Nuke Worse Case Scenario Series:

Nuke Dave Eberhart,2004-03 Special prosecutor John Stryker uncovers a fiendish terrorist plot when he investigates mutilated radiation burned human bodies *US Narratives of Nuclear Terrorism Since 9/11* David Seed,2019-04-06 This study examines the US fiction and related films which makes a series of interventions in the cultural debate over the threat of nuclear terrorism It traces the beginnings of this anxiety from the 1970s which increased during the 1990s after the collapse of the Soviet Union The traumatic events of 9 11 became a major reference point for this fiction which expressed the fear that of a second and worse 9 11 The study examines narratives of conspiracies which are detected and forestalled and of others which lead to the worst of all outcomes nuclear detonations sometimes delivered by suitcase nukes In some of these narratives the very fate of the nation hangs in the balance in the face of nuclear apocalypse The discussion considers cases of attacks by electromagnetic pulse EMP cyberterrorism and even bioterrorism Some of the authors examined are present or former politicians members of the CIA and former president Bill Clinton **The Progressive Parent** Kevin

Senapathy,2024-08-06 An evidence based social justice minded exploration of modern parenting from an award winning science journalist and cofounder of SciMoms How can we raise happy well adjusted kids today amid so much injustice and uncertainty This is the question at the heart of the progressive parent s dilemma Fortunately award winning science journalist Kevin Senapathy has the answers In this lively accessible exploration of modern parenting Senapathy guides readers through the complex cultural environmental economic and political issues facing all families today Equipped with practical tips and research driven advice for parents of kids from infancy to early teens she helps readers build a more fulfilling relationship with their children and themselves by addressing pressing questions such as Is formula feeding okay What is natural parenting How much screen time is too much screen time How do I help my children navigate questions around race and gender identity Informed by her experiences as a nonbinary parent of color and filled with a science journalist s hard won wisdom *The Progressive Parent* is an essential read for any parent or parent to be who believes that the values of science truth equity and justice should be applied not only individually but collectively *Eve of Destruction* John Hughes-Wilson,2021-04-22 It is certainly a good thing for the world that Hitler s crowd or Stalin s did not discover this atomic bomb It seems to be the most terrible thing ever discovered US President Harry S Truman Truman evidently understood the terrifying power of atomic weaponry but no one could have realised its full potential when he ordered the bombings of Hiroshima and Nagasaki in August 1945 Those military attacks along with the disasters at the Fukushima and Chernobyl nuclear reactors might immediately spring to mind at the mention of nuclear destruction but the vast majority of the events recorded in this book are entirely unknown to most people This book records the facts many of them still shrouded in secrecy which show a worrying truth we have teetered precariously on the brink of Armageddon far more frequently than the general public realises Since that first and last atomic war in 1945 there have been a terrifying number of nuclear

accidents and mishaps from the careless or accidental to the genuinely intentional and only narrowly averted. Despite the catastrophic nature of any nuclear conflict we have come to the very borders of such a situation ten times since the 1960s. Most people know about the Cuba Missile Crisis and a few about Operation Able Archer in 1984 which if anything was even more frightening than Cuba but there have been eight other occasions that might easily have toppled over into outright war. These were potential conflicts but there have been other accidents such as the reactor meltdown at the nuclear generating plant at Three Mile Island Pennsylvania in 1979 or the Palomares Incident in 1966 when a USAF B 52 bomber crashed after a mid air collision dropping four hydrogen bombs on Spanish soil. Eve of Destruction is a warning from history recent history. It is a call to sit up and listen and to take note of the very real danger of nuclear catastrophe. It is a timely and important book because after all the future of our planet has to concern us all.

North Korea's Second Nuclear Crisis and Northeast Asian Security Tae-Hwan Kwak, 2016-05-23 North Korea's testing of a nuclear bomb sent out a shock wave throughout the world and totally changed the strategic equation in the Korean peninsula and Northeast Asia. This testing has far reaching implications for Korean peace and unification, Northeast Asian security and America's global war on terrorism. This key volume provides an in depth analysis of the inter Korean and international dynamics of North Korea's nuclear crisis. It offers new insights into the six party talks designed to resolve the crisis, suggests creative formulas to resolve the ongoing crisis through peaceful diplomatic means and delves into the interests and policies of the major powers the US, China, Japan and Russia at the six party negotiating table. The contributing authors are distinguished specialists and experts in the field and as such offer valuable expertise into the dynamics of this nuclear crisis for students and academics.

