Psychology Of Crime A Social Science Textbook:

The Psychology of Crime Maurice Philip Feldman, 1993-06-25 An introductory textbook on criminal behaviour its identification cause and control

The Psychology of Crime Maurice Philip Feldman, 1993 Psychological Criminology Richard Wortley, 2011-04-12 Psychological Criminology addresses the question what is it about individuals and their experiences that cause them to commit crime and or to become criminal This book provides a comprehensive coverage of psychological theories of crime and criminality exploring theories focusing on factors present at birth human nature heredity theories that focus on factors that influence the offender over the lifespan learning development and theories focusing on factors present at the crime scene It emphasizes the connections among the different approaches and demonstrates how taken together rather than as rival explanations they provide a more complete picture of crime and criminality than each provides individually Theories are arranged throughout the book in a temporal sequence from distal to proximal causes of crime The analysis spans 100 000 years from the evolutionary roots of criminal behaviour in the ancestral environments of early humans on the African savana to the decision to engage in a specific criminal act Key features of the book include a focus on theory explaining crime and criminality an integrative approach accessible to readers who do not have a background in psychology Psychological Criminology highlights the contributions that psychological theory can make to the broader field of criminology it will be of interest to students academics researchers and practitioners in both criminology and forensic psychology

Criminal Genius James C. Oleson, 2016-09-06 For years criminologists have studied the relationship between crime and below average intelligence concluding that offenders possess IQ scores 8 10 points below those of non offenders Little however is known about the criminal behavior of those with above average IQ scores This book provides some of the first empirical information about the self reported crimes of people with genius level IQ scores Combining quantitative data from 72 different offenses with qualitative data from 44 follow up interviews this book describes the nature of high IQ crime while shedding light on a population of offenders often ignored in research and sensationalized in media

Understanding Criminal Behaviour David Jones, 2019-08-13 Our understanding of criminal behaviour and its causes has been too long damaged by the failure to integrate the emotional psychological social and cultural influences on the way people behave This book offers a concise and accessible introduction to criminal behaviour examining and integrating perspectives from criminology and psychology It proposes a range of psychosocial approaches that seek to understand the emotions that surround criminal behaviour allowing for an exploration of individual differences and social and cultural issues that help to bridge the gap between disciplinary approaches It offers substantive chapters on a range of topics including mental disorder and the relationship between mental health and offending criminal career research youth crime and the question of criminal responsibility gender and crime and violent crime including homicide and sexual crime This new edition has been fully updated including a revised opening chapter that offers an introduction to psychosocial criminology up to date discussion of

changes in the criminal justice system in the context of mental health and two new chapters on race and crime and public violence extremism and terrorism This book is essential reading for students taking a range of courses on criminal behaviour criminological theory criminal psychology and psychological criminology **Islamist Radicalisation in Europe** Daniela Pisoiu,2012-01-25 This book examines the Islamist radicalisation process in Europe developing a new theoretical model based on an empirical study of the evolution of Islamist radicals in their social environment The approach of this book is to examine how and under what conditions people choose to radicalise It focuses on the experience of radicalisation from the perspective of those who have undergone it The study is based on trial and court material along with an extensive number of interviews collected from many different European countries and this biographical approach is used to address individuals and the details of their social environment Overall the explanatory framework departs from the existing deterministic paradigm with grievances as causes also present in some psychological models and argues that radicalisation is a process much like occupational choice a rational choice made with social and ideational significance It addresses critically the assumption that because the result of the radicalisation process could be seen as abnormal the cause of it might be of a similar nature Parallels are drawn with other forms of extremism and European counter radicalisation policies are considered critically This book will be of great interest to students of terrorism studies and political violence political Islam social movements European politics and IR security studies in general *Handbook on Crime* Fiona Brookman,Mike Maguire,Harriet Pierpoint,Trevor Bennett,2010-02 This comprehensive edited volume contains analysis and explanation of the nature extent patterns and causes of over 40 different forms of crime in each case drawing attention to key contemporary debates and social and criminal justice responses **Introduction to Forensic Psychology** Stacey L. Shipley,Bruce A. Arrigo,2012-07-10 This edition of Introduction to Forensic Psychology has been completely restructured to map to how courses on forensic psychology are taught and features more figures tables and text boxes textbook pedagogy Uniquely this book offers equal representation of criminal behavior the court systems and law enforcement prisons It also has equal representation of criminal and civic forensics and of issues pertaining to adults and children new coverage of emerging issues in forensic psychology expanded case illustrations and vignettes practice and ethics updates and international trends new key issue overviews boldface terms and concepts and chapter reviews expanded coverage of corrections for juveniles

Correctional Mental Health Handbook Thomas J Fagan,Robert K Ax,2003 The number of criminal offenders with mental health problems has increased steadily Yet few graduate programs offer courses that deal with the many complex assessment treatment and management issues encountered by correctional mental health workers The Correctional Mental Health Handbook is the first book to offer a comprehensive overview of the services provided by correctional mental health professionals for the various populations found in correctional programs and facilities Edited by Thomas J Fagan and Robert K Ax experts with over 40 years of correctional mental health experience this unique handbook is divided into three sections

