Psychoanalysis Of Racism Revolution And Nationalism:

The Psychoanalysis of Racism, Revolution and Nationalism Richard A. Koenigsberg, 2013-07-15 *Nationalism and the Body Politic* Lene Auestad, 2018-05-01 This volume aims to question the recent revival of neo nationalist policies in the light of what unconscious fantasies are involved in these developments It examines both recent movements of right wing extremism and the way in which rearticulated neo ethnic ideas have been adopted by mainstream politicians and in mainstream public discourse Politicians from other than the right wing populist parties have tended to resist specific ways of talking that are considered too extremist rather than their underlying frame of interpretation Governments across Europe have adopted anti immigrant and anti Roma policies Xenophobia and hostility towards others is on the rise along with appeals to Tradition and Security Cultures of fear are linked with fantasies of fusion or imagined sameness Alongside the image of the nation as a mother and or father Reich 1933 called attention to the fantasy of the nation as a body echoed in Money Kyrle s 1939 characterization of group hypochondria in connection with the burning of witches and heretics *The SAGE Handbook of Nations and Nationalism* Gerard Delanty, Krishan Kumar, 2006-06-14 With its list of distinguished contributors and its wide range of topics the handbook is surely destined to become an invaluable resource for all serious students of nationalism Michael Billig Professor of Social Sciences at Loughborough University and author of *Banal Nationalism* SAGE 1995 The persistence some would say revival of nationalism across the recent history of modernity in particular the past two decades has taken many scholars in the social sciences by surprise In response interest in the analysis of nationalism has increased and given rise to a great variety of new angles under which to study the phenomenon What was missing in the cacophony of voices addressing nationalism was a volume that brought them together and confronted them with each other This handbook does just that It deserves particular praise for the wide range of approaches and topic included and for the systematic attempt at studying nationalism as a phenomenon of our time not a remnant from the past Peter Wagner Professor of Social and Political Theory European University Institute and Professor of Sociology University of Warwick For students concerned with the contemporary study of nationalism this will be an invaluable publication The three fold division into approaches themes and cases is a very solid and sensible one The editors have commissioned essays from leading scholars in the field and this handbook provides the best single volume overview of contemporary nationalism John Breuilly Professor of Nationalism and Ethnicity London School of Economics Nationalism has long excited debate in political social and cultural theory and remains a key field of enquiry among historians anthropologists sociologists as well as political scientists It is also one of the critical media issues of our time There are however surprisingly few volumes that bring together the best of this intellectual diversity into one collection This Handbook gives readers a critical survey of the latest theories and debates and provides a glimpse of the issues that will shape their future Its three sections guide the reader through the theoretical approaches to this field of study its major themes from modernity to memory migration and genocide

and the diversity of nationalisms found around the globe The overall aim of this Handbook is to relate theories and debates within and across a range of disciplines illuminate themes and issues of central importance in both historical and contemporary contexts and show how nationalism has impacted upon and interacted with other political and social forms and forces This book provides a much needed resource for scholars in international relations political science social theory and sociology

Psychoanalytic Reflections on Politics Eszter Salgó, 2013-11-07 Psychoanalytic Reflections on Politics Fatherlands in mothers hands is a playful exploration of how people s desires fantasies and emotions shape political events and social phenomena It highlights the mythical sources of today s political projects the power of political imagination and the function of symbolism in political thought Eszter Salg argues that the driving force for the formation of political communities is fantasy illusions in a Winnicottian sense phantasies in a Lacanian sense phantoms as described by Nicolas Abraham and Maria Torok and dreams as interpreted by S ndor Ferenczi She introduces the metaphor of the fantastic family as a symbolic representation of political communities both to reflect on people s deeply felt desire to find in public life the resolution love and wholeness of early childhood and to unveil the political elite s readiness to don the mask of the ideal parent The book is divided into two parts The first part of the book explores the theories of Donald Winnicott and Jacques Lacan the matrimony on the stage of politics between the good enough mother and the Symbolic Father which inaugurates the story of democracy s fantastic family The second part presents the fantastic families of selected countries such as Hungary Italy and the world community to explain the proliferation of cosmogony projects and to document the failure of the political elites to offer a satisfactory performance of their maternal and paternal functions Psychoanalytic Reflections on Politics Fatherlands in mothers hands presents a new way of considering the art of politics based on the understanding that people perceive reality through imagination and unconscious fantasy It will be of interest to psychoanalysts and academics from across the disciplines of politics psychology anthropology sociology philosophy literature and art