From Stones to Nukes Adolf Kellenberger, 2024-01-15 This volume offers a sophisticated exploration of the history of weapons and warfare in Europe and the Atlantic world aimed at stimulating and inspiring those with an interest in this domain. It invites readers to revisit the foundational principles that underpinned the development of contemporary armaments and military practices until shortly before the turn of the millennium. In an era where global challenges have become inescapable this book emphasizes the importance of reconnecting with our shared origins and understanding our unique paths. As our world undergoes rapid changes in politics, society, economics and technology this exploration of history sheds light on the dynamics of change both in times of peace and war.

Nuclear Romance Abby Luby, 2011-10-14 Nuclear Romance a debut novel by New York journalist Abby Luby was written after the devastating accident at Japan's Fukushima nuclear power plants in March 2011. In the novel the tragic and mysterious death of a 7 year old girl after swimming at a beach across from a nuclear power plant sets off a chain of events involving a sports journalist, an anti nuclear activist, a grieving mother and her son. A young woman reporter falls prey to a callous plant executive who is driven to keep the multi billion dollar nuclear company viable. A clandestine love affair develops against the backdrop of growing anti nuclear sentiment which escalates after highly radioactive steam escapes from the plant forcing a mass evacuation.

America's War Machine James McCartney, Molly

Sinclair McCartney,2015-10-27 A veteran Washington reporter reveals how years of military slanted domestic and foreign policy have turned the U S into a perpetual war machine When President Dwight D Eisenhower prepared to leave the White House in 1961 he did so with an ominous message for the American people about the disastrous rise of the military industrial complex Fifty years later the complex has morphed into a virtually unstoppable war machine one that dictates U S economic and foreign policy in a direct and substantial way Based on his experiences as an award winning Washington based reporter covering national security James McCartney presents a compelling history from the Cold War to present day that shows that the problem is far worse and far more wide reaching than anything Eisenhower could have imagined Big Military has become too big to fail and has grown to envelope the nation s political cultural and intellectual institutions These centers of power and influence including the now complicit White House and Congress have a vested interest in preparing and waging unnecessary wars The authors persuasively argue that not one foreign intervention in the past 50 years has made us or the world safer With additions by Molly Sinclair McCartney a fellow journalist with 30 years of experience America s War Machine provides the context for today s national security state and explains what can be done about it *Controlled Burn*

S.E Lewinski,2022-03-16 This Sci Fi journey will challenge your thinking on evolution the fate of the planet and who s pulling the strings This is a fast paced non stop adventure from the USA to South America The roller coaster journey leads to an ancient location in Peru where Liam Abram must make a monumental decision Follow Liam the errant professor as he faces life and death choices and meets an array of challenges including jungles guns criminals and travelling with a woman who is not of this world The final question is will you be part of the Controlled Burn and succumb with the rest of humanity

Empty Quiver M John,2017-05-03 The most immediate and extreme threat to global security is a nuclear weapon falling into the hands of terrorists who have the will to use it The plot was hatched in a tiny village in the tribal area of Pakistan It starts with the kidnapping of a young woman Next is a wave of deadly bomb blasts in the Indian capital city Delhi The resulting situation permits terrorists to grab a few nuclear weapons The targets India Israel and USA are blissfully unaware of the threat A covert Indian Intelligence agency gets an inkling of the deadly plan and its small team of operatives start the initial countermoves with active involvement of the Intelligence agencies of Israel and the USA each agency is working to protect its own interests The race against time has started **Generic EIS for Nuclear Power Plant Operating Licenses Renewal** ,1996

Atoms, Bytes and Genes Martin W. Bauer,2015-02-11 Atom byte and gene are metonymies for techno scientific developments of the 20th century nuclear power computing and genetic engineering Resistance continues to challenge these developments in public opinion This book traces historical debates over atoms bytes and genes which raised controversy with consequences and argues that public opinion is a factor of the development of modern techno science The level and scope of public controversy is an index of resistance examined here with a pain analogy which shows that just as pain impacts movement resistance impacts techno scientific mobilization it signals that something is wrong and this requires

attention elaboration and a response to the challenge This analysis shows how different fields of enquiry deal with the resistance of social psychological mentalities in the face of industrial scientific and political activities inspired by projected futures

