The Island of Lost Maps Miles Harvey, 2010-10-06 The Island of Lost Maps tells the story of a curious crime spree the theft of scores of valuable centuries old maps from some of the most prominent research libraries in the United States and Canada The perpetrator was Gilbert Joseph Bland Jr an enigmatic antiques dealer from South Florida whose cross country slash and dash operation had gone virtually undetected until he was caught in 1995 and was unmasked as the most prolific American map thief in history As Miles Harvey unravels the mystery of Bland s life he maps out the world of cartography and cartographic crime weaving together a fascinating story of exploration craftsmanship villainy and the lure of the unknown

The Map Thief Michael Blanding, 2015-06-02 The story of an infamous crime a revered map dealer with an unsavory secret and the ruthless subculture that consumed him Maps have long exerted a special fascination on viewers both as beautiful works of art and as practical tools to navigate the world But to those who collect them the map trade can be a cutthroat business inhabited by quirky and sometimes disreputable characters in search of a finite number of extremely rare objects Once considered a respectable antiquarian map dealer E Forbes Smiley spent years doubling as a map thief until he was finally arrested slipping maps out of books in the Yale University library The Map Thief delves into the untold history of this fascinating high stakes criminal and the inside story of the industry that consumed him Acclaimed reporter Michael Blanding has interviewed all the key players in this stranger than fiction story and shares the fascinating histories of maps that charted the New World and how they went from being practical instruments to quirky heirlooms to highly coveted objects Though pieces of the map theft story have been written before Blanding is the first reporter to explore the story in full and had the rare privilege of having access to Smiley himself after he d gone silent in the wake of his crimes Moreover although Smiley swears he has admitted to all of the maps he stole libraries claim he stole hundreds more and offer intriguing clues to prove it Now through a series of exclusive interviews with Smiley and other key individuals Blanding teases out an astonishing tale of destruction and redemption The Map Thief interweaves Smiley s escapades with the stories of the explorers and mapmakers he knew better than anyone Tracking a series of thefts as brazen as the art heists in Provenance and a subculture as obsessive as the oenophiles in The Billionaire s Vinegar Blanding has pieced together an unforgettable story of high stakes crime

Archaeology and the Old Testament James B. Pritchard,2012-05-05 Archaeology is a science in which progress can be measured by the advances made backward into the past The last one hundred years of archaeology have added a score of centuries to the story of the growth of our cultural and religious heritage as the ancient world has been recovered from the sands and caves of the modern Near East Egypt Jordan Israel Syria Lebanon Turkey and Iraq Measured by the number of centuries which have been annexed to man s history in a relatively few years progress has been truly phenomenal This book deals with the recent advance and with those pioneers to the past who made it possible Interest in biblical history has played an important part in this recovery Names such as Babylon Nineveh Jericho Jerusalem and others prominent on the pages of the Bible have gripped the popular imagination and worked like magic to gain support for excavations This book is written from the widely shared conviction that the discovery of the ancient Near East has shed significant light on the Bible Indeed the newly discovered ancient world has effected a revolution in the understanding of the Bible its people and their history My purpose is to assess in non technical language which the layman can understand the kind of change in viewing the biblical past which archaeology has brought about in the last century Since the text of the Bible has remained constant over this period it is obvious that any new light on its meaning must provide a better perspective for seeing the events which it describes In short I am concerned with the question How has history as written in the Bible been changed enlarged or substantiated by the past century of the archaeological work from the Preface *Littell's Living Age* ,1856 **Bulletin of the American Geographical Society of New York** ,1893 *1001 Inventions* Salim T. the cartographic masterpiece the Venetian mappa mundi that revolutionized how we see the world In 1459 a Venetian monk
named Fra Mauro completed an astonishing map of the world Seven feet in diameter Fra Mauro s mappamundi is the oldest
and most complete Medieval map to survive into modernity And in its time this groundbreaking mappamundi provided the
most detailed description of the known world incorporating accurate observation and geographic reality urging viewers to
see water and land as they really existed Fra Mauro s map was the first in history to show that a ship could circumnavigate
Africa and that the Indian Sea was in fact an ocean enabling international trade to expand across the globe Acclaimed
anthropologist Meredith F Small reveals how Fra Mauro s mappamundi made cartography into a science rather than a
practice based on religion and ancient myths Here Begins the Dark Sea brings Fra Mauro s masterpiece to life as a work of
art and a window into Venetian society and culture In telling the story of this cornerstone of modern cartography Small takes
the reader on a fascinating journey as she explores the human urge to find our way Here Begins the Dark Sea is a riveting
