Artificial Intelligence-Empowered Bio-medical Applications Dimitrios P. Panagoulas,George A. Tsihrintzis,Maria Virvou,2025-07-19 The book delves into advancements in personalized medicine highlighting the transition from generalized treatments to tailored strategies through AI and machine learning It first emphasizes the role of biomarkers in training predictive models and neural networks enhancing disease diagnosis and patient management It then explores AI driven healthcare systems particularly the use of microservices to improve scalability and management Additionally it examines regulatory challenges the need for AI explainability and the PINXEL framework which defines explainability requirements using the technology acceptance model TAM and the diffusion of innovation theory DOI Furthermore the book evaluates the capabilities of large language models including ChatGPT and GPT 4V in medical applications with a focus on diagnosis and structured assessments in general pathology Lastly it introduces an AI powered system for primary care diagnosis that integrates language models machine learning and rule based systems The interactive

AI assistants Med Primary AI assistant and Dermacen Analytica leverage natural language processing image analysis and multi modal AI to enhance patient interactions and provide healthcare professionals with high accuracy personalized diagnostic support By taking a holistic approach the book underscores the integration of AI into healthcare aiming to support medical professionals in patient diagnosis and management with precision and adaptability **Nanofertilizer Delivery, Effects and Application Methods** Kamel A Abd-Elsalam,2024-01-13

Nanofertilizer Delivery Effects and Application Methods explores the science of nutrient nanoformulation a potential tool toward sustainable and climate sensitive crops Wide spread use of chemical fertilizers has been shown to causes significant damage to soil structure mineral cycles soil microbial flora plants and creating human health risk both immediately and for future generations Through methods that include targeted distribution and gradual or controlled release nanostructured fertilizers can improve nutrient usage efficiency According to recent studies through environmental cues and biological demands nano fertilizers can respond to specific challenges and boost agricultural yield by increasing the rate of seed germination seedling growth photosynthetic activity nitrogen metabolism and carbohydrate and protein synthesis **Nanofertilizer Delivery Effects and Application Methods** discusses the potential agricultural benefits of nanofertilizers from coverage of their formulation and delivery to application plant uptake translocation and destiny and their overall effect on plant physiology and metabolism This book is ideal for researchers in industry and academia Highlights types uses and advantages of a wide range and variety of nanofertilizers on agri food sectors Looks at current practices their challenges and future development opportunities Includes methods and applications for real world insights *Biomarkers in Nutrition* Vinood B. Patel,Victor R. Preedy,2022-10-14

This handbook provides an all inclusive insight into biomarkers assessing the impact of nutrition on human health The reader will gain insight into the area of circulating body fluid biomarkers from cardiovascular related markers to liver functional tests Various biomarkers related to the intake of micronutrient and macronutrients are presented and the effects of different diets pesticide exposure and dietary supplements are discussed so are changes of genetic cellular and histological variables This systematic handbook is a must have for biomedical researchers as well as clinicians and pharmacologists who wish to gain extensive understanding on the analysis of effects of various nutritional and dietary effects on human health ageing and longevity **Digitalization And Smart Technologies In Gastronomy** Dr. Cihan CANBOLAT, Dr. İbrahim

ÇEKİÇ,2022-11-23 **Digitalization And Smart Technologies In Gastronomy** Food in the Metaverse and Web 3.0 Era: Intersecting Food, Technology, and Culture Alhussaini Hamad, Ahmed M.,Soni, Rashmi,2025-02-13 In the ever evolving landscape of technology the emergence of the metaverse and web 3 0 is set to revolutionize how we interact work and eat From virtual restaurants and augmented reality to personalized nutrition apps and blockchain powered food traceability the metaverse and web 3 0 are transforming the food industry Digital dining experiences are on the rise while social media and influencer culture continue to impact food trends The potential of emerging technologies such as 3D food printing lab grown