DEVASTATION POINT Paul R. Kirk,2015-05-19 DEVASTATION POINT What would you do if you were stranded halfway around the world when it crumbled The world collapsed after the spread of the hyper aggressive H5N1 Avian plague and several airborne mutations By simply breathing the air billions upon billions around the world died in less than a few months time Soon after technology and infrastructure disintegrated Electricity is gone there are no cell phones Internet television or much else Humanity lies in waste disease and ruin Among the remaining survivors one very rare gene in the human DNA surfaced as resistant to the onslaught Stuck in the remote mining town of Mudgee Australia Airborne Special Forces Colonel Connor MacMillen survives the dark and dangerous times Motivated by family he intends to get home to Pittsburgh Pennsylvania or rather the Fayette Mountains south of Pittsburgh He has unfinished business to attend to there After four impossible years traveling in a post apocalyptic world Connor Mac lands in San Francisco and commences the last leg of his journey across the continental United States DEVASTATION POINT begins Connor Mac s exploits in the fifth year of the New Dark Ages as he encounters a strange and changed America turned upside down by the Cuckoo Flu Encountering new friends as well as making fierce enemies along the way his personal journey reveals a furious and confident fight for life But unbeknownst to Connor Mac his journey to get home is noticed by those still in power in America and they re looking for him It seems he is decidedly different than most men left standing While all living men are infertile he is still able to reproduce And that changes everything DEVASTATION POINT takes a comprehensive look at how one man trained by America s best would respond to a world completely altered by the pandemic destruction To Connor Mac family connections are critical and returning home can be a prime motivator for one last and final mission DEVASTATION POINT stands head and shoulders over the pulp that permeates the post apocalyptic genre A full and complete first novel of over 250 000 words aficionados of the post apocalyptic genre will fully enjoy reading this This is an exploration of what it might take to smartly survive the apocalypse and still retain the higher elements of what it means to be human Sorry but there are no Zombies

Will Terrorists Go Nuclear? Brian Michael Jenkins,2009-12-02 For more than 30 years Jenkins has been advising the military government and prestigious think tanks on the dangers of nuclear proliferation Now he goes beyond what the experts know to examine how terrorists themselves think about such weapons

A Short History of Nuclear Folly Rudolph Herzog,2013-04-30 In the spirit of Dr Strangelove and The Atomic Caf a blackly sardonic people s history of atomic blunders and near misses revealing the hushed up and forgotten episodes in which the great powers gambled with catastrophe Rudolph Herzog the acclaimed author of Dead Funny presents a devastating account of history s most irresponsible uses of nuclear technology From the rarely discussed nightmare of Broken Arrows 40 nuclear weapons lost during the Cold War to

Operation Plowshare a proposal to use nuclear bombs for large engineering projects such as the construction of a second Panama Canal using 300 H Bombs Herzog focuses in on long forgotten nuclear projects that nearly led to disaster In an unprecedented people s history Herzog digs deep into archives interviews nuclear scientists and collects dozens of rare photos He explores the accidental drop of a Nagasaki type bomb on a train conductor s home the implanting of plutonium into patients hearts and the invention of wild tactical nukes including weapons designed to kill enemy astronauts Told in a riveting narrative voice Herzog the son of filmmaker Werner Herzog also draws on childhood memories of the final period of the Cold War in Germany the country once seen as the nuclear battleground for NATO and the Warsaw Pact countries and discusses evidence that Nazi scientists knew how to make atomic weaponry and chose not to

The China-India Nuclear Crossroads Lora Saalman,2012-08-10 Global power is shifting to Asia The U S military is embarking on an American pivot to the Indo Pacific region and the bulk of global arms spending is directed toward Asian theaters India and Pakistan are thought to be building up their nuclear arsenals while questions persist about China s potential to sprint to parity China remains by far the world s largest market for new nuclear energy production and India aspires to be on a similar trajectory Despite these trends The China India Nuclear Crossroads is the first serious book by leading Chinese and Indian experts to examine the political military and technical factors that affect Sino Indian nuclear relations In this book editor and translator Lora Saalman presents a comprehensive framework through which China and India can pursue enhanced cooperation and minimize the unintended consequences of their security dilemmas

North Korea in Quotation ,2005-06-30 Since the end of World War II the small country of North Korea has occupied a disproportionate amount of the world s diplomatic and military attention Its defiance of the international community has mystified and frustrated generations of leaders both in Asia and throughout the world With its closed borders and xenophobic leadership little is known about North Korea s government or its intentions leaving us to examine the words of the country s leaders and international statesmen analysts and journalists for a balanced critical assessment of North Korea and its relationship to the world The 20 categories covered here provide an overview of the breadth of issues facing the Northeast Asian country For each quote the speaker and his or her title are identified along with the original source of the quotation and its context Indexed by speaker subject and keywords
