Enduring Loss in Early Modern Germany Lynne Tatlock, 2010 Cross disciplinary perspectives on responses to material and spiritual loss in early modern Germany trace how individuals and communities registered, coped with and made sense of deprivation through a spectrum of activities often turning loss into gain and acquiring agency

Loss David L. Eng, David Kazanjian, 2003 If catastrophe is not representable according to the narrative explanations which would make sense of history then making sense of ourselves and charting the future are not impossible But we are as it were marked for life and that mark is insuperable irrecoverable It becomes the condition by which life is risked by which the question of whether one can move and with whom and in what way is framed and incited by the irreversibility of loss itself Judith Butler from the Afterword Loss is a wonderful volume powerful and important deeply moving and intellectually challenging at the same time ethical and not moralistic It is one of those rare collections that work as a multifaceted whole to map new areas for inquiry and pose new questions I found myself educated and provoked by the experience of participating in an ongoing dialogue Amy Kaplan author of *The Anarchy of Empire in the Making of U S Culture*

The Short Story Anthology and Women's Writing Aleix Tura Vecino, 2025-08-14 Hundreds of anthologies of women's short stories have appeared in the literary market between the 1970s and now This publishing and cultural phenomenon is considered for the first time in this book which argues that during this period anthologies have become a literary technology used not only to make visible female short story writers but also to think about and mould ideas of womanhood Through creative and contextualised readings of the most important anthologies produced in this period this study shows that this literary form has contributed to and in some cases pioneered key developments in gender theory and feminist thought including questions of political combination among women which underlie contemporary global movements such as MeToo In doing so the book also develops the first book length conceptualisation of the features and meaning making mechanisms of the short story anthology as a literary form This book will benefit academics and students working in the fields of short fiction publishing and women's studies as well as feminist scholars and a growing number of specialists interested in the anthology as a literary form worldwide