The first section provides a flexible model for organizing mental health services based on staffing levels facility mission and local need The second section considers typical offender problems in many correctional systems and how they are customarily managed The third section presents various clinical and consultative activities offered by mental health professionals within correctional settings A distinguished group of practitioners and scholars combine years of experience and cutting edge research to examine The ethics of correctional mental health practice Practitioner roles within the correctional community Core mental health services for both single offenders and special need groups Program planning and release preparation for inmates Mental health services offered to institution staff Training hostage and crisis negotiators Future trends in correctional mental health While the main audience will be correctional mental health professionals and academics involved with training correctional mental health professionals the Correctional Mental Health Handbook is also an ideal primer for graduate students studying corrections in criminal justice programs For the student preparing to enter the correctional mental health profession this indispensable text explains the general characteristics and treatment needs of specific inmate populations including substance dependent offenders female offenders sexual predators and juvenile offenders

Introduction to Criminology Pamela J. Schram, Joseph A. Schwartz, Stephen G. Tibbetts, 2024-02-16
Introduction to Criminology Why Do They Do It offers a contemporary and integrated discussion of key criminological theories to help students understand crime in the 21st century Focusing on why offenders commit crimes authors Pamela J Schram Joseph A Schwartz and Stephen G Tibbetts apply established theories to real life examples to explain criminal behavior Coverage of violent and property crimes is included throughout theory chapters so that students can clearly understand the application of theory to criminal behavior Updates to the Fourth Edition include recent major social events such as the George Floyd protests changes in crime trends and criminal behavior as a result of the COVID 19 pandemic updated crime statistics case studies as well as contemporary topics such as mass shooting events and the legalization of marijuana use

Crime, Law and Social Science Jerome Michael, Mortimer Jerome Adler, 1933

Qualitative Research Practice Jane Ritchie, Jane Lewis, Carol McNaughton Nicholls, Rachel Ormston, 2013-11-19 Why use qualitative methods What kinds of questions can qualitative methods help you answer How do you actually do rigorous and reflective qualitative research in the real world Written by a team of leading researchers associated with NatCen Social Research the National Centre for Social Research this textbook leads students and researchers through the entire process of qualitative research from beginning to end moving through design sampling data collection analysis and reporting In this fully revised second edition you will find A practical account of how to carry out qualitative research which recognises a range of current approaches and applications A brand new chapter on ethics A brand new chapter on observational research Updated advice on using software when analysing your qualitative data New case studies which illustrate issues you may encounter and how problems have been tackled by other researchers This book is an ideal guide for students practitioners and researchers faced

with the challenges of doing qualitative research in both applied and academic settings in messy real life contexts

British Books in Print ,1924 British Books ,1915 Cognitive Psychology Sandie Taylor,Lance

Workman,2021-09-15 Cognitive Psychology The Basics provides a compact introduction to the core topics in the field discussing the science behind the everyday cognitive phenomena experienced by us all The book considers laboratory and applied theory and research alongside technological developments to demonstrate how our understanding of the brain s role in cognition is improving all the time Alongside coverage of traditional topics in the field including attention and perception learning and memory thinking problem solving and decision making and language the book also discusses developments in interrelated areas such as neuroscience and computational cognitive science New perspectives including the contribution of evolutionary psychology to our understanding of cognition are also considered before a thoughtful discussion of future research directions Using real world examples throughout the authors explain in an accessible and student friendly manner the role our human cognition plays in all aspects of our lives It is an essential introductory text suitable for all students of Cognitive Psychology and related disciplines It will also be an ideal read for any reader interested in the role of the brain in human behavior **Subject Index of Modern Books Acquired** British Library,1922 Subject Index of the Modern

Books Acquired by the British Museum in the Years 1916-1920 British Museum. Department of Printed Books,1922

Crime and Criminality Sandie Taylor,2015-12-22 The question of why and how certain individuals are drawn towards behaving in a way that contravenes the Law of the Land is not an easy one to address Researchers from various different fields have nevertheless attempted to develop theoretical explanations for the existence of different types of crime and why some individuals commit such acts Crime and Criminality draws on criminology sociology psychology and neuroscience to offer a balanced perspective of crime the criminal and criminality Coverage includes a comprehensive discussion of theoretical approaches to criminal behaviour including biological social and rational choice approaches an analysis of legal and social definitions of crime and how these definitions influence the way specific behaviours are labelled as criminal an examination of different types of crime and criminals from delinquents to psychopaths and sex offenders an exploration of different ways in which crime is predicted including risk assessment and offender profiling and an overview of investigative techniques Addressing a broad range of topics and offering a synthesis of competing theoretical explanations of criminality this book is essential reading for students taking courses in criminology criminal psychology criminal behaviour forensic psychology and psychological criminology **Subject Index of the Modern Books Acquired by the British Museum in the Years ...** British Museum,1922 **The Cumulative Book Index** ,1922
