BRICS Patrick Bond, Ana García, 2015-08-20 The rise of the BRICS a bloc of emerging economies comprised of Brazil Russia India China and South Africa is one of the defining features of the modern global economy This book explores these nations which seem to be growing at a much faster rate than the developed nations of the Eurozone and North America Will they drag the developed world out of the economic mire Will they force social change and innovation into the tired old world order And politically do they herald a new dawn for democracy or do they represent a continued political repression This edited collection answers these questions by offering critical analysis of the rise of the BRICS economies within the framework of a predatory exclusionary and unequal global capitalism From Chinese oil geopolitics to the ruinous mega events in Brazil the authors provide a new radical way of understanding these controversial developments *Militarized*

Lives in the Global South, Volume I Monica Herz, Thiago Rodrigues, 2025-02-14 In this book we propose to tackle militarization trends in Latin America which include the presence of the military organizations in some vital national economic activities the ethics and aesthetics of the military in popular forms of entertainment the active engagement of military personnel in criminal activities the Armed Forces intervention in electoral processes the Armed Forces engagement in the cybersphere and cyberwarfare their participation in civil defense operations their emulation by militias gangs and other armed non state actors We shall consider militarization on multiple scales from the individual body and subjectification processes to international politics from the everyday experiences and practices to the development of national strategies in Latin America and we shall avoid the dichotomy between a militarized moment and space and a demilitarized moment and space *Repensar la sostenibilidad* ENRÍQUEZ SÁNCHEZ José María , DUCE DÍAZ Carmen , MIGUEL GONZÁLEZ Luis

Javier , 2021-01-11 La sostenibilidad cualidad de lo sostenible hace referencia a un proceso que puede alargarse en el tiempo Cuando este proceso lo referimos a cuestiones socio ecológicas comprobamos cómo desde hace ya largo tiempo no son pocas las voces acreditadas que han puesto sobre aviso del progresivo deterioro ecológico y sus consecuencias perjudiciales para la vida humana Nuestra obra parte de estas negatividades para repensar la idea de sostenibilidad en sus justos términos y así dar cabida a una variedad de aportaciones que ayuden a restituirlas dentro de los límites ecosistémicos **State**

Transformations: Classes, Strategy, Socialism , 2021-07-05 It is often remarked that critical and especially Marxist state theory began to lose its central place in the study of comparative politics in the 1980s Ironically this shift occurred just as neoliberal policies were transforming the social form and spatial scales of the state radically restructuring the practices of state economic intervention and extending the capabilities of the coercive arms of the state This volume addresses the impoverishment of state theory over the last decades and insists on the continued salience of class analysis to the study of states The book's title State Transformations reflects several central themes in the comparative study of states the neoliberal restructuring of capitalist states the changing economic and political architecture of imperialism and the prospects of a

democratic transformation of capitalist states The essays collected here on these themes are in honor and memory of Leo Panitch whose influential body of work has shaped debates on the state imperialism and socialism over the past four decades Contributors are Clyde W Barrow Caio Bugiato Frank Deppe Ruth Felder Ana Garcia Sam Gindin Doug Henwood Martijn Konings Colin Leys Sebnem Oguz Bryan D Palmer Dennis Pilon Larry Savage Charles Smith Michalis Spourdalakis and Hilary Wainwright *forum for inter-american research Vol 6* Wilfried Raussert,2023-07-20 Volume 6 of 6 of the complete premium print version of journal forum for inter american research fiar which is the official electronic journal of the International Association of Inter American Studies IAS fiar was established by the American Studies Program at Bielefeld University in 2008 We foster a dialogic and interdisciplinary approach to the study of the Americas fiar is a peer reviewed online journal Articles in this journal undergo a double blind review process and are published in English French Portuguese and Spanish

La construcción del capitalismo global Leo Panitch,Sam Gindin,2015-11-27 The all encompassing embrace of world capitalism at the beginning of the twenty first century was generally attributed to the superiority of competitive markets Globalization had appeared to be the natural outcome of this unstoppable process But today with global markets roiling and increasingly reliant on state intervention to stay afloat it has become clear that markets and states aren't straightforwardly opposing forces In this groundbreaking work Leo Panitch and Sam Gindin demonstrate the intimate relationship between modern capitalism and the American state including its role as an informal empire promoting free trade and capital movements Through a powerful historical survey they show how the US has superintended the restructuring of other states in favor of competitive markets and coordinated the management of increasingly frequent financial crises

Los nuevos disfraces del Leviatán Juan Carlos Monedero,2018-02-12 Hacer política a la Lenin hace ahora cien años es andar entre precipicios En el mundo vertiginoso del 1% del calentamiento global y de los campos de refugiados la política vuelve a ser un ámbito en movimiento en la calle sin rumbo y en las instituciones sin compromiso La perplejidad política abre paso a la desdemocratización y anuncia nuevas formas de autoritarismo Ya hay un norte en el Sur y un sur en cada Norte La globalización neoliberal hecha para las empresas multinacionales desafía a los Estados nacionales Las minorías se encuentran en la aldea global y las mayorías se desencuentran Hobbes escogió la imagen del Leviatán un biónico dragón marino para representar y celebrar en el siglo XVII los Estados absolutistas Hoy tras el paréntesis fugaz de los Estados sociales convivimos con un nuevo monstruo el neoliberalismo no menos feroz bajo sus ropajes democráticos La economía de mercado construye una implacable sociedad de mercado y nos regresa a un mundo de violencia y exclusión propio de otras épocas Y el Estado Los cambios estructurales que muestra el siglo XXI parecieron acorralarlo cuando solo con el Estado puede recuperarse el compromiso con las mayorías en nuestros países con las generaciones futuras y con un orden global diferente al de la guerra Ahí es donde se entiende la necesidad de re fundar la Unión Europea y la UNASUR o de reinventar Naciones Unidas Sin poder político no hay esperanza Pero el poder político al tiempo que es solución también es parte del problema No esperar demasiado del fin del mundo dice a Stanisław J. Lec En este pesimismo esperanzado no se puede olvidar que debajo de los disfraces del Leviatán siempre está la realidad implacable de un monstruo Y en las relaciones con los monstruos los más débiles siempre son su alimento
