Internationalizing the Psychology Curriculum in the United States Frederick Leong, Wade E. Pickren, Mark M. Leach, Anthony J. Marsella, 2011-12-27 The psychology community recognizes that cultivating an international worldview is crucial not only to professionals and researchers but more importantly for professors and students of psychology as well It is critically necessary for psychologists to learn from their colleagues who are working in different cultural contexts in order to develop the type of knowledge and psychological understanding of human behavior that will be maximally useful to practitioners and researchers alike This volume Internationalizing the Psychology Curriculum in the United States provides information and resources to help psychology faculty educate and train future generations of psychologists within a much more international mindset and global perspective Recognizing that cultural context are central to a true and accurate psychology the authors

describes how cultural economic political and social factors in different countries frame individual experience and affect the science and practice of psychology Each of the chapters will provide a content specific overview of how the curriculum in psychology with regards to social development clinical counseling psychology etc will need to be modified in order to present a much more global view of psychology

Jung's Studies in Astrology Liz Greene, 2019-09-04 Winner of the IAJS award for best authored book of 2018 C G Jung had a profound interest in and involvement with astrology which he made clear in virtually every volume of the Collected Works as well as in many of his letters This ancient symbolic system was of primary importance in his understanding of the nature of time the archetypes synchronicity and human fate Jung's Studies in Astrology is an historical survey of his astrological work from the time he began to study the subject It is based not only on his published writings but also on the correspondence and documents found in his private archives many of which have never previously seen the light of day Liz Greene addresses with thoroughness and detailed scholarship the nature of Jung's involvement with astrology the ancient medieval and modern sources he drew on the individuals from whom he learned his ideas about how and why it worked its religious and philosophical implications and its applications in the treatment of his patients as well as in his own self understanding Greene clearly demonstrates that any serious effort to understand the development of Jung's psychological theories as well as the nature of his world view needs to involve a thorough exploration of his astrological work This thorough investigation of a central theme in Jung's work will appeal to analytical psychologists and Jungian psychotherapists students and academics of Jungian and post Jungian theory the history of psychology archetypal thought mythology and folklore the history of New Age movements esotericism and psychological astrology
