Transgalactic A. E. Van Vogt, 2006-10-01 Empire of the Atom and The Wizard of Linn Global war smashed civilization or so the legends told but not all of its machines A caste of scientists arose who knew how to repair and operate the ancient machines but not how they worked and worshipped at the altars of the atomic gods who were said to make the machines run Society was a strange mix of the modern and the medieval with armies riding on horseback into huge spaceships then flying to human colonies on other planets to wage war with swords and arrows Then came the mutant Clane who would have been put to death for his deformities had he not been born into the ruling family Though his body was twisted his mind was brilliant and he not only recovered the lost science behind the ancient machines but found the truth behind the legends of civilization s downfall Alien invaders not human war had reduced humanity to barbarism as a prelude for a later return in force to colonize the Solar System And that return would happen soon unless Clane could find a way to stop it For the first time the entire Clane saga told in the two novels Empire of the Atom and The Wizard of Linn is complete in one volume Mission to the Stars Van Vogt s sweeping novel of interstellar adventure is also included along with the two short novels in the Ezwal series chronicling the struggle of one man to convince a feral but intelligent species to join with humanity in the battle against a mutual enemy but first he must convince the lone Ezwal who is trapped with him in a deadly jungle to co operate or neither will survive At the publisher s request this title is sold without DRM Digital Rights Management *Index to Science Fiction Anthologies and Collections* William Contento, 1978 **A History of Ironclads** John V.

Quarstein, 2007-02-28 One of history s greatest naval engagements the Battle of Hampton Roads occurred on March 8 and 9 1862 On the first morning the Confederate ironclad the CSS Virginia formerly known as the Merrimack sank two Union wooden warships proving the power of the armored vessels over the traditional sailing ships The next morning the Virginia engaged the Union ironclad USS Monitor to a draw in a battle that significantly altered naval warfare It was the first engagement between ironclads and ushered in a new era of warship construction and ordnance The 25 000 sailors soldiers and civilians who witnessed the battle knew then what history would soon confirm wars waged on the waters would never be the same The seemingly invincible Monitor and Virginia were experimental ships revolutionary combinations of new and old technology and their clash on March 9 1862 was the culmination of over 2 000 years of naval experience The construction and combat service of ironclads during the Civil War were the first in a cascade of events that influenced the outcome of the war and prompted the development of improved ironclads as well as the creation of new weapons systems such as torpedoes

and submarines needed to counter modern armored warships *Live Stream: Wild Upgrading Kan*