Explorations in Psychoanalytic Ethnography Jadran Mimica, 2007-05-01 Whereas most anthropological research is grounded in social cultural and biological analysis of the human condition this volume opens up a different approach its concerns are the psychic depths of human cultural life worlds as explored through psycho analytic practice and or the psychoanalytically framed ethnographic project In fact some contributors here argue that the anthropological interpretation of human existence is not sustainable without psychoanalysis others take a less extreme radical stance but still maintain that the unconscious matrix of the human psyche and of the intersubjective social reality of any given cultural life world is a vital domain of anthropological and sociological inquiry and understanding

Primitive Rebels Or Revolutionary Modernizers Paul J White, 2000-10 Protests worldwide followed the capture and trial of the Kurdish nationalist leader Abdullah calan in 1999 But where does the PKK come from What are its aims Who supports it What will its future be without calan And is there hope for a peaceful resolution to the Kurdish question in Turkey and a democratic future This timely book seeks answers to these

questions and provides an informative up to date and readable account of the Kurdish reality in Turkey today Its focus is a critical examination of the Kurdish nationalist movement especially the largest and most powerful grouping the PKK

Metaphor, Nation and the Holocaust Andreas Musolff, 2010-08-13 The book analyses the conceptual and discursive traditions that underlay the Nazi use of body illness and parasite metaphors in their genocidal anti Semitic ideology Part I gives a detailed analysis of this metaphor field in Hitler s *Mein Kampf* and his public statements from the 1920s to 1945 when it served him and the Nazi propaganda machine to announce justify and defend his main policy decisions to destroy European Jewry The book also studies the evidence from secret surveillance reports and diaries that demonstrates the impact of the body parasite metaphor complex on popular opinion in Germany 1933 1945 and in the post war period Part II of the book traces the history of this metaphor field back to the Middle Ages and the Renaissance when the concept of the nation state as a body emerged as a framework for political theory After its translation into the European vernacular languages the concept followed different discursive careers related to the divergent political cultures The reconstruction of its German discourse history reaching from Luther to the 20th century and still continuing shows that whilst there was no linear development towards the racist genocidal applications of the metaphors in Nazi ideology parts of the concept s discourse history served as the basis for Holocaust ideology and propaganda and that its use deserves continued critical attention

The De-Judaization of the Image of Jesus of Nazareth (The Virgin Mary) at the Time of the Holocaust: Ensoulment and the Human Ovum Thomas Alexander Blüger, 2021-03-09 Thomas has been researching his family s Jewish background for the last thirty years Herein he investigates how his Jewish grandparents and aunt defined as a nonprivileged Mischling survived the war while living in the heart of Nazi Germany This led Thomas to research Hitler s fear of having partial Jewish ancestry and expanded into a full blown study of following Christianity s understanding of the Jewish identity of Jesus of Nazareth throughout history Not leaving matters here Thomas outlines how Marian dogmatic theology used at the time of the Shoah brought to conclusion the Church s long journey in defining the time of ensoulment as articulated in the papal document *Ineffabilis Deus* promulgated by Pius in 1854 This happened twenty seven years after the discovery of the human ovum in 1827 by Karl Ernst von Baer Years later with the emergence of Nazi racial ideology many anti Christian Christians attempted to invert Christianity s core message of salvation through faith toward biological ends This would not do Roman authorities had consistently held throughout the centuries that faith is about salvation and not about biology According to that same end the ideal of ensoulment since the time of the Church s renewed understanding of it beginning in 1854 and indeed as it was first articulated through the writings of Aristotle and received into Christianity through the writings of Saint Augustine and later Thomas Aquinas was newly preserved within the confines of Western civilization This is the first book the author knows of that follows Augustine s concept of ensoulment as well as Aquinas s thinking on the matter while linking these to Karl Ernst von Baer s discovery of the human ovum in 1827 up until the events of Shoah and beyond This study is

