roam the mountains The region's history however has been punctuated by violence usually provoked by ambitious outsiders nomad chieftains from the north Muslim emirs from Central Asia Russian generals or warlords from inner China The Chinese regard the far west as a barbarian land Only in the 1760s did they subdue it and even then their rule was repeatedly broken Compared with the Russians conquest of Siberia or the Americans trek west China's colonization of Xinjiang has been late and difficult The Communists have done most to develop it as a penal colony as a buffer against invasion and as a supplier of raw materials and living space for an overpopulated country But what China sees as its property the Uighurs regard as theft by an alien occupier Tension has led to violence and savage reprisals This portrait of Xinjiang should be essential reading for travelers and for anyone interested in today's China and the fate of minority peoples Travel and Ethics Corinne Fowler, Charles Forsdick, Ludmilla Kostova, 2013-12-13 Despite the recent increase in scholarly activity regarding travel writing and the accompanying proliferation of publications relating to the form its ethical dimensions have yet to be theorized with sufficient rigour Drawing from the disciplines of anthropology linguistics literary studies and modern languages the contributors in this volume apply themselves to a number of key theoretical questions pertaining to travel writing and ethics ranging from travel as commoditization to encounters with minority languages under threat Taken collectively the essays assess key critical legacies from parallel disciplines to the debate so far such as anthropological theory and postcolonial criticism Also considered and of equal significance are the ethical implications of the form's parallel genres of writing such as ethnography and journalism As some of the contributors argue innovations in these genres have important implications for the act of theorizing travel writing itself and the mode and spirit in which it continues to be conducted In the light of such innovations how might ethical theory maintain its critical edge **Eurasian Crossroads** James A. Millward, 2007 Presents a comprehensive study of the central Asian region of Xinjiang's history and people from antiquity to the present Discusses Xinjiang's rich environmental cultural and ethno political heritage *Eurasian Crossroads* James Millward, 2021-12-07 Since antiquity the vast Central Eurasian region of Xinjiang or Eastern Turkestan has stood at the crossroads of China India the Middle East and Europe playing a pivotal role in the social cultural and political histories of Asia and the world Today it comprises one sixth of the territory of the People's Republic of China and borders India Pakistan Afghanistan Tajikistan Kyrgyzstan Kazakhstan Russia and Mongolia *Eurasian Crossroads* is an engaging and comprehensive account of Xinjiang's history and people from earliest times to the present day Drawing on primary sources in several Asian and European languages James A. Millward surveys Xinjiang's rich environmental and cultural heritage as well as its historical and contemporary geopolitical significance Xinjiang was once the hub of the Silk Road and the conduit through which Buddhism Christianity and Islam entered China It was also a fulcrum where Sinic steppe nomadic Tibetan and Islamic imperial realms engaged and struggled In the twentieth and twenty first centuries the Han dominated Chinese Communist Party has failed to include Xinjiang's diverse indigenous Central Asian peoples Its nationalistic visions have spurred domestic

troubles that now affect the PRC's foreign affairs and global ambitions. This revised and updated edition features new empirically grounded and balanced analysis of the latest developments in the region focusing on the circumstances of the Uyghurs, Kazakhs and other Xinjiang peoples in the face of policies implemented by the Chinese Communist Party.
