Lost Lines Nigel Welbourn,2000 *Lost Lines* Tom Ferris,2020-07-05 Take a nostalgic steam powered journey back in time on the long closed line between Aberystwyth and Carmarthen Built by the ill fated Manchester and Milford Railway the fact that it didn't go to either only adds to the romance of this once popular route which fell victim to the Beeching cuts of the 1960s Includes an essay on the history of the line and photographs of its locomotives trains and stations **Lost Lines** Nigel Welbourn,2000 *Lost Railways of the World* Nigel Welbourn,2023-02-16 Many readers will be familiar with Nigel Welbourn's long running series of books covering lost railways in Britain and Ireland This new book *Lost Railways of the World* is the latest by this author on the subject of disused railways The material for this volume has been collected and researched over a period of almost fifty years of world travel by the author Informative text records the fortunes of the world's lost railways and every country with significant disused railways is included Lost railways are a unifying theme being found throughout the world from the hottest African desert to the coldest steppes of Russia The book has a surprisingly British flavor as historically many railways throughout the world used British equipment and operating practices On his first trip in the 1970s the author discovered British signaling equipment in Europe In 2020 he discovered the same firm's equipment in South America The world's top ten lost lines are listed from the seven mile long sea bridge on a line that ran through the Florida Keys to the rugged mountain splendor of the Khyber Pass Railway Some of the oldest largest longest most northerly southerly expensive crookedest steepest highest lowest and most notorious lost railways are included Quirky and other unique tales from lost railways are included such as the disappearing phantom bridge a line destroyed by molten lava to one that sank under the sea another that conveyed giant turtles to a memorial to a brave railway elephant The author also visited remote areas of Argentina and provides more information on the mysterious disappearance of the ex Lynton Barnstaple Railway locomotive Lew A large number of the 300 color illustrations have not been published before maps and stories from around the world will delight not only the railway enthusiast but appeal to a wider cadre of readers with an interest in nostalgia history geography and travel To some the book will be an informative source of information to others it is written in a way that highlights the most amazing lost railways in the world but either way it is a fascinating and unique book

Narrow Gauge in the Ypres Sector Martin J B Farebrother,Joan S Farebrother,2024-06-06 The Ypres sector of the Western Front was held predominantly by the British and Dominion's Armies from 1914 to 1918 The Ypres Salient at the centre of this sector was one of the most intensively fought over single locations of the First World War By the end of 1917 the sector was full of railways dumps camps and other facilities Much was lost in the German advance in April 1918 but from September 1918 the German Army was driven eastwards until the Armistice Although Ypres and most of the forward areas are in Belgium much of the support area is in northern France In this book the meter gauge networks of both countries established before the First World War are examined with their uses and extensions during the War The build up of light

60cm gauge railways from 1916 to 1918 is described with an assessment of the contribution of both narrow gauges to the war effort After the war the light railways in this sector were generally used only for short term clearing up and salvage The meter gauge railways in Belgium were rebuilt or repaired Those in France had been less affected The story is followed to the closure of the last of these railways This book is a companion volume to those on the Arras Sector 2015 and the Somme Sector 2018 It refers to other previous works on British French and Belgian railways especially during the First World War but contains sufficient information to stand alone The Railway Magazine ,1908 Britain's Lost Railways John Minnis,2018-08-07 The beautifully restored St Pancras Station is a magisterial example of Britain s finest Victorian architecture Like the viaducts at Belah and Crumlin cathedral like stations such as Nottingham Victoria and spectacular railway hotels like Glasgow St Enoch s it stands proud as testament to Britain s architectural heritage In this stunning book John Minnis reveals Britain s finest railway architecture From the most cavernous engine sheds like Old Oak Common through the eccentric country halts on the Tollesbury line and the gantries of the Liverpool Overhead Railway to the soaring viaducts of Belah and Cumlin Britain s Lost Railways offers a sweeping celebration of our railway heritage The selection of images and the removable facsimile memorabilia including tickets posters timetables and maps allows the reader to step into that past serving as a testimony to an age of ingenuity and ambition when the pride we invested in our railways was reflected in the grandeur of the architecture we built for them **Narrow Gauge in the Arras Sector** Joan S. Farebrother,Martin J. B. Farebrother,2015-11-30 The Arras sector of the Western Front in World War I WW1 was held partly by the British and Dominions 1st Army from September 1915 and almost wholly by the 1st and 3rd Armies from March 1916 No less than in the Ypres sector to the north and the Somme sector to the south the struggles of the French and then British troops in this sector were pivotal to the outcome of the War The sector included countryside in the south but in the north a major part of the industrial and coal mining area of northern France around Lens and Bthune In this book the contribution of metre and 60 cm gauge railways to the Allied war effort in this sector is examined in the context of the history of the metre gauge lines already established The build up of light 60 cm gauge lines from 1916 is examined in detail area by area and the contribution of the related metre gauge lines is reassessed from British and French sources After the War the role of these railways in the reconstruction and recovery of this devastated region of France is described Later the surviving part of the 60 cm gauge network served the sugar beet industry east of Arras The history is followed through another World War to the closure of the last of these railways in 1957 The book refers to previous works on British War Department light railways in WW1 but contains sufficient general information for readers new to the subject It also describes how to find key locations now and how and where rolling stock can be seen Six walks and an urban tour are included for those who wish to explore the territory in greater depth **British railway enthusiasm** Ian Carter,2017-10-03 Now available in paperback this is the first academic book to study railway enthusiasts in Britain Far from a trivial topic the post war train spotting craze swept most boys and

