American art Unpackaging Art of the 1980s offers an innovative approach to one of the most significant yet least understood episodes in twentieth century art **Sport and Art** Andrew Edgar,2016-04-08 Sport and Art explores relationship of sport to art It does not argue that sport is one of the arts but rather that sport and art hold common ground Both are ways in which humans confront philosophical challenges though they do this through very different media While art deploys sensual media such as paint or sound sport is the pursuit of a physical challenge at which the athlete may fail This is to propose in an argument that has its roots in Hegel s aesthetics that sport may be interpreted as a way of reflecting upon metaphysical and normative issues such as the nature of human freedom fate and chance and even our sense of space and time This argument is developed by proposing the concept of a sportworld an atmosphere of theory and a knowledge of history through which an event is interpreted and thereby constituted as sport Ultimately Sport and Art argues that in order to be truly appreciated sport must be understood within a modernist aesthetics That is to say that sport is not about beauty but rather about the struggle to find meaning in sporting triumph and crucially sporting failure This book was published as a special issue of Sport Ethics and Philosophy [View](#) ,1989 Each issue consists of an interview with an individual artist **Memento Mori in**

Contemporary Art Taylor Worley,2019-11-28 This book explores how four contemporary artists Francis Bacon Joseph Beuys Robert Gober and Damien Hirst pursue the question of death through their fraught appropriations of Christian imagery Each artist is shown to not only pose provocative theological questions but also to question the abilities of theological speech to adequately address current attitudes to death When set within a broader theological context around the thought of death Bacon s works invite fresh readings of the New Testament s narration of the betrayal of Christ and Beuys works can be appreciated for the ways they evoke Resurrection to envision possible futures for Germany in the aftermath of war Gober s immaculate sculptures and installations serve to create alternative religious environments and these places are both evocative of his Roman Catholic upbringing and virtually haunted by the ghosts of his excommunication from that past Lastly and perhaps most problematically Hirst has built his brand as an artist from making jokes about death By opening fresh arenas of dialogue and meaning making in our society and culture today the rich humanity of these artworks promises both renewed depths of meaning regarding our exit from this world as well as how we might live well within it for the time that we have As such it will be a vital resource for all scholars in Theology the Visual Arts Material Religion and Religious Studies
