Paul Thek,Anke Bangma,Musées de Marseille. MAC, galeries contemporaines,1995      **In the Archive of Longing** Mena  
Mitrano,2016-07-07 Reads modernism and theory through Susan Sontag s archiveThis adventurous critical inquiry into  
Sontag s archive illuminates the intimate link between modernism and theory while also providing a fascinating  
reintroduction to these two movements and concepts Mena Mitrano explores three core ideas in this study the confusion of  
terms between modernism and theory the concept of an unwritten theory suggested by Sontag s subterranean engagement  
with the foremost theorists of our time Derrida Foucault Deleuze Lacan Jameson and others in the rawness of her journals  
and notebooks and Sontag s identity as a non traditional philosopher through the extraordinary discipleship to Walter  
Benjamin The book is driven by new archival research and will have a multi layered impact changing our perception of  
Sontag as a post Cold War public intellectual as well as interrogating key concepts in the Humanities Key Features Original  
study of Susan Sontag s contribution to the development of critical thoughtOpens new avenues for research in the expanding  
field of new modernist studies and in the field of criticismDiscusses Sontag s collaboration with Walter Benjamin which  
reopens the question of the author and encourages an understanding of this concept from a psychoanalytic perspective as a  
transgenerational phenomenonIncludes a discussion of the role of the American avant garde in Sontag s abandonment of  
philosophy and in her turn to a pioneering more theoretical literary criticism      *American Artists in Postwar Rome* Peter  
Benson Miller,2025-01-09 Drawing on unpublished archival sources this book reconstitutes the experiences of a wide range  
of American artists critics and writers working in Rome in a charged environment of Cold War cosmopolitanism After the  
Second World War American artists flocked to Rome in record numbers even as the United States shored up Italy as a  
bulwark against the spread of Communism While the market for modern art in Rome was less vigorous as those in Paris and  
New York numerous galleries artist run spaces and other institutions acted as important catalysts making Rome an  
international artistic hub The city attracted now canonical figures Lee Bontecou Philip Guston Robert Rauschenberg Paul  
Thek and Cy Twombly along with less well known artists such as Eugene Berman Gene Charlton Carlyle Brown Peter Chinni  
William Congdon Claire Falkenstein Marcia Hafif John Heliker James Leong Beverly Pepper and Laura Ziegler among many  
others Rather than focusing on institutions and diplomatic relationships the book centres the experience of artists and also  
addresses Rome s gay subculture and the role of female artists during the period eschewing traditional narratives of the male  
cultural ambassador Through case study based investigation Peter Benson Miller explores the reciprocal relationships  
between American modernist artists and Italian artists in postwar Rome and reveals how these artists perceived Rome as less  
constrained by the demands of a national school and as an alternative to New York This congenial creative atmosphere

yielded new pictorial forms developed in tandem with or absorbed from like minded Italian artists engaging the city and its multiple layers of history from antiquity to the profound trauma inflicted by the recent conflict The book also establishes the entangled social networks galleries exhibitions and institutions sustaining their work and providing entrance into local artistic circles Focusing on a series of specific exchanges this study contributes to our understanding American modernism in an international context

**Paul Thek** ,1995 Sculpture and the Vitrine JohnC. Welchman,2017-07-05 Vitrines and glass cabinets are familiar apparatuses that have in large part defined modern modes of display and visibility both within and beyond the museum They separate objects from their contexts group them with other objects both similar and dissimilar and often serve to reinforce their intrinsic or aesthetic values The vitrine has much in common with the picture frame the plinth and the gallery but it has not yet received the kind of detailed art historical and theoretical discussion that has been brought to these other modes of formal display The twelve contributions to this volume examine some of the points of origin of the vitrine and the various relations it brokers with sculpture first in the Wunderkammer and cabinet of curiosities and then in dialog with the development of glazed architecture beginning with Paxton s Crystal Palace 1851 The collection offers close discussions of the role of the vitrine and shop window in the rise of commodity culture and their apposition with Constructivist design in the work of Frederick Kiesler as well as original readings of the use of vitrines in Surrealism and Fluxus and in work by Joseph Beuys Paul Thek Claes Oldenburg and his collaborators Jeff Koons Mike Kelley Dan Graham Vito Acconci Damien Hirst and Josephine Meckseper among others Sculpture and the Vitrine also raises key questions about the nature and implications of vitrinous space including its fronts onto desire and the spectacle transparency and legibility and onto ideas and practices associated with the archive collecting preserving and ordering

Republics and empires Melissa Dabakis,Paul H. D. Kaplan,2021-08-17 Republics and empires provides transnational perspectives on the significance of Italy to American art and visual culture and the impact of the United States on Italian art and popular culture Covering the period from the Risorgimento to the Cold War it reveals the complexity of the visual discourses that bound two relatively new nations together It also gives substantial attention to literary and critical texts that addressed the evolving cultural relationship

between Italy and the United States While American art history has tended to privilege French British and German ties these chapters highlight a rich body of contemporary research by Italian and American scholars that moves beyond a discussion of influence as a one way directive towards a deeper understanding of cultural transactions that profoundly affected the artistic expression of both nations

*World That Almost Was* Andrew Durbin, 2026-04-14 The cinematic never before told story of two intimately entangled artists who redefined queer art When Paul Thek met Peter Hujar in the winter of 1956 in Coral Gables Florida a slow simmering connection began to burn Thek twenty three and living in Miami was handsome and itching to make it as a painter in the twenty two year old Hujar a shy sensual photographer he d found a kindred spirit By 1960 they were dating and living in New York beginning decades of sex love competition and reconciliation an entanglement that changed American art forever Surrounded by a robust creative scene populated by Susan Sontag Andy Warhol Fran Lebowitz John Waters and David Wojnarowicz Thek and Hujar s profoundly influential careers from the early 1960s through the late 1980s differed as much as the men themselves The unpredictable and often overlooked Thek crafted visceral installations and sculptures while Hujar celebrated and sociable took penetrating portraits of his world queer and otherwise Yet even at their most estranged and even after their deaths from AIDS both men were united by a pursuit of liberation from artistic and sexual limits from anything short of changing the world Andrew Durbin s *The Wonderful World That Almost Was* unravels for the first time the intertwined stories and work of two boundaryburning paradigm tilting never more relevant American artists Weaving together deft art criticism with moving portraits of both men s inner lives and assembled with exhaustive research Durbin s book is an ode to a lost but still living world and two men who defined it

**Painting at the Edge of the World** Douglas Fogle, Walker Art Center, 2001 What becomes clear is that painting s traditional function as a window on the world has been circumvented or rather that someone has left the window open and a number of things have crawled in As Yve Alain Bois so eloquently paraphrases Robert Musil If some painting is still to come if painters are still to come they will not come from where we expect them to *Painting at the Edge of the World* looks beyond our expectations and provides a broad context for understanding painterly practice today
