*Finding List*, 1908      **Understanding Contemporary Strategy** Thomas M. Kane, David J. Lonsdale, 2012-03-12 Understanding Contemporary Strategy provides an accessible and comprehensive introduction to the theory and practice of modern strategy Covering all the main issues in the field the book explores the major themes through a combination of classical and modern strategic theory history and current practice The book is split into three main sections Definition and Context including discussion of the human technological intelligence ethical and grand strategic dimensions Strategy in the Geographic Environments land sea air and space Contemporary Strategic Challenges terrorism insurgency and nuclear strategy Each chapter presents the reader with a succinct summary of the topic but also provides a challenging analysis of current issues supporting students with pedagogical features such as suggested further reading boxed case studies and study questions This book will be essential reading for upper level students of strategic studies war studies military history and international security      *Renaissance? Perceptions of Continuity and Discontinuity in Europe, c.1300- c.1550*, 2010-09-24 At least since the publication of Burckhardt's seminal study the Renaissance has commonly been understood in terms of discontinuities Seen as a radical departure from the intellectual and cultural norms of the Middle Ages it has often been associated with the revival of classical Antiquity and the transformation of the arts and has been viewed primarily as an Italian phenomenon In keeping with recent revisionist trends however the essays in this volume explore moments of profound intellectual artistic and geographical continuity which challenge preconceptions of the Renaissance Examining themes such as Shakespearian tragedy Michelangelo's mythologies Johannes Tinctoris view of music the advent of printing Burgundian book collections and Bohemian renovatio this volume casts a revealing new light on the Renaissance Contributors include Klara Benešová Robert Black Stephen Bowd Matteo Burioni Ingrid Ciulisov Johannes Grave Luke Houghton Robin Kirkpatrick Alexander Lee Diotima Liantini Andrew Pettegree Rhys W Roark Maria Ruvoldt Jeffrey Chipps Smith Robin Sowerby George Steiris Rob C Wegman and Hanno Wijsman      **The Great War** John Terraine, 1997      **On War - Completed** Carl von Clausewitz, 2016-11-09 The Germans interpret their new national colours black red and white by the saying *Durch Nacht und Blut zur Licht* Through night and blood to light and no work yet written conveys to the thinker a clearer conception of all that the red streak in their flag stands for than this deep and philosophical analysis of War by Clausewitz It reveals War stripped of all accessories as the exercise of force for the attainment of a political object unrestrained by any law save that of expediency and thus gives the key to the interpretation of German political aims past present and future which is unconditionally necessary for every student of the modern conditions of Europe Step by step every event since Waterloo

follows with logical consistency from the teachings of Napoleon formulated for the first time some twenty years afterwards by this remarkable thinker What Darwin accomplished for Biology generally Clausewitz did for the Life History of Nations nearly half a century before him for both have proved the existence of the same law in each case viz The survival of the fittest the fittest as Huxley long since pointed out not being necessarily synonymous with the ethically best Neither of these thinkers was concerned with the ethics of the struggle which each studied so exhaustively but to both men the phase or condition presented itself neither as moral nor immoral any more than vi are famine disease or other natural phenomena but as emanating from a force inherent in all living organisms which can only be mastered by understanding its nature It is in that spirit that one after the other all the Nations of the Continent taught by such drastic lessons as Koniggratz and Sedan have accepted the lesson with the result that to day Europe is an armed camp and peace is maintained by the equilibrium of forces and will continue just as long as this equilibrium exists and no longer The Confederate Culture and Its

Eighty years after the stunning and decisive battle a revelatory new history of Midway The Battle of Midway was on paper an improbable victory for the smaller less experienced American navy and air force so much so that it was quickly described as a miracle Yet fortune favored the Americans at Midway and the conventional wisdom has it that the Americans lucky streak continued as the war in the Pacific turned against the Japanese This new history demonstrates that luck let alone miracles had little to do with it In The Silver Waterfall Brendan Simms and Steven McGregor show how the efforts of America s peacetime navy combined with creative innovations made by designers and industrialists were largely responsible for the victory The Douglas Dauntless Dive Bomber a uniquely conceived fighting weapon delivered a brutally accurate attack the