phenomenological in nature in that it does not follow Jesus of Nazareth the Virgin Mary throughout history but rather follows the image of Jesus of Nazareth the Virgin Mary a monumental difference This study supports the Second Vatican Council the Church's latest and ongoing efforts in affirming the Jewish identities of both Jesus of Nazareth and the Virgin Mary John Paul II's call for a purification of memory beginning in a year of Jubilee as well as the many present efforts in Catholic Jewish relations This study builds upon the author's past article Following the Virgin Mary through Auschwitz Marian Dogmatic Theology at the Time of the Shoah published in Holocaust Studies A Journal of Culture and History Vol 14 winter 2008 No 3 pp 1-24

Bad Fathers, Wicked Stepmothers, Cannibalistic Witches, and Amorous Princes Robert White, 2025-03-10

Psychoanalysis has been interested in fairy tales and myths from the very beginning In the interpretation of dreams Freud felt he had found the royal road to the unconscious and that he could find in myths and fairy tales the same eternal truths about the unconscious The myth of Oedipus could be considered the founding myth of psychoanalysis Freud soon turned to the study of fairy tales which he thought in conjunction with German romanticism could be equated with primary process and the unconscious The fairy tale was equated with the dream This was a golden age of interest in fairy tales among the earlier Freudians In addition Freud formed an alliance with Jung who had an independent interest in myth Jung maintained the centrality of inherited psychic structures which he called archetypes Consequently the Jungians have remained much more interested in myth and fairy tale than the Freudians While fairy tales have remained popular in current culture in fictional retellings movies cartoons and opera there has been no modern extended psychoanalytic interpretation of fairy tales Psychoanalytic theory has broadened considerably in the last decades to include ideas about gender sexuality race social conflict and disorganized personality than the traditional Freudian focus on Oedipal development This new book aims to add meaning that captures the deeper traumatic nature of human life The author examines the multiple variations of myths and tales both within a nationality and across nationalities The literary version that has become canon was the one version of the tale that was written down By looking at the variations we can get a better sense of the multiple meanings possible The other road to meaning is modern rewriting of the tales which when well done adds to new layers to the tales The book also looks at examples of fantasy a more modern novelistic treatment of fairy tale themes

Racism Albert J. Wheeler, 2000 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature providing access by subject groupings as well as author and subject indexes Contents Racial Attitudes Racism and Poverty Hate Groups Racial Justice Racism and Politics Race Discrimination Racial Identity Racism Around the World

Death's Dream Kingdom Walter A. Davis, 2006-03-20 Why is fear a dominant emotion in contemporary society Why are politicians using words like terror evil and fundamentalism and what effect is it having on public consciousness This book taps into the cultural psyche to explore the link between ideology

and emotional and psychological manipulation It shows that the Bush administration has been hugely successful in controlling and developing a new political climate through the creation of an almost hypnotic mass consciousness From the sado masochist hysteria of Mel Gibson s *The Passion of the Christ* to the atrocities at Abu Ghraib prison and from the genocidal use of depleted uranium in Iraq to the apocalyptic language driving the Christian Right s assault on basic human rights Davis s findings take us to the heart of the ideological paralysis of the Left while offering an innovative approach to understanding contemporary history [The Fantasy of Oneness and the Struggle to Separate](#) Richard A.
