**Palliative Care Nursing of Children and Young People** Rita Pfund, 2018-10-08

Children's palliative care is an evolving specialty and as such our knowledge base cannot remain static. This book constantly challenges the reader to critically analyze their own practices and beliefs within an evidence-based framework and as such makes a valuable contribution to the growing body of knowledge on this important subject. Susan Fowler Kerry in the Foreword. This book caters for readers from different working environments and levels of experience. It is ideal for paediatric nurses with no specialist palliative care knowledge and also for palliative care nurses with no specialist paediatric experience. Other healthcare professionals and therapists working with children, young people and their families will also find this book invaluable. It will also be ideal for undergraduate and postgraduate health and social care students and professionals involved in children's hospices, community services and charity groups. This book captures not just the rapidly evolving evidence base but also as many current developments as possible and applies them in a meaningful way to the care of infants, children and young people living with life-limiting illness and their families. It offers an overview of contemporary issues and helps to stimulate the type of dialogue that can bring about the actions that will make a real difference for the children, young people and families in our care. Rita Pfund in the Preface.

*Pediatric Hematology-Oncology in Countries with Limited Resources*  
 Daniela Cristina Stefan, Carlos Rodriguez-Galindo, 2013-11-18. Typically, manuals of pediatric hematology oncology are written by specialists from high-income countries and usually target an audience with a sub-specialist level of training, often assisted by cutting-edge diagnostic and treatment facilities. However, approximately 80% of new cases of cancer in children appear in mid- and low-income countries. Almost invariably, general practitioners or general pediatricians without special training in oncology will look after children with malignancies who enter the health care system in these countries. The diagnostic facilities are usually limited, as are the treatment options. The survival figures in these conditions are somewhere below 20% while in high-income countries they are in the range of 80% for many childhood cancers. *Pediatric Hematology Oncology in Countries with Limited Resources* is the only book of its kind to provide specific guidance applicable to limited resource settings and builds up from the foundation of general practitioner or general pediatrician competence. Written and edited by leaders in the field, this manual educates physicians on the essential components of the discipline, filtered through the experience of specialists from developing countries, with immediate applicability in the specific healthcare environment in these countries.

**Childhood Cancer Survivors**  
 Nancy Keene, Wendy Hobbie, Kathy Ruccione, 2014-03-01. More than 325 000 children, teens and adults in the United States are survivors of childhood cancer. The surgery, radiation, chemotherapy and stem cell transplants used to cure children can affect growing bodies and developing minds. If survivors know of these potential problems, they can take steps to identify, cope with or treat them early if they do develop. The third edition of *Childhood Cancer Survivors* charts the territory for survivors by providing state-of-the-art information about medical late effects from treatment, emotional aspects of surviving cancer, schedules for follow-up care, challenges in the health care system, lifestyle choices to maximize health, discrimination in employment or insurance. Woven throughout the text are

stories from more than 100 survivors and parents Authors Keene Hobbie and Ruccione are experts in the field of childhood cancer Keene is the mother of a survivor of childhood leukemia and the author of several books including *Childhood Leukemia Childhood Cancer Educating the Child with Cancer and Chemo Craziess Comfort* Hobbie is Associate Director of the Cancer Survivorship Program at Children s Hospital of Philadelphia Ruccione is Co Director of the HOPE Hematology Oncology Psychosocial and Education Program in the Children s Center for Cancer and Blood Diseases at Children s Hospital Los Angeles
