Bluemel, Rhonda Harris Taylor, 2012-02-02 A convincing explanation of why interactive or movable books should be included in the library collection that documents their value as motivational instructional tools in all areas of the school curriculum across many grade levels Pop up books possess universal appeal Everyone from preschoolers to adults loves to see and tactilely experience the beautiful three dimensional work of Robert Sabuda David A Carter and other pop up book creators

Sabuda himself was inspired to become a pop up book artist after experiencing the 1972 classic pop up *The Adventures of Super Pickle*. The effect of these movable books on young minds is uniquely powerful. Besides riveting children's attention, pop up books can also help build motor skills, teach cause and effect, and develop spatial understanding of objects. Based on their direct experience and many presentations to teachers and librarians, the authors have provided template lesson plans with curriculum and standards links for using the best pop up books currently available in the instructional program of the school. The book also includes profiles of the most notable authors, a history of the format, definitions of terms such as flap book and paper engineer, and information on how to create movable books. Librarians will find the section regarding collection development with the format, how and where to acquire them, proper storage methods, and the annotated listing of the authors' 50 favorite pop ups extremely helpful.

A Young Life in Your Hands James M. Lahiff, 2022-05-31 The town was slowly recovering from the Great Depression and the nation unaware of the crisis developing in Europe when author James Lahiff was born. The death of his mother when he was five years old changed his life forever, however, guidance from his sister and brother. Some might call it browbeating, aided him as he bounced from one crisis to another. Although he might not have excelled in the grade school band, nor as a junior air raid warden, he persisted and went on to fail in an impressive variety of pursuits. Living near the center of town provided him with an ideal vantage point to observe and interact with its many characters, especially while doing his chores. His father's blacksmith shop was a popular gathering spot during mild weather to learn what was happening around town, and the author spent much time there.
