*The Nuremberg Trials: International Criminal Law Since 1945* Herbert R. Reginbogin, Christoph Safferling, 2011-11-30 60 years after the trials of the main German war criminals the articles in this book attempt to assess the Nuremberg Trials from a historical and legal point of view and to illustrate connections contradictions and consequences In view of constantly reoccurring reports of mass crimes from all over the world we have only reached the halfway point in the quest for an effective system of international criminal justice With the legacy of Nuremberg in mind this volume is a contribution to the search for answers to questions of how the law can be applied effectively and those committing crimes against humanity be brought to justice for their actions History Made Conscious Geoff Eley, 2023-08-22 How History has changed in the half century since the 1960s During the last fifty years the writing of history underwent two massive transformations First powered by Marxism and other materialist sociologies the great social history wave instated the value of social explanation Then responding to new theoretical debates the cultural turn upset many of those freshly earned certainties Each challenge was profoundly informed by politics from issues of class gender and race to those of identity empire and the postcolonial The resulting controversies brought historians radically changed possibilities expanding subject matters unfamiliar approaches greater openness to theory and other disciplines a new place in the public culture History Made Conscious offers snapshots of a discipline continuously rethinking its charge How might we understand the social and the cultural together How do we collaborate most fruitfully across disciplines If we take theory seriously how does that change what historians do How should we think differently about politics Audiences of Nazism Ulrike Weckel, 2023-10-13 Through its focus on audiences and their reception of media in Nazi Germany Audiences of Nazism inverts the typical top down perspective employed in studies that concentrate on the regime's regulation of media and propaganda It thereby sheds new light on the complex character of the period's media their uses and the scope for audience interpretation Contributors investigate how consumers either appropriated or ignored certain messages of Nazi propaganda and how some even participated in its production The authors ground their studies on novel historical sources including private diaries and letters photographs and films and concert programs which demonstrate amongst other things how audiences interpreted and responded to regulated news Nazi Party rallies and the regime's denunciation of modern works of art as degenerate **Billy and The Joels - The American rock star and his German family story** Steffen Radlmaier, Billy Joel, 2014-10-01 In the 1920s Karl Amson Joel and his wife Meta founded a mail order linen goods company in Nuremberg Germany The business flourished and it could have turned out to be a picture book success story were it not for the coming to power of Adolf Hitler To escape the Nazis the Jewish couple and their son Helmut fled first to Berlin and then on to Switzerland The linen goods company was snapped up by department store king Josef Neckermann at basement price A further hazardous journey then took the Joels to Cuba and finally to New York Helmut married a young girl from Brooklyn and in 1949 she gave birth to their son William Martin known as Billy When

Nazi Germany** Joshua Hagen, Robert C. Ostergren, 2019-08-19 This richly illustrated book details the wide ranging  
construction and urban planning projects launched across Germany after the Nazi Party seized power Hagen and Ostergren  
show that it was far more than just an architectural and stylistic enterprise Instead it was a series of interrelated programs  
intended to thoroughly reorganize Germany's economic cultural and political landscapes The authors trace the specific roles  
of its component parts the monumental redevelopment and cleansing of cities the construction of new civic landscapes for  
educational athletic and leisure pursuits the improvement of transportation industrial and military infrastructures and the  
creation of networked landscapes of fear slave labor and genocide Through distinctive examples the book draws out the ways  
in which combinations of place space and architecture were utilized as a cumulative means of undergirding the regime and  
its ambitions The authors consider how these reshaped spaces were actually experienced and perceived by ordinary Germans
