Goodbye, nest egg. Goodings, hilariously in *Lost in America*, director/co-writer Brooks (*The Muse*, *Master*, *Defending Your Life*) memorably bonds with Haggerty (*Apocalypse Now*, *What About Bob?*) as a couple spinning along on wheels of misfortune. Their comic plight speaks to anyone who's ever dreamed of chucking it all.

What America Lost: Decades That Made a Difference Sallie Ferrell Bolich, 2009-08-04 As the
fifties ended we were about to embark on a journey that would take our American society in a completely new direction By
reviewing history we can identify how the tumultuous sixties chose our path while each decade beginning in 1950 and
continuing through 2000 determined our course at that time On this journey many values and lifestyles experienced by the
Baby Boomers were left behind not passed on to their children Gen X and Gen Y The resulting new outlook profoundly
influenced attitudes held by these emerging generations The fascinating field of handwriting analysis serves as our GPS
which enables us to identify these attitudes trace where we've been and understand where society is today Handwriting is an
expression of self and attitudes resulting from personal experiences social interactions and events that made a significant
impact Reliving the journey with insight is made possible by studying handwriting samples obtained from high school
yearbooks covering those five decades Numerous historical and societal changes profoundly influenced attitudes of today
These attitudes mirror our culture Handwriting analysis will not reveal precise societal changes however it will reveal how
these changes impact attitudes