meat and smart agriculture revolutionize the way we produce distribute and consume food Further research into these technologies may reveal their impact on the future of food in the digital age Food in the Metaverse and Web 3 0 Era Intersecting Food Technology and Culture explores the intersection of food technology and culture offering insights into the future of gastronomy and culinary experiences It examines the evolving relationship between food and technology and encourages reimaged possibilities for the future of food This book covers topics such as influencer marketing food science and machine learning and is a useful resource for computer engineers data scientists sociologists business owners healthcare workers academicians and researchers *Precision Nutrition* David Heber,Zhaoping Li,José Ordovas,2023-10-20 Precision Nutrition The Science and Promise of Personalized Nutrition and Health organizes and integrates information on the diverse special areas of scientific expertise involved in Precision Nutrition in order to inform health professionals and inspire researchers to advance this field while applying the general principles into health care and medical research now Broken into three sections this book addresses the fundamentals of precision nutrition applications of precision nutrition in health and disease and the future directions of precision nutrition Nutrition scientists geneticists physicians dietitians postdoctoral fellows and epidemiologists seeking to understand Precision Nutrition will benefit from this timely reference Applies precision nutrition to diet and lifestyle conditions including heart disease diabetes and cancer Identifies future aspects of precision nutrition utilizing AI machine learning and superfast computers Outlines promising areas of research

Polyethersulfone: Membranes for Multiple Clinical Applications F. Locatelli,C. Ronco,Claudio Ronco,C. Tetta,2003-07 Since high permeability membranes were first introduced their performance has constantly improved The publication at hand focuses on a new polymer polyethersulfone which was designed to provide better hydraulic permeability as well as high diffusive performance thus allowing for fine tuning for different clinical applications In the first part of the book physico chemical characteristics and ultrastructural features of the polyethersulfone membrane with regard to different clinical uses ranging from low to high permeability membranes are dealt with The second part is devoted to clinical applications of the polyethersulfone membrane in ESRD Its high biocompatibility combined with the matching set up of the hemodialyzer was associated with stable functional efficiency and permeability with regard to albumin amino acids beta 2 microglobulin and sepsis associated cytokines in different hemodialytic modalities such as hemodiafiltration high flux hemodialysis paired hemodiafiltration PHF online and low flux hemodialysis This publication is intended for students clinicians and researchers alike Descriptions of innovative technological and methodological approaches regarding the evaluation of membrane and dialyzer performances and biocompatibility make it a useful basis for those interested in future comparisons among different hemodialyzers **Biochemistry, Nutrition, and Therapeutics of Black Cumin Seed** Abdalbasit Adam Mariod,2022-11-05 Biochemistry Nutrition and Therapeutics of Black Cumin Seed covers the history of medicinal uses of N sativa and its position in various cultures agronomy cultivation and agricultural practices The book also brings the

biochemical composition carbohydrates polysaccharides and nutritional value of black cumin seeds while also exploring them as a potential functional food Written by an international team of black cumin seeds researchers this book aims to reach producers nutraceuticals and pharmaceutical companies unconventional oil producing companies seed oils researchers Institutes and research groups of medicinal plants Food and chemistry students what they need to understand about the black cumin seed Black cumin s application as a food additive and flavoring agent have been reported in various countries around the world Furthermore previous studies have identified many volatile components present in N sativa seeds including thymoquinone a main compound that has antioxidant antimicrobial anti malarial anti cancer activities and help in treatment of bronchial asthma ischemia and cardiovascular diseases besides many other compounds that can induce pharmacological effects and have therapeutic potential in humans Thoroughly explores the biochemical composition nutritional values functional and medicinal potentials of black cumin seed and where they can be grown worldwide Covers the cultivation and agricultural practices of black cumin seeds Brings medicinal uses of black cumin seeds such as anti malarial and anti cancer activities Details the biological activities of the black cumin seeds and its nutritional effects

Health Informatics Meets EHealth G. Schreier, D. Hayn, 2018-05-18 Biomedical engineering and health informatics are closely related to each other and it is often difficult to tell where one ends and the other begins but ICT systems in healthcare and biomedical systems and devices are already becoming increasingly interconnected and share the common entity of data This is something which is set to become even more prevalent in future and will complete the chain and flow of information from the sensor via processing to the actuator which may be anyone or anything from a human healthcare professional to a robot Methods for automating the processing of information such as signal processing machine learning predictive analytics and decision support are increasingly important for providing actionable information and supporting personalized and preventive healthcare protocols in both biomedical and digital healthcare systems and applications This book of proceedings presents 50 papers from the 12th eHealth conference eHealth2018 held in Vienna Austria in May 2018 The theme of this

year's conference is Biomedical Meets eHealth From Sensors to Decisions and the papers included here cover a wide range of topics from the field of eHealth The book will be of interest to all those working to design and implement healthcare today