some girls into a passion for railways and for many ignited a lifetime's interest British railway enthusiasm traces this post war cohort and those which followed as they invigorated different sectors in the world of railway enthusiasm train spotting railway modelling collecting railway relics and then in response to the demise of main line steam traction Britain's now huge preserved railway industry Today this industry finds itself riven by tensions between preserving a loved past which ever fewer people can remember and earning money from tourist visitors The widespread and enduring significance of railway enthusiasm will ensure that this groundbreaking text remains a key work in transport studies and will appeal to enthusiasts as much as to students and scholars of transport and cultural history The British National Bibliography Arthur James Wells,2001 A History of the British Cavalry Lord Anglesey,1994-04-25 Volume V covers the last glory days of cavalry in World War I's Middle Eastern theater as British Indian Australian and New Zealand cavalry conducted some of the most brilliant mounted operations of all time **Bradshaw's Railway Gazette** ,1846 **Allen's Indian mail and register of intelligence for British and foreign India** ,1874 **African Studies in the Digital Age** ,2014-07-31 African Studies in the Digital Age DisConnects seeks to understand the complex changes brought about by the digital revolution The editors Terry Barringer and Marion Wallace have brought together librarians archivists researchers and academics from three continents to analyse the creation and use of digital research resources and archives in and about Africa The volume reveals new opportunities for research teaching and access as well as potential problems and digital divides Published under the aegis of SCOLMA the UK Libraries and Archives Group on Africa this new work is a major step forward in understanding the impact of the Internet Age for the study of Africa in and beyond the continent Contributors are Terry Barringer Hartmut Bergenthum Natalie Bond Mirjam de Bruijn Ian Cooke Jos Damen Jonathan Harle Diana Jeater Rebecca Kahn Peter Limb Lucia Lovison Golob Walter Gam Nkwi Jenni Orme Daniel A Reboussin Ashley Rockenbach Amidu Sanni Simon Tanner Edgar C Taylor Laurie N Taylor Marion Wallace Massimo Zaccaria **The Civil engineer & [and] architect's journal** ,1846

Jansen,2009-07-01 Magisterial in vision sweeping in scope this monumental work presents a seamless account of Japanese society during the modern era from 1600 to the present A distillation of more than fifty years engagement with Japan and its history it is the crowning work of our leading interpreter of the modern Japanese experience Since 1600 Japan has undergone three periods of wrenching social and institutional change following the imposition of hegemonic order on feudal society by the Tokugawa shogun the opening of Japan's ports by Commodore Perry and defeat in World War II The Making of Modern Japan charts these changes the social

engineering begun with the founding of the shogunate in 1600 the emergence of village and castle towns with consumer populations and the diffusion of samurai values in the culture Marius Jansen covers the making of the modern state the adaptation of Western models growing international trade the broadening opportunity in Japanese society with industrialization and the postwar occupation reforms imposed by General MacArthur Throughout the book gives voice to the individuals and views that have shaped the actions and beliefs of the Japanese with writers artists and thinkers as well as political leaders given their due The story this book tells though marked by profound changes is also one of remarkable consistency in which continuities outweigh upheavals in the development of society and successive waves of outside influence have only served to strengthen a sense of what is unique and native to Japanese experience The Making of Modern Japan takes us to the core of this experience as it illuminates one of the contemporary world's most compelling transformations Railway News, Finance and Joint-stock Companies' Journal ,1868
