Iraq, he did so in front of a huge banner that proclaimed Mission Accomplished. American forces had successfully removed the regime of Saddam Hussein with rapid, decisive operations, and yet the United States was unprepared to effectively replace that regime. Gordon Rudd's excellent history reveals why, in stark detail. Between the invasion of Iraq in March 2003 and the creation of the Coalition Provisional Authority (CPA) that May, the Allied forces struggled to plug the governance gap created by the removal of Saddam Hussein's regime. Plugging that gap became the job of the Office of Reconstruction and Humanitarian Assistance (ORHA), cobbled together with staff from diverse federal agencies and military branches. ORHA was led by Jay Garner, a key figure in assisting Kurdish refugees following Operation Desert Storm in 1991. Garner and ORHA were given mere weeks to stabilize a nation that had come completely apart at the seams. Iraq's infrastructure was in such a shambles thanks to years of poor maintenance, international sanctions, and massive looting that the mission was doomed to fail from the start. Rudd, field historian for ORHA and CPA, offers a critical look at this impossible effort. He shows that while military planning for the invasion of Iraq had been conducted for over a decade, planning for regime replacement was haphazard at best. The result was an unnecessarily large loss of lives, treasure, time, and American prestige despite the inspired efforts of Garner and his staff. Based on nearly 300 interviews and time on the ground in Iraq, Rudd's account also provides an unsettling look at the awkward transition from ORHA to CPA, revealing how Ambassador Paul Bremer managed to make things even worse. Garner here emerges as both heroic and tragic, a charismatic leader of great enthusiasm who took on a task of grand proportions but was poorly served by those who chose him for the mission. As Rudd makes clear, the key lesson of this experience is that regime removal solves nothing without effective regime replacement. That lesson learned the hard way serves as a cautionary tale for our engagement in future foreign conflicts.

Great Powers, Small Wars Larisa Deriglazova, 2020-03-03 A sophisticated appraisal of the problem of asymmetric conflict in the post-World War II period. In a sophisticated combination of quantitative research and two in-depth case studies, Larisa Deriglazova surveys armed conflicts post-World War II in which one power is much stronger than the other. She then focuses on the experiences of British decolonization after World War II and the United States in the 2003 Iraq war. *Great Powers, Small Wars* employs several large databases to identify basic characteristics and variables of wars between enemies.

of disproportionate power Case studies examine the economics domestic politics and international factors that ultimately shaped military events more than military capacity and strategy
